A Brief Course in the Calculus, by William Cain Wm. (William) Cain, 2004-01-01 The National Union Catalog, Pre-1956 Imprints Library of Congress, American Library Association. Committee on Resources of American Libraries. National Union Catalog Subcommittee, 1970 **The Calculus of Observations** Edmund Taylor Whittaker, George Robinson, 1937 **The Educational Times, and Journal of the College of Preceptors**, 1909 *The Edinburgh University Calendar* University of Edinburgh, 1920 From Frechet Differentials to Firing Tables Alan Gluchoff, 2025-01-03

This monograph explores the history of the contribution to ballistics by the American mathematician Gilbert Ames Bliss during World War I Drawing on the then evolving calculus of variations Bliss pioneered a novel technique for solving the problem of differential variations in ballistic trajectory Called Bliss adjoint method this technique was both hailed and criticized at the time it was seen as both a triumphant application of pure mathematics to an applied problem and as a complex intrusion of higher mathematics into the jobs of military personnel not particularly interested in these matters Although he received much praise immediately after the War the details of Bliss work its furthering of pure mathematical thought and its absorption into mainstream ballistic work and instruction have never been adequately examined Gluchoff explores the mathematics of Bliss work and the strands from which his technique was developed He then documents the efforts to make the adjoint method accessible to military officers and the conflicts that emerged as a result both between mathematicians and officers and among mathematicians themselves The eventual absorption of the adjoint method into range firing table construction is considered by looking at later technical books which incorporate it and finally its influence on the ongoing development of functional calculus is detailed From Frechet Differentials to Firing Tables will appeal to historians of mathematics physics engineering and warfare as well as current researchers professors and students in these areas British Books in Print, 1940 The United States Catalog, 1906 **Dictionary Catalog of the University Library, 1919-1962** University of California, Los Angeles.
