Blood Revenge Christopher Boehm,1987 **Blood Revenge** Christopher Boehm,1984-01-01 *Blood Revenge* Christopher Boehm,1984 **Handbook of Monetary Policy** Jack Rabin,2020-04-30 This handbook explains the development and implementation of monetary policy It examines theories and issues related to the preservation of economic activity and explores why the preservation of economic stability is a principal goal of public policy **The TRIBES and CLANS of MONTENEGRO** Vladislav Alexander Stefan,2008-09-26 The TRIBES and CLANS of MONTENEGRO The studies in the ethnogenesis of Montenegro by V Alexander Stefan and the Stefan University Press editors **Feuding and Warfare** Keith F. Otterbein,2020-12-22 Originally published in 1994 the late Keith F Otterbein s scholarship had followed an overall design since 1962 when he began conducting comparative studies of warfare using both ethnographic and cross cultural methods Through a conceptual framework derived from systems theory he made signal contributions to our understanding of the role of warfare in human social evolution He formulated a Fraternal Interest Group theory utilizing it to explain not only feuding and warfare but also rape and capital punishment Believing that armed combat is learned behaviour he posed questions about its learning process that had yet to be answered He acted as a major synthesizer of the growing literature on warfare and led attempts among anthropologists to apply their knowledge of war and peace to current events This volume will serve both as a useful introduction to the anthropology of war and as a needed compendium of Professor Otterbein s ideas **Feuding, Conflict and Banditry in Nineteenth-Century Corsica** Stephen Wilson,2003-10-30 A study of vendetta and banditry applying insights from the field of social anthropology Empire of Manners James Grehan,2025-09-09 It is easy to believe that manners are empty gestures little more than social artifice or practiced etiquette whose sole purpose is to project civility and facilitate social interaction But if we look more closely they can tell us much more than we might first suppose revealing what conventional accounts of state economy and religion often ignore With this book James Grehan offers a panoramic view of manners and sociability across the eighteenth century Ottoman Empire from the Balkans to the Middle East to North Africa Studying chronicles biographical dictionaries and travel accounts he throws new light on the inner dynamics of Ottoman society during a transitional period in Ottoman history which has too often been misunderstood Empire of Manners proposes a new way of thinking about the history of manners arguing that violence and war making as much as civility and etiquette have a central role in shaping them The eighteenth century proved to be a turning point in this paradoxical relationship between violence and manners as war making turned into a substantially more complex and costly enterprise leaving a deeper and wider social footprint The interplay between violence and manners an unlikely couple unexpectedly narrates the Ottoman path to the modern age Military Review ,2000 **Intercultural Variation in Family Research and Theory** Roma S Hanks,Marvin B Sussman,2014-05-12 Intercultural Variation in Family Research and Theory sets forth 23 critical reviews in a 2 volume set that document the development of family research and

The Benefits of Peace: Private Peacemaking in Late Medieval Italy Glenn Kumhera, 2017-02-06 In *The Benefits of Peace: Private Peacemaking in Late Medieval Italy* Glenn Kumhera offers the first comprehensive account of private peacemaking weaving together its legal religious political and social meanings across several cities 13th 15th centuries The ability of peacemaking to hinder criminal prosecution has often been considered the result of government powerlessness Kumhera however examines the benefits of private peacemaking detailing how its flexibility was crucial in creating a viable criminal justice system that emphasized violence prevention and recognition of jurisdiction while allowing space for friends neighbors and clergy to intervene Additionally he explores the roles of women and clergy in peacemaking how peace operated in a vendetta culture and how the medieval understanding of reconciliation affected the practice of peacemaking

Trial Stories in Jewish Antiquity Chaya T. Halberstam, 2025-05-15 What can early Jewish courtroom narratives tell us about the capacity and limits of human justice By exploring how judges and the act of judging are depicted in these narratives *Trial Stories in Jewish Antiquity* Counternarratives of Justice challenges the prevailing notion both then and now of the ideal impartial judge As a work of intellectual history the book also contributes to contemporary debates about the role of legal decision making in shaping a just society Chaya T Halberstam shows that instead of modelling a system in which lofty inaccessible judges follow objective and rational rules ancient Jewish trial narratives depict a legal practice dependent upon the individual judge s personal relationships reactive emotions and impulse

to care Drawing from affect theory and feminist legal thought Halberstam offers original readings of some of the most famous trials in ancient Jewish writings alongside minor case stories in Josephus and rabbinic literature She shows both the consistency of a counter tradition that sees legal practice as contingent upon relationship and emotion and the specific ways in which that perspective was manifest in changing times and contexts **Violence in Roman Egypt** Ari Z.

