Manufacturing Hope and Despair Ricardo D. Stanton-Salazar, 2001 Relying on a wealth of ethnographic and statistical data this groundbreaking volume documents the many constraints and social forces that prevent Mexican origin adolescents from constructing the kinds of networks that provide access to important forms of social support Special attention is paid to those forms of support privileged youth normally receive and working class youth do not such as expert guidance regarding college opportunities The author also reveals how some working class ethnic minority youth become the

exception weaving social webs that promote success in school as well as empowering forms of resiliency In both cases the role of social networks in shaping young people's chances is illuminated In this badly needed alternative to the individualism that pervades most debates about American education Stanton Salazar explores how Latino teenagers' lives are embedded within social networks from home community and school This grand work shows how school programs can confound or can draw from the strengths of such networks to build better lives for all Bruce J Biddle Professor Emeritus of Psychology and Sociology University of Missouri Columbia A beautifully written and inspiring book that announces a new generation of Mexican Latino scholars This is a book which tells the tale about Mexican Latino adolescents but in reality it is a book about how working class adolescent life is socially constructed defined and elaborated in the United States An eloquent rendering indeed Carlos G V lez Ib ez Presidential Chair in Anthropology University of California Riverside Using creative theorizing and rigorous methodology *Manufacturing Hope and Despair* illuminates brilliantly the supposed mystery of persistent race class inequities in American society Walter R Allen Professor University of California Los Angeles

Busing and Backlash Lillian B. Rubin, 2023-11-15 This thought provoking book delves into the racial political and social turmoil surrounding the Richmond Unified School District RUSD during a critical period of attempted school desegregation through busing in the late 1960s and early 1970s Authoritative and deeply personal the author combines field observations interviews and historical analysis to uncover the dynamics of a community torn apart by the integration of schools What began as a court ordered initiative to desegregate elementary schools quickly escalated into a heated battle between pro busing liberal coalitions and newly galvanized conservative factions The book examines the underlying racial tensions class divisions and ideological conflicts that defined this period offering a microcosmic view of broader struggles in American society In recounting the RUSD's journey from liberal moderate governance to conservative dominance the book exposes the intricate dynamics of grassroots mobilization ideological polarization and the broader implications of busing policies Through firsthand narratives from leaders and citizens on both sides the author paints a vivid picture of the political and emotional stakes from fiery board meetings to the broader national backlash against forced integration Both a sociological case study and a narrative of political transformation *Busing and Backlash* provides a nuanced exploration of a contentious chapter in the fight for civil rights and public education reform This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1972

Local Baptists, Local Politics Clifford Anthony Grammich, 1999 This book explores the political views and actions of religious adherents who claim to base their faith on a literal interpretation of the Bible Focusing on several small Baptist sects scattered throughout the middle and uplands South Clifford Grammich finds that these groups are often highly engaged politically at the local level He thus challenges the

traditional view of these Baptists as politically aloof concerned only with matters of faith and personal conduct Grammich shows that the politics arising from these groups religious beliefs are not those of any consistent pervasive ideology Rather he argues such politics more often reflect a series of adaptations to local circumstances
