Encyclopédie Méthodique, Ou Par Ordre De Matieres, 1791 **Mamluks and Animals** Housni Alkhateeb Shehada, 2012-11-05 Housni Alkhateeb Shehada's *Mamluks and Animals Veterinary Medicine in Medieval Islam* is the first comprehensive study of veterinary medicine its practitioners and its patients in the medieval Islamic world with special emphasis on the Mamluk period 1250-1517. Based on a large variety of sources it is a history of a scientific field that is also examined from social and cultural perspectives. Horses as well as birds of prey used for hawking and falconry were at the centre of the veterinary literature of that period but the treatment and cure of other animals was not totally neglected. The Mamluk period is presented here as the time when veterinary medicine reached its pinnacle in medieval Islam and often even surpassed human medicine.

The Horse Crucified and Risen Alexander Nevzorov, 2011. The book reveals secrets of horse training and discloses the truth about the painful essence of the equestrian sport. The true history of the cavalry and the history of those cruel instruments of strict enforcement that people used for horses over almost thirty centuries never thinking that there is a completely different way. The horse crucified and risen became a best seller in Russia, was reprinted several times and changed the worldview of thousands of people. This is the first book in the history of mankind revealing the whole truth about horse and man relationships.

The Learned Draftsman Édouard Kopp, 2017-01-10. The celebrated French artist Edme Bouchardon 1698-1762 is primarily known as a sculptor today but his contemporaries widely lauded him as a draftsman as well. Talented, highly innovative and deeply invested in the medium, Bouchardon made an important contribution to the European art and culture of his time and in particular to the history of drawing. Around two thousand of his drawings survive, most of which bear no relation conceptual or practical to his sculpture yet remarkably little scholarly attention has been paid to this aspect of his oeuvre. This is the first book-length work devoted to the artist's draftsmanship since 1910. Ambitious in scope, this volume offers a compelling narrative that effectively covers four decades of Bouchardon's activity as a draftsman from his departure for Rome in 1723 as an aspiring student to his death in Paris in 1762 by which time he was one of the most renowned artists in Europe. His accomplished and dynamic style is analyzed and copiously illustrated in a series of five interrelated chapters that serve as case studies, each of which focuses on a coherent group of drawings from a particular period of Bouchardon's career.

The Paradoxes of Posterity Benjamin Hoffmann, 2020-05-11. The impetus for literary creation has often been explained as an attempt to transcend the mortality of the human condition through a work addressed to future generations. Failing to obtain literal immortality or to turn their hope toward the spiritual immortality

promised by religious systems literary creators seek a symbolic form of perpetuity granted to the intellectual side of their person in the memory of those not yet born while they write In this book Benjamin Hoffmann illuminates the paradoxes inherent in the search for symbolic immortality arguing that the time has come to find a new answer to a perennial question Why do people write Exploring the fields of digital humanities and book history Hoffmann describes posterity as a network of interconnected memories that constantly evolves by reserving a variable and continuously renegotiated place for works and authors of the past In other words the perpetual safeguarding of texts is delegated to a collectivity that is nonexistent at the moment when a writer addresses it one whose nature is characterized by impermanence and instability Focusing on key works by Denis Diderot, Jean-Jacques Rousseau, Maurice Falconet, Giacomo Casanova, François-René de Chateaubriand and Jean-Paul Sartre Hoffmann considers the authors' representations of posterity, the representation of authors by posterity and how to register and preserve works in the network of memories In doing so Hoffmann reveals the three great paradoxes in the quest for symbolic immortality: the paradoxes of belief, of identity and of mediation Theoretically sophisticated and convincingly argued, this book contends that there is only one truly serious literary problem: the transmission of texts to posterity It will appeal to specialists in literature in particular eighteenth-century French literature as well as scholars and students of philosophy and book history

The Bad Taste of Others Jennifer Tsien, 2012-05-26 An act of bad taste was more than a faux pas to French philosophers of the Enlightenment To Montesquieu, Voltaire, Diderot and others bad taste in the arts could be a sign of the decline of a civilization These intellectuals faced with the potential chaos of an expanding literary market created seals of disapproval in order to shape the literary and cultural heritage of France in their image In *The Bad Taste of Others* Jennifer Tsien examines the power of ridicule and exclusion to shape the period's aesthetics Tsien reveals how the philosophes consecrated themselves as the protectors of true French culture modeled on the classical, the rational and the orderly Their anxiety over the invasion of the Republic of Letters by hordes of hacks caused them to devise standards that justified the marginalization of worldly women, barbarians and plebeians While critics avoided strict definitions of good taste they wielded the term bad taste against all popular works they wished to erase from the canon of French literature including Renaissance poetry, biblical drama, the burlesque theater of the previous century, the essays of Montaigne and genres associated with the so-called précieux Tsien's study draws attention to long disregarded works of salon culture such as the *nigmes* and offers a new perspective on the critical legacy of Voltaire The philosophes' open disdain for the undiscerning reading public challenges the belief that the rise of aesthetics went hand in hand with Enlightenment ideas of equality and relativism
