A Beleaguered City Margaret Oliphant, 2006-11 It was on a summer evening about sunset the middle of the month of June that my attention was attracted by an incident of no importance which occurred in the street when I was making my way home after an inspection of the young vines in my new vineyard to the left of La Clairiere In a moment the tinkle of a little bell warned all the bystanders of the procession which was about to pass carrying the rites of the Church to some dying person Just in front of me was Jacques Richard always a troublesome individual standing doggedly with his hat upon his head and his hands in his pockets straight in the path of M le Cure There is not in all France a more obstinate fellow He stood there notwithstanding the efforts of a good woman to draw him away and though I myself called to him M le Cure is not the man to flinch and as he passed walking as usual very quickly and straight his soutane brushed against the blouse of Jacques He gave one quick glance from beneath his eyebrows at the profane interruption but he would not distract himself from his sacred errand at such a moment It is a sacred errand when anyone be he priest or layman carries the best he can give to the bedside of the dying I said this to Jacques when M le Cure had passed and the bell went tinkling on along the street Jacques said I I do not call it impious like this good woman but I call it inhuman What a man goes to carry help to the dying and you show him no respect This brought the color to his face and I think perhaps that he might have become ashamed of the part he had played but the women pushed in again as they are so fond of doing Oh M le Maire he does not deserve that you should lose your words upon him they cried and besides is it likely he will pay any attention to you when he tries to stop even the bon Dieu

Margaret Oliphant's Curative Gothic Literature Katerina García-Walsh, 2025-11-06 Prolific Scottish novelist Margaret Oliphant 1828 1897 remembered chiefly for her realist fiction and biting literary criticism of contemporary authors also wrote nineteen supernatural tales This monograph offers a comprehensive exploration of Oliphant's Gothic literature in the light of her religious beliefs cultural context and experiences of death and mourning as she survived her husband and all six of her children Oliphant's stories set in the afterlife depict the dead as inhabiting a new existence characterised by spiritual growth while her tales set on earth attempt contact between the mortal and immortal planes Garc a Walsh illustrates Oliphant's unique theological conception of afterliving which ultimately seeks to eradicate the divide between the living and their deceased loved ones reimagining death as a liminal passage towards God and divine self development This book thus suggests a new direction for Gothic studies by showing how Oliphant's supernatural fiction provided a means of curative writing transforming the traumatic reality of death into a source of hope The volume is suited for students researchers and academics in the disciplines of literature and history particularly the fields of nineteenth century studies Victorian studies and Gothic studies with an interest in women's writing theology and mental health trauma studies
