Anatomy Live Performance and the Operating Theatre a remarkable consideration of new developments on the stage as well as in contemporary writings of theorists such as Donna Haraway and Brian Massumi turns our modern notions of the dissecting table on its head using anatomical theatre as a means of obtaining a fresh perspective on representations of the body conceptions of subjectivity and own knowledge about science and the stage Critically dissecting well known exhibitions like Body Worlds and The Visible Human Project and featuring contributions from a number of diverse scholars on such subjects as the construction of spectatorship and the implications of anatomical history Anatomy Live is not to be missed by anyone with an interest in this engaging intersection of science and artistic practice
