American Florist, 1894 **Weekly Weather and Crop Bulletin**, 1984 *Painting and Private Life in Eleventh-century China* Robert E. Harrist, Gonglin Li, 1998 In the eleventh century the focus of Chinese painting shifted dramatically The subject matter of most earlier works of art was drawn from a broadly shared heritage of political religious and literary themes Late in the century however a group of scholar artists began to make paintings that reflected the private

experiences of their own lives Robert Harrist argues here that no work illuminates this development more vividly than Mountain Villa a handscroll by the renowned artist Li Gonglin ca 1041 1106 Through a detailed reading of the painting and an analysis of its place in the visual culture of Li s time the author offers a new explanation for the emergence of autobiographic content in Chinese art Harrist proposes that the subject of Li s painting his garden in the Longmian Mountains was itself a form of self representation since a garden was then considered a reflection of its owner s character and values He demonstrates also that Li s turn toward the imagery of private life was inspired by the conventions of Chinese lyric poetry in which poets recorded and responded to the experiences of their lives The book draws the reader into the artistic scholarly and political world of Li Gonglin and shows the profound influence of Buddhism on Chinese painting and poetry It offers important insights not just into Chinese art but also into Chinese literature and intellectual history
