A Bibliography Of Households Published In Britain 1800-1914:

A Bibliography of Cookery Books Published in Britain, 1875-1914 Elizabeth Driver, 1989 Mrs Beeton's Book of Household Management Isabella Beeton, 2008-06-12 Alternately fashionable and frugal anxious and self confident this text highlights the concerns of the Victorian middle class at a key point in its history *Fiction on the Page in Nineteenth-Century Magazines* Maria Damkjær, 2024-11-25 What makes fiction recognizable as fiction Texts are shaped by their material print but this book argues that they can also be made in response to it that the needs of the magazine in the nineteenth century spurred writers to create hybrid entangled texts Using book history genre theory and literary close reading this book argues that narrative fiction in the nineteenth century popular periodical was a malleable substance By looking at typography and the attempts to squeeze in too much text or stretch out too little text the book asks what the relationship was between the page that needed filling and the short story that tried to fill it In the messy hybrids and outliers we explore what fiction might have become The book works with magazines like the *Englishwoman's Domestic Magazine* first series 1852-59 the *Family Herald* 1842-1945 the *Home Circle* 1849-54 and authors like Elizabeth Gaskell George Augustus Sala and Samuel Beeton It also includes a chapter on Charles Dickens's arguably least successful venture *Master Humphrey's Clock* 1840-1 where Dickens was noticeably straining to sell and fill a weekly magazine While the book is not attempting to destabilise the status of canonical fiction it does ask how the page makes fiction happen what kind of readers magazines imagined for themselves and what readers thought they were reading when they picked up an issue The book argues that magazines projected a print imaginary a symbolic realm where the magazine fits perfectly into the lives of happy active readers **The British National Bibliography** Arthur James Wells, 1991 **Victorian Studies** Sharon W. Propas, 2016-06-17 First published in 2006 this work is a valuable guide for the researcher in Victorian Studies Updated to include electronic resources this book provides guides to catalogs archives museums collections and databases containing material on the Victorian period It organises the vast array of reference sources by discipline to help researchers tailor their investigations **The Cambridge Companion to Victorian Culture** Francis O'Gorman, 2010-01-21 The Victorian era produced artistic achievements technological inventions and social developments that continue to shape how we live today This Companion offers authoritative coverage of that period's culture and its contexts in a group of specially commissioned essays reflecting the current state of research in each particular field Covering topics from music to politics art to technology war to domestic arts journalism to science the essays address multiple aspects of the Victorian world The book explores what Victorian has come to mean and how an idea of the Victorian might now be useful to historians of culture It explores too the many different meanings of culture itself in the nineteenth century and in contemporary scholarship An invaluable resource for students of literature history and interdisciplinary studies this Companion analyses the nature of nineteenth century British cultural life and offers searching perspectives on their culture as seen from ours **The British Library General**

Catalogue of Printed Books, 1986 to 1987 British Library, 1988 The Victorian Baby in Print Tamara S. Wagner, 2020
The first study to focus exclusively on the baby in nineteenth century literature and culture Drawing on novels by writers such as Charles Dickens Wilkie Collins Mary Elizabeth Braddon as well as parenting magazines and manuals it analyses how representations of infancy shaped an iconography that has defined the Victorian age **Annual Bibliography of British and Irish History**, 1987 **Cumulative Bibliography of Victorian Studies**, 1970 British Literary Bibliography, 1980-1989 Trevor Howard Howard-Hill, 1999

Serialization in Popular Culture Rob Allen, Thijs van den Berg, 2014-05-23
From prime time television shows and graphic novels to the development of computer game expansion packs the recent explosion of popular serials has provoked renewed interest in the history and economics of serialization as well as the impact of this cultural form on readers viewers and gamers In this volume contributors literary scholars media theorists and specialists in comics graphic novels and digital culture examine the economic narratological and social effects of serials from the nineteenth to the twenty first century and offer some predictions of where the form will go from here **Art, Culture, and Cuisine** Phyllis Pray Bober, 2001-06 How we define prepare and consume food can detail a full range of social expression Examining the subject through the dual lens of archaeology and art history this book argues that cuisine as an art form deserves a higher reputation **Index to British Literary Bibliography: 1980-1989** T. H. Howard-Hill, 1999

Dickens's Secular Gospel Chris Louttit, 2009-05-07 The first full length study on the subject of Dickens and work this book argues that rather than engaging with work as an abstract quasi religious and entirely benign value Dickens s writings demonstrate the varied ways in which it shapes gender identity and personality The Cambridge World History of Food Kenneth F. Kiple, Kriemhild Coneè Ornelas, 2000 A two volume set which traces the history of food and nutrition from the beginning of human life on earth through the present Coal in Modern Britain Charles-François Mathis, 2025-09-18 An exploration of Britain s relationship with coal from the explosion of the coal industry in the 1830s to the coal minded society of the 1940s Readers in a Revolution David McKitterick, 2022-06-30 This book traces a revolution in values that transformed nineteenth century attitudes to second hand books bibliography and collecting **A Feminist Case Study in Transnational Migration** Mary Gallant, 2009-03-26 Although until now virtually unacknowledged in the field of women education Anne Jemima Clough was active throughout her long life in the field Among other positions she held the position of principal of Newnham College Cambridge for more than a decade from 1880 until her death in 1892 But in spite of her prominent position her achievements were overshadowed by her more visible and vocal contemporaries in higher education such as Emily Davies and Josephine Butler Nevertheless she was always a loyal and tenacious follower and an uncomplaining worker In a subdued way she lived and laboured fervently for the furtherance of women s education Quietly and with remarkably little encouragement or guidance she pursued and finally realized her dream a dream that would at last allow her to help make education accessible to all women In this volume I have compiled edited and annotated most of Anne Jemima

Clough's unpublished papers In addition to transcribing her diaries or notebooks I have incorporated chronologically into the text some examples of the voluminous amount of correspondence she wrote and received during a long life filled with activity The Anne Jemima Clough papers will not only provide raw material for scholars studying the women's movement during the nineteenth century but they will also be a useful and engaging read for all students and scholars of the women's movement education Victorian feminism and gender studies

Demons of Domesticity Anne Clendinning, 2017-05-15 Demons of Domesticity offers a social history of the English gas industry from the 1880s to the late 1930s with an emphasis on the corporations that served London and the Home Counties It documents the hitherto unexamined role that women played in the development of the industry by considering two major interlocking themes the expansion of sales occupations for women in the English gas industry and the parallel growth and diversification of the industry's marketing strategies During the late nineteenth century the home became the focal point for a number of debates concerning female employment and gender roles As an increasing number of labour saving domestic devices came onto the market women found themselves targeted by manufacturing companies and utility suppliers both as consumers and advocates Foremost among these companies were representatives of the gas industry who actively addressed domestic issues As the promoters purveyors and consumers of domestic technology Demons of Domesticity suggests that English female employees and consumers were not the hapless dupes of corporate marketing but instead had clear ideas about how domestic technology could and should be used to reconfigure the public and private spaces of work and home
