Interpreting Themes in Textile Art Els van Baarle, Cherilyn

Martin, 2018-02-15 An inspirational and practical book on how to interpret and collaborate on different themes in textile art. With foreword by Marie Therese Wisniowski who runs Art Quill Studio. This stunning collection showcases the work produced by renowned textile artists Els van Baarle and Cherilyn Martin and explores how even when working from the same starting point textile art can produce a myriad of interpretations of shape, form, colour, and technique. Els and Cherilyn have chosen six themes for their own starting point, each full of inspiration and artistic potential: Memory (both personal experiences and historical events), Graven (cemetery images and idols), Books as objects, Pompeii and archaeological excavations, Walls, and Everyday items. For each of the themes, the authors have provided a personal interpretation of the work and a description of the techniques they used, along with step-by-step instructions. In the chapter on memory, for example, Cherilyn demonstrates how old fabrics and textiles, which themselves have a unique history, all of their own, can be recycled to incorporate your own stitched drawings. Alternatively, Els explores Procion Dye techniques to create colourful and striking fabrics that bear no resemblance to Els' work on the same theme. The trend for collaborative textile art is increasing in popularity. This fascinating guide provides a rich seam of inspiration from two renowned artists, exploring how to get the most from your collaborations and produce beautiful and unique work.

Exploring nature as a constant source of inspiration, she shows how to turn a chance spotting of lichen on a tree trunk or a scattering of autumn leaves into glorious textile or mixed media art. Marian goes on to explore the myriad of techniques she uses in her work, including how to begin with photography, homing in on details in nature; how to manipulate images to create microscopic and surprising detail; how to translate the images into 3D work using an eclectic mix of natural and man-made textiles, as well as unusual recycled materials otherwise destined for landfill; packaging plastics and household DIY products; hand and machine embroidery; dyeing, printing, and painting; using heat gun and soldering iron to create heavily textured surfaces. Packed with practical tips, inspiration, and illustrated throughout with glorious examples of Marian's work, this book will provide you with endless imaginative ideas for distilling the wonders of nature into your own textile art.
