**Entomological Pamphlets** ,1898 **Directory of Australian Birds: Passerines** R Schodde,IJ Mason,1999-10-01

Recent classifications of Australian birds have been limited to lists of species which are inadequate as biodiversity indicators. The Directory of Australian Birds: Passerines fills a huge gap in ornithological knowledge by separating out and listing not only 340 species of song birds but also the 720 distinct regional forms. Covering about half the national bird fauna, the Directory provides science and the community with baseline information about what bird it is and where it lives in an Australia-wide context. Identity is taken down to the level of distinct regional population. No other compendium on Australian birds does this.

**This Bird** Astred Hicks, Holly Parsons, 2025-08-01. Discover the birds that share our urban spaces. What's so fancy about this bird? What's so clever about that bird? Perhaps it's a weightlifter, a marathon flier, an artist, or even a liar. You don't need to go far to see intriguing birds even in the city. From colourful parrots to artistic bowerbirds and fancy fairy wrens, there's lots to notice in our local backyards, streets, and parks. Written by Astred Hicks in collaboration with bird scientist Dr Holly Parsons and featuring Astred's distinctive and engaging illustrations. This Bird features fun facts about some remarkable Australian native birds and hints on where and how to find them. Reading level varies from child to child, but we recommend this book for ages 6 to 12. Charming, eye-catching, fresh, and informative. This Bird explores iconic Australian birds as well as some of the more overlooked species, sharing fun facts and important stories as they go. Sami Bayly, author of *The Illustrated Encyclopaedia of Ugly Animals*. Sometimes experienced birders can forget what first sparked our interest in birds. This beautiful book is a delightful reminder of the wonder that birds inspire in us. It finds the sublime in the everyday encounters we have with these endlessly fascinating creatures that we can see literally right outside our windows. Sean Dooley, BirdLife Australia.
