Blood and Belief David Biale,2007-10-23 A wonderful rich and fascinating book and a great read Biale explores the meanings of blood within Jewish and Christian cultures from the blood of the sacrifices of the book of Leviticus to the blood of the Eucharist to the blood of medieval blood libels and the place of blood in Nazi ideology Biale shows that blood symbolism stands at the center of the divide between Judaism and Christianity This book will be the point of departure for all future studies of the subject Shaye J D Cohen Harvard University I know of no other work that through numerous insights and useful distinctions so alerts us to and comprehensively documents the ongoing constitutive role of Christian and anti Semitic perceptions of Jewish existence and the interactions between them Whereas much contemporary historiography has become so specialized that historians have surrendered the larger picture David Biale s panoramic perspective reveals the great value and interest of this work Steven E Aschheim author of Beyond the Border The German Jewish Legacy Abroad

Blood, Land, and Sex Lyda Favali,Roy Pateman,2003-06-18 In Eritrea state traditional and religious laws equally prevail but any of these legal systems may be put into play depending upon the individual or individuals involved in a legal dispute Because of conflicting laws it has been difficult for Eritreans to come to a consensus on what constitutes their

legal system In *Blood Land and Sex* Lyda Favali and Roy Pateman examine the roles of the state ethnic groups religious groups and the international community in several key areas of Eritrean law blood feud or murder land tenure gender relations marriage prostitution rape and female genital surgery Favali and Pateman explore the intersections of the various laws and discuss how change can be brought to communities where legal ambiguity prevails often to the grave harm of women and other powerless individuals This significant book focuses on how Eritrea and other newly emerging democracies might build pluralist legal systems that will be acceptable to an ethnically and religiously diverse population **The Mute Immortals Speak** Suzanne Pinckney Stetkevych,2010 The Mute Immortals Speak will be important for students and scholars in the fields of Middle Eastern literatures Islamic studies folklore oral literature *Ancient Israel* Roland De Vaux,1997-03-25 Considered by many to be a modern classic Ancient Israel offers a fascinating full scale reconstruction of the social and religious life of Israel in Old Testament times Drawing principally on the text of the Old Testament itself as well as from archaeological evidence and information gathered from the historical study of Israel s neighbors de Vaux first provides an extensive introduction to the nomadic nature of life in ancient Israel and then traces in detail the developments of Israel s most important institutions family civil military and religious and their influence on the nation s life and history

The Evolution of War Maurice R. Davie,2003-12-29 Thorough highly informative and exhaustive study presents an exceptional collection of cases examining such topics as warfare as the business of one sex religion as a cause of war and war for the sake of glory Cannibalism human sacrifice blood revenge and other factors in warfare among primitive peoples are also expertly examined Making Manslaughter: Process, Punishment and Restitution in Württemberg and Zurich, 1376-1700 Susanne Pohl-Zucker,2017-06-06 In Making Manslaughter Susanne Pohl Zucker offers parallel studies that trace the legal settlement of homicide in the duchy of W rttemberg and the imperial city of Zurich between 1376 and 1700 Killings committed by men during disputes were frequently resolved by extrajudicial agreements during the late Middle Ages Around 1500 customary strategies of dispute settlement were integrated and modified within contexts of increasing legal centralization and in W rttemberg negotiated with the growing influence of the ius commune Legal practice was characterized by indeterminacy and openness categories and procedures proved flexible and judicial outcomes were produced by governmental policies aimed at the re establishment of peace as well as by the strategies and goals of all disputants involved in a homicide case See inside the book **The Boundaries of Meaning and the Formation of Law** Sharron Gu,2006-04-18 Different legal systems share some basic developmental tendencies that are rooted in the historical evolution of language and culture In this comparative history of English common law Islamic law and Chinese imperialist law Sharron Gu describes the formation of three diverse legal systems in terms of their unique linguistic environments She argues that the characteristics of each language define the nature of the common statute administrative and religious laws associated with it and set the boundaries for its legal imagination **Mohammed** Essad Bey,2016-11-04 But above all Essad

Bey was a brilliant intoxicating stylist Bey's writing is of a kind that hardly exists among contemporary non-fiction writers even less so among experts on Islam It has rhythm and uses harmonious imagery it is rich in semantic and syntactic variations he understands the arc of suspense so well that it sometimes carries the author away from historical facts towards possible but not proven fiction His biography on Mohammed has perhaps no place in scientific libraries but one could not think of a more entertaining depiction one which captures the spirit of early Islamic history above and beyond that of any source critical monograph Navid Kermani

The Mirror of Justice Theodore Ziolkowski, 2018-06-05 This book studies major works of literature from classical antiquity to the present that reflect crises in the evolution of Western law the move from a prelegal to a legal society in The Eumenides the Christianization of Germanic law in Njal's Saga the disenchantment with medieval customary law in Reynard the Fox the reception of Roman law in a variety of Renaissance texts the conflict between law and equity in Antigone and The Merchant of Venice the eighteenth century codification controversy in the works of Kleist the modern debate between pure and free law in Kafka's The Trial and other fin de siècle works and the effects of totalitarianism the theory of universal guilt and anarchism in the twentieth century Using principles from the anthropological theory of legal evolution the book locates the works in their legal contexts and traces through them the gradual dissociation over the centuries of law and morality It thereby associates and illuminates these masterpieces from an original point of view and contributes a new dimension to the study of literature and law In contrast to prevailing adherents of Law and Literature this book professes Literature and Law in which the emphasis is historical rather than theoretical substantive rather than rhetorical and literary rather than legal Instead of adducing the literary work to illustrate debates about modern law this book consults the history of law as an essential aid to the understanding of the literary text and its conflicts
