

THE COLORADO TENT COLONY SHOT UP BY THE MILITIA

Ludlow, a canvas community of 400 souls, was riddled with machine guns shooting 400 bullets a minute. Then the tents were burned. The site is private property leased by the miners' union, which has supported the colony seven months.

Bloody Ludlow:

Bloody Ludlow Patrick Ludlow, 1988-01-01 **The Death of A Thousand Cuts** Jarol B. Manheim, 2000-11-01 A corporate campaign is an organized assault on the reputation of a company that has offended some interest group. Although corporate campaigns often involve political, economic and legal tactics, they are centered around the media where protagonists attempt to redefine the image and undermine the reputation of the target company. It is a strategy most frequently employed by unions but is also employed by special interests such as environmental or human rights groups. Sometimes it is even employed by one corporation against another. It is a rapidly growing phenomenon that is still unknown to the general public, to most academics and journalists, and is rarely understood by the corporations that find themselves on the firing line. *The Death of a Thousand Cuts* argues and demonstrates that corporate campaigns are a distinctive phenomenon whose manifestations are today ubiquitous in both the marketplace and the media. This volume examines in considerable detail the history, strategy, tactics, effects, consequences, and likely future directions of the corporate campaign and of its nonlabor-based cousin, the anticorporate campaign. The book is based on ample sources and methods, among them an extensive review and analysis of media coverage, news releases, previous scholarship, union publications, campaign materials, interviews and conversations with individuals who have experienced corporate campaigns, public presentations by labor leaders and others, correspondence, Internet postings, case law summaries, documents, videotapes, and other materials. Through original data and interpretation, this book adds context and integration to these materials, thus giving them new meaning. Key features of this outstanding new book include: A thorough and clear explanation of what a corporate campaign is and how it differs from other, more mundane public relations campaigns; A detailed examination of strategies and tactics that includes their historical development; Some of the more high-profile target companies in recent years include Coca-Cola, Microsoft, Caterpillar, Campbell's Soup, Federal Express, General Dynamics, Home Depot, International Paper, K-Mart, Nike, Texaco, Walmart, Starbucks, and UPS. Hundreds of examples that help explain such contemporary events as the anti-sweatshop movement on college campuses, the living wage movement, and the protests against the World Trade Organization, International Monetary Fund, and World Bank. A lengthy appendix contains abbreviated descriptions of nearly 200 corporate campaigns waged by labor unions and various advocacy groups since the idea of the corporate campaign was first developed in the 1960s.

Reform Or Repression Chad Pearson, 2016 Examining the professional lives of a variety of businessmen and their advocates with the intent of taking their words seriously, Chad Pearson paints a vivid picture of an epic contest between industrial employers and labor and challenges our comfortable notions of Progressive Era reformers.

McGhee,2016-09-30 After the death of Marion Morrison known as John Wayne in 1979 President Jimmy Carter said that Wayne was bigger than life In an age of few heroes he was the genuine article But he was more than a hero he was a symbol of many of the qualities that made America great The first section of this study concentrates on Wayne s style of work and sphere of action as an actor The man who works for a living and is concerned with his audience and the constraints of his immediate environment The second section examines the artist the man who lives in his art who disappears into his character as an archetype of human fears and desires Analyses of films that have made Wayne a hero are presented in the third section A comprehensive filmography and numerous photographs are included **Rebuilding the Pulp and Paper Workers Union** Robert H. Business as a System of Power Robert Brady, 2017-11-30 *Business as a System of Power* was the direct product of extensive and continuing study of the rise of bureaucratic centralism The project was begun in 1934 and resulted a decade later in this volume arguably the most important work in comparative and historical economics to emerge in the World War Two period Indeed Brady's theorems such as the bureaucratic authoritarian model of development became a touchstone for the study of Third World economies Brady saw the direction of business moving in a variety of directions from the totalitarian model set by fascism with its highly centralized approach to special interests profit making and policy made in the interests of those who rule and the alternative democratic model set by the democracies of the West which expound the latitude of direct public participation in decision making and social organization of the economy as a whole Brady does not indulge in cheap conspiracy theory Rather he sees the business classes worldwide as possessing a collective mind but not a collective will In this setting the business civilization itself is at stake The volume offers a fascinating study of German Nazism Italian fascism and Japanese militarism as a series of policies rather than historical inevitabilities But the work is also a foreboding and a warning to democratic varieties of capitalism As business becomes increasingly global in character unbound by national interests or democratic aims it also becomes more rational in its own terms Its drive for maximizing profits with scant regard to what may be less cost effective but more open to popular control or participation becomes transparent Brady provides a remarkably prescient albeit controversial study of trends in Western democracy and big business Robert S Lynd in his Preface writes Brady cuts through to the central problem disrupting our world a world wide counter revolution against democracy More than a half century later in his outstanding review of the life and career of Robert Brady Douglas Dowd points to the same lessons economic inequities economic globalization and political concentration of power In such a world the counsel of a Brady never loses its vitality Robert A Brady was professor of economics at Columbia University and author of *The Rationalization Movement in German Industry* *The Spirit and Structure of German Fascism* and *The Scientific Revolution in Industry* Douglas F Dowd was professor of economics at Johns Hopkins University and author of a number of important books on economics including *Modern Economic Problems in Historic Perspective*

immigrants is underscored as we explore how the immigrants went from being citizens of Italy to citizens of the United States. The life of these immigrants centered around the mines in rural Colorado. Although the immigrant communities were formed from immigrants from all around the world as well as rural Southerners, black and white who did not share one another's languages and dialects, the common living and dying together bridged any language gaps. There was joy and there was tragedy, but in the end, the immigrants emerged as American.

Frontier Comrades Jim Wilke, *The Life and Times of Walter Reuther* James TenEyck, 2016-06-03. *The Life and Times of Walter Reuther: An Unfinished Liberal Legacy* recounts the events and social movements that have shaped modern America and examines Reuther's involvement in them. For over thirty years, Walter Reuther and his United Automobile Workers union were in the vanguard of voices advancing liberal economic and social policies that raised the standard of living for many Americans, extended the protection of the law, and provided a measure of security for the aged, infirm, disabled, and unemployed. In the narrative, Reuther serves as the lens through which a period of labor advances, civil rights struggle, and hot and cold wars are viewed from a liberal perspective. The book follows Walter and Victor Reuther on their European adventure to their ancestral homeland during the rise of Hitler and into the Gorky autoworks factory in Soviet Russia. The pair returned home to the labor battles in Flint and Dearborn that established a UAW presence in the factories and brought Walter Reuther to the bargaining table to negotiate the agreements that served as the treaty between labor and management for over two decades. Reuther's story includes assassination attempts, confrontations with Senator Goldwater and Nikita Khrushchev, and a presence on the world stage and on the steps of the Lincoln Memorial when Martin Luther King recounted his dream. In the later chapters, the book looks beyond the life of the man and the events of his time and seeks to advance a liberal legacy that recently has been relentlessly attacked and too timidly defended.
