The Mexican Cult of Death in Myth, Art and Literature Barbara Brodman, 2011-07-25 The word death is not pronounced in New York in Paris in London because it burns the lips The Mexican in contrast is familiar with death jokes about it caresses it sleeps with it celebrates it it is one of his favorite toys and his most steadfast love Thus Octavio Paz describes a cultural phenomenon that has for centuries fascinated scholars and aficionados of virtually every field of Mexican studies el culto a la muerte the cult of death a term that readily calls to the mind of anyone familiar with Mexico and her culture the unusually constant place of death in the minds and lives of the Mexican people In this volume author Brodman examines the Mexican cult of death from a variety of disciplinary perspectives to provide the most comprehensive analysis yet of the origins and nature of the Mexican cult of death and its relationship to Mexican arts literature and culture

reputations during their lives Both were regularly included in major exhibitions of Mexican art and they were invariably the only women chosen for the most important professional activities and honors In a deeply informed study that prioritizes critical analysis over biographical interpretation Nancy Deffebach places Kahlo's and Izquierdo's oeuvres in their cultural context examining the ways in which the artists participated in the national and artistic discourses of postrevolutionary Mexico Through iconographic analysis of paintings and themes within each artist's oeuvre Deffebach discusses how the artists engaged intellectually with the issues and ideas of their era especially Mexican national identity and the role of women in society In a time when Mexican artistic and national discourses associated the nation with masculinity Izquierdo and Kahlo created images of women that deconstructed gender roles critiqued the status quo and presented more empowering alternatives for women Deffebach demonstrates that paradoxically Kahlo and Izquierdo became the most successful Mexican women artists of the modernist period while most directly challenging the prevailing ideas about gender and what constitutes important art

Frida Kahlo and Diego Rivera Carol Sabbeth, 2005-08-01 Children will find artistic inspiration as they learn about iconic artists Frida Kahlo and Diego Rivera in these imaginative and colorful activities The art and ideas of Kahlo and Rivera are explored through projects that include painting a self portrait Kahlo style creating a mural with a social message like Rivera making a Day of the Dead ofrenda and crafting an Olmec head carving Vibrant illustrations throughout the book include Rivera's murals and paintings Kahlo's dreamscapes and self portraits pre Columbian art and Mexican folk art as well as many photographs of the two artists Children will learn that art is more than just pretty pictures it can be a way to express the artist's innermost feelings a source of everyday joy and fun an outlet for political ideas and an expression of hope for a better world Sidebars will introduce children to other Mexican artists and other notable female artists A time line listings of art museums and places where Kahlo and Rivera's art can be viewed and a list of relevant websites complete this cross cultural art experience

Olmec Art at Dumbarton Oaks Karl A. Taube, Dumbarton Oaks, 2004 Olmec Art at Dumbarton Oaks presents the Olmec portion of the Robert Woods Bliss Collection of Pre Columbian Art It illustrates all thirty nine Olmec art objects in color plates and includes many complementary and comparative black and white illustrations and drawings The body of Pre Columbian art that Robert Bliss carefully assembled over a half century between 1912 and 1963 amplified only slightly since his death is a

remarkably significant collection In addition to their aesthetic quality and artistic significance the objects hold much information regarding the social worlds and religious and symbolic views of the people who made and used them before the arrival of Europeans in the New World This volume is the second in a series of catalogues that will treat objects in the Bliss Pre Columbian Collection The majority of the Olmec objects in the collection are made of jade the most precious material for the peoples of ancient Mesoamerica from early times through the sixteenth century Various items such as masks statuettes jewelry and replicas of weapons and tools were used for ceremonial purposes and served as offerings Karl Taube brings his expertise on the lifeways and beliefs of ancient Mesoamerican peoples to his study of the Olmec objects in the Bliss collection His understanding of jade covers a broad range of knowledge from chemical compositions to geological sources to craft technology to the symbolic power of the green stone Throughout the book the author emphasizes the role of jade as a powerful symbol of water fertility and particularly of the maize plant which was the fundamental source of life and sustenance for the Olmec The shiny green of the stone was analogous to the green growth of maize This fundamental concept was elaborated in specific religious beliefs many of which were continued and elaborated by later Mesoamerican peoples such as the Maya Karl Taube employs his substantial knowledge of Pre Columbian cultures to explore and explicate Olmec symbolism in this catalogue

A New Deal for Native Art Jennifer McLerran, 2022-08-16 As the Great Depression touched every corner of America the New Deal promoted indigenous arts and crafts as a means of bootstrapping Native American peoples But New Deal administrators romanticization of indigenous artists predisposed them to favor pre industrial forms rather than art that responded to contemporary markets In **A New Deal for Native Art** Jennifer McLerran reveals how positioning the native artist as a pre modern Other served the goals of New Deal programs and how this sometimes worked at cross purposes with promoting native self sufficiency She describes federal policies of the 1930s and early 1940s that sought to generate an upscale market for Native American arts and crafts And by unraveling the complex ways in which commodification was negotiated and the roles that producers consumers and New Deal administrators played in that process she sheds new light on native art's commodity status and the artist's position as colonial subject In this first book to address the ways in which New Deal Indian policy specifically advanced commodification and colonization McLerran reviews its multi pronged effort to improve the market for Indian art through the Indian Arts and Crafts Board arts and crafts cooperatives murals museum exhibits and Civilian Conservation Corps projects Presenting nationwide case studies that demonstrate transcultural dynamics of production and reception she argues for viewing Indian art as a commodity as part of the national economy and as part of national political trends and reform efforts McLerran marks the contributions of key individuals from John Collier and Rene d Harnoncourt to Navajo artist Gerald Nailor whose mural in the Navajo Nation Council House conveyed distinctly different messages to outsiders and tribal members Featuring dozens of illustrations **A New Deal for Native Art** offers a new look at the complexities of folk art revivals as it opens a new window on the Indian New Deal
