Studies of nostalgia have long illustrated the emotional dynamics which condition our desire to go back to a time and a space that belong to the past. This book addresses this condition from an innovative perspective by over-exposing the spatial dimension of nostalgia. Doing so unveils alternative and complementary ways of thinking through how this emotion is activated in particular how space, unlike time, can be recreated in the present, even in a different location, with the deliberate aim of consoling this bittersweet sensation. The

volume defines this re creation as a space for nostalgia In this book this concept is applied within the context of cultural heritage and difficult memories As a further step then the volume questions the modalities through which nostalgia can interact with and permeate a space of memory therefore influencing collective understandings and the emotional re writings of our shared pasts Through case studies relating to challenging nostalgias for troubled pasts in Western Europe the book examines how the furnishing and use of space the discourses that surround it and the objects that become synecdoche of it provide a terrain where even unlikely or troubling forms of nostalgia can grow and blossom The Routledge Handbook of Nostalgia Tobias Becker,Dylan Trigg,2024-08-21 The Routledge Handbook of Nostalgia serves as a guide to the complex and often contradictory concept of nostalgia as well as the field of nostalgia studies more broadly Nostalgia is an area of intense interest across several disciplines as well as within society and culture more generally This handbook brings together an international interdisciplinary team of researchers to survey the current landscape and identify common trends achievements and gaps in existing literature Comprising 45 chapters the volume covers the following topics Disciplinary perspectives of nostalgias including philosophy history literature and psychology Conceptual aspects of nostalgia including homesickness temporality affectivity and memory Historical and political dimensions such as afro nostalgia populism feminism and queer nostalgia Spatial and material aspects of nostalgia including ruins regionalism and objects Media related nostalgia such as analogue and digital nostalgia reboots revivals gaming and graphic novels Essential reading for students and researchers working in nostalgia studies this book will also be beneficial to related disciplines such as philosophy anthropology geography history and literature cultural media heritage museum and film studies courses and more generally for readers interested in how the past is represented and used in the present **Modern Nostalgia** Robert Hemmings,2008-07-04 This book explores Siegfried Sassoon s writing of the twenties thirties and forties demonstrating the connections between trauma and nostalgia in a culture saturated with the anxieties of war Informed by the texts of Freud W H R Rivers and other psychological writers of the early twentieth century as well as contemporary theorists of nostalgia and trauma this book examines the pathology of nostalgia conveyed in Sassoon s unpublished poems letters and journals together with his published work It situates his ongoing anxiety about Englishness modernity and his relation to modernist aesthetics within the context of other literary responses to the legacy of war and the threat of war s return by writers including Edmund Blunden Robert Graves and T E Lawrence **A Passage of Nostalgia** Martina Viljoen,2020-12-20 Jacobus Kloppers an eminent composer organist pedagogue and scholar significantly contributed to musicological and organ teaching in South Africa and Canada and in the latter context art music and liturgical composition A Passage of Nostalgia The Life and Work of Jacobus Kloppers as a symbolic gesture constitute recognition of his work both in South Africa and Canada This publication is unique in that apart from relevant disciplinary perspectives biographical and autobiographical narrative and anecdote all constitute a necessary means through which the authors illuminate Kloppers compositional process and its creative outcomes

In this regard Kloppers generously dedicated his time to the project to make information on his life and work available often in complex ways This retrospective input supports the work offered as an authentic self reflective recounting of a life of dedicated service in music The construct of nostalgia as an overarching theme to this volume on some level denotes Kloppers position of cultural and religious insidedness and outsidedness However apart from representing a return to a lost and challenging past the composer s creative work affirms his individuality sense of artistic self and propensity for spiritual acceptance and tolerance Moreover nostalgia in his oeuvre takes on importance as a rhetorical artistic practice by which continuity is as central as discontinuity

Intimations of Nostalgia Michael Hviid Jacobsen,2021-11-05 This volume investigates the relationship between nostalgia and contemporary social issues From history and political theory to marketing and media each chapter discusses the way nostalgia has been presented within a specific disciplinary context and shows how nostalgia as a topic of research has evolved over time

Women, Love, and Commodity Culture in British Romanticism Daniela Garofalo,2016-02-17 Offering a new understanding of canonical Romanticism Daniela Garofalo suggests that representations of erotic love in the period have been largely misunderstood Commonly understood as a means for transcending political and economic realities love for several canonical Romantic writers offers instead a contestation of those realities Garofalo argues that Romantic writers show that the desire for transcendence through love mimics the desire for commodity consumption and depends on the same dynamic of delayed fulfillment that was advocated by thinkers such as Adam Smith As writers such as William Blake Lord Byron Sir Walter Scott John Keats and Emily Bront engaged with the period s concern with political economy and the nature of desire they challenged stereotypical representations of women either as self denying consumers or as intemperate participants in the market economy Instead their works show the importance of women for understanding modern economics with women s desire conceived as a force that not only undermines the political economy s emphasis on productivity growth and perpetual consumption but also holds forth the possibility of alternatives to a system of capitalist exchange

The Pastoral in Charles Griffes's Music Taylor A. Greer, 2024-06-18 At the turn of the century visionary composer Charles Tomlinson Griffes synthesized highly diverse elements from other musical traditions into his distinct artistic voice As American as he was far ranging in his interests Griffes was an aesthetic polyglot combining elements of literature visual arts global folk melodies and contemporary European art music into a new musical language The breadth of his sources of inspiration are breathtaking including the sensual harmonies of fin de siècle French music the British Aesthetic Movement folk music drawn from the Middle East and Java and a wide range of poets including William Blake Samuel Taylor

The Japanese in the Western Mind Perry Hinton, 2023-06-16 This fascinating book is an insightful exploration of Western perceptions and representations of Japanese culture and society drawing on social and cultural psychological ideas around stereotypes and intercultural relations Hinton considers how the West views the Japanese as an ideologically different other and proposes a cultural theory of stereotypes from which to explore Western observations of the Japanese The book explores Western socio-cultural representations of the Japanese alongside Edward Said's well-known theory of Orientalism It examines the West's intercultural relationship with Japan and how this has changed over time to show how the Japanese have been represented in the Western mind throughout history to

the present day Hinton argues that our view of other cultures is based on our own cultural expectations which involve complex issues of meaning making and perceived cultural differences This book foregrounds the research through accounts of Westerners about the Japanese to reveal how cultural representations can influence the ways in which people from different cultures communicate in interaction and how intercultural understanding or misunderstanding can arise By reflecting on the changing Western representations of the Japanese and how and why these have emerged this book will be of interest to students academics and general readers interested in stereotypes cultural psychology intercultural communication anthropology and Japanese culture and history