Bryen,2013-08-21 What can we learn about the world of an ancient empire from the ways that people complain when they feel that they have been violated What role did law play in people s lives And what did they expect their government to do for them when they felt harmed and helpless If ancient historians have frequently written about nonelite people as if they were undifferentiated and interchangeable Ari Z Bryen counters by drawing on one of our few sources of personal narratives from the Roman world over a hundred papyrus petitions submitted to local and imperial officials in which individuals from the Egyptian countryside sought redress for acts of violence committed against them By assembling these long neglected materials also translated as an appendix to the book and putting them in conversation with contemporary perspectives from legal anthropology and social theory Bryen shows how legal stories were used to work out relations of deference within local communities Rather than a simple force of imperial power an open legal system allowed petitioners to define their relationships with their local adversaries while contributing to the body of rules and expectations by which they would live in the future In so doing these Egyptian petitioners contributed to the creation of Roman imperial order more generally

Post-War Identification Torsten Kolind,2008-11-12 Stolac the town of departure for this book and the site where the author conducted fieldwork is located in the south western corner of Bosnia Herzegovina The war in Bosnia Herzegovina 1992 95 was initially an act of aggression and territorial conquest instigated by Serbian political leaders However as the war progressed it increasingly came to consist of several minor wars one of them fought in Western Bosnia Herzegovina between Croatian and Muslim forces This was the one that affected the inhabitants of Stolac the most Before the war ethnic identity in Bosnia Herzegovina was only one identity among others and ethnic differences were embedded in everyday practices Today ethnic difference is all there is The Muslims of Stolac are fully aware that as Muslims they constitute a totally separate group and that ethnic identity is by far the most important form of identity in present day Bosnia Herzegovina In that regard the nationalist project has succeeded Such a crystallisation and explication of identity fits in well with the structurally inspired anthropology of war and violence which theorises that the function of violence is to create unambiguous identities However *Post War Identities* shows that for the Muslims of Stolac the creation of unambiguous ethnic identities is only half the story

Polluting the Sacred D. E. Thiery, 2009 The influence of Christianity on the history of violence is often exemplified by famous instances of interfaith conflict like The Crusades However as religions develop they usually marginalize violence against fellow believers long before they ever if at all question violence against others Through an investigation of spiritual and legal sources this book details how Christian teachings about charity sin and purity problematized late medieval parishioners use of violence and how parishioners actually tried to reconcile these teachings with cultural norms that often honored violent conduct By illuminating the impact of lessons concerning the sinfulness of violence and piety of self restraint this book provides a fresh perspective on the important role of religion in the civilizing process of European history

Violence in China Association for Asian Studies. Meeting, 1990-04-05 In this volume Lipman and Harrell explore the prevalence and ubiquity of violence in China a society whose official norms value harmony and condemn conflict The book investigates violence in a wide variety of situations through the sweep of history and in contexts ranging from the family to the national polity The book explores motivations for violence from both a historical and a contemporary perspective Historically the authors cover bloody religious rebellions in premodern times the depiction of violence in traditional popular novels ethnic strife between Muslims and Han Chinese in the Northwest and feuding local communities in the Southeast Modern China is depicted by analyses of rural and urban violence in Mao's Cultural Revolution and an examination of continuing domestic violence This depiction of the cultural themes and motivations for violence allow lessons drawn from specific contexts to be applied to the nature of Chinese culture in general

Honor and Violence in Golden Age Spain Scott K. Taylor, 2008-11-17 Early modern Spain has long been viewed as having a culture obsessed with honor where a man resorted to violence when his or his wife's honor was threatened especially through sexual disgrace This book the first to closely examine honor and interpersonal violence in the era overturns this idea arguing that the way Spanish men and women actually behaved was very different from the behavior depicted in dueling manuals law books and honor

plays of the period Drawing on criminal and other records to assess the character of violence among non elite Spaniards historian Scott K Taylor finds that appealing to honor was a rhetorical strategy and that insults gestures and violence were all part of a varied repertoire that allowed both men and women to decide how to dispute issues of truth and reputation
