Art Of Art History A Critical Anthology:

The Art of Art History Donald Preziosi, 2009 This anthology is a guide to understanding art history through critical reading of the field's most innovative and influential texts focusing on the past two centuries **The Art of Art History**, 1998 *Art and Art History* [Beijers, 1986]. , The School of Art and Design of the University of Michigan presents a collection of Web sites about art and art history Categories of the collection include art history departments online exhibits fine art schools and art museums *Art History and Its Methods* Eric Fernie, 2009 *The Expressionist Turn in Art History* Kimberly A. Smith, 2017-07-05 During the period in which Expressionist artists were active in central Europe art historians were producing texts which also began to be characterized evocatively as expressionist yet the notion of an expressionist art history has yet to be fully explored in historiographic studies of the discipline This anthology offers a cross section of noteworthy art history texts that have been described as expressionist along with critical commentaries by an international group of scholars Written between 1912 and 1933 the primary sources have been selected from the published scholarship of both recognized and less familiar figures in the field's Germanic tradition Wilhelm Worringer Fritz Burger Ernst Heidrich Max Dvor Heinrich Wölfflin and Carl Einstein Translated here for the first time these examples of an expressionist turn in art history along with their secondary analyses and the book's introduction offer a productive lens through which to re-examine the practice and theory of art history in the early twentieth century **The Art of Art History** Donald Preziosi, 1998 What is art history Why how and where did it originate and how have its aims and methods changed over time The history of art has been written and rewritten since classical antiquity Since the foundation of the modern discipline of art history in Germany in the late eighteenth century debates about art and its histories have intensified Historians philosophers psychologists and anthropologists among others have changed our notions of what art history has been is and might be This anthology is a guide to understanding art history through a critical reading of the field's most innovative and influential texts over the past two centuries Each section focuses on a key issue aesthetics style history as an art iconography and semiology gender modernity and postmodernity deconstruction and museology More than thirty readings from writers as diverse as Winckelmann Kant Gombrich Warburg Panofsky Heidegger Lisa Tickner Meyer Schapiro Jacques Derrida Mary Kelly Michel Foucault Rosalind Krauss Louis Marin Margaret Iversen and Nestor Canclini are brought together and Donald Preziosi's introductions to each topic provide background information bibliographies and critical elucidations of the issues at stake His own concluding essay is an important and original contribution to scholarship in the field From the pre-publication reviews Until now anthologies about the history of art have tended to be worthy yet inert plotting a linear evolution from the great precursors Vasari Winckelmann to the founding fathers of the modern discipline Wölfflin Riegl Panofsky to the achievements and refinements of today's scholarship The texts that Donald Preziosi has brought together provide something far more challenging the juxtapositions and alignments between individual essays point the reader towards unresolved problems

ongoing debates and paths not taken or not taken yet In place of the consoling tale of intellectual progress the collection defamiliarizes the whole field and opens up a space for radical reflection on its basic procedures and assumptions Definitely the best introduction to art history currently available Professor Norman Bryson Harvard University Donald Preziosi has prepared an anthology from the Greek a collection of flowers of art history His bouquet contains representatives from the discipline s two hundred year history arranged in standard and innovative methodological categories Within each the readings selected provide stimulating congruencies and contradictions that will inspire productive debate and contemplation But what makes this anthology more than an arresting assemblage is the author s critical stance toward what he has wrought His introduction and concluding chapter write around and under the subjects presented emphasizing the art of art history its kinship with modernity s post Enlightenment project and its collaboration with the rise of nationalism Thus the discipline s past is probed and questioned and made relevant for its present and future The whole thereby addresses without healing or concealing the disciplinary ruptures of modernism The book might also have explored further nature of art history s history within the emergent discourse of post colonialism and the globalization of culture Yet the many new perspectives it does offer help to re present the discipline for its readers students teachers and curators for other areas of humanistic inquiry which are being subject to similar critiques and for artists and the larger art community for whom history narrative and an accounting of art s past have once again become vital issues Professor Robert S Nelson Professor of Art History and Chair Committee for the History of Culture University of Chicago Rather than focusing on its Vasarian moment or on the later academic institutionalization of art history in the 19th and 20th centuries Donald Preziosi in *The Art of Art History* constructs a reading of this hegemonic and reductive practice of making the visible legible as one that is inextricably tied to the museographic paradigm of late 18th and early 19th centuries This shift he sees as equivalent in importance to the brought by the invention of perspective But the author goes further than to underline the implication of art history with the premises of modernity he makes a strong case in a vivid and inspiring prose for a tighter equation between art history and modernity an equation grounded in his insightful considerations and meteoric formulations of the epistemological setting rhetorical operations political colonialist aims and schizophrenic yet all invasive aestheticization of knowledge that in the last two centuries have fashioned what we will no longer dare to call the discipline of art history The result is a flamboyant book that offers anything but a celebratory reading of art history It does not constitute an articulation of canonical texts or an up to date menu of art historical currents methods or trends Yet it manages to avoid none of these dimensions Art history is not envisaged as the learned discourse of modernity on a specific class of objects nor is it reduced to a genealogy of outstanding artist subjects and their volatile constellations of contemporary subjects readers It becomes a practice wherein objects and subjects relate and relations often crystallize under the unrecognized aegis of the fetish this Other of art since Preziosi concisely defines art as the anti fetish fetish Far from the fantastic neutrality that is traditionally found in the format

of such an historiographic endeavour Preziosi frames his selection of text and threads through them with an array of different strategic voices superimposed to stress a spatial figure he is keen to discern in order to elaborate a strong polemic position that situates art history as an enduring and well disguised fictional genre In the process the author courageously takes on the paradox that is at the core of his project to introduce students to the coming out of art history as art one that is not necessarily meant to be our coming out of it but that certainly well establishes our motives to continue to shake its grounds and its multi storied apparatus Professor Johanne Lamoureux University of Montreal *Methods and Theories of Art History* Anne D'Alleva, 2005 This is an analysis of complex forms of art history It covers a broad range of approaches presenting individual arguments controversies and divergent perspectives The book begins by introducing the concept of theory and explains why it is important to the practice of art history *The Expressionist Turn in Art History* Kimberly A. Smith, 2014 During the period in which Expressionist artists were active in central Europe art historians were producing texts which also began to be characterized evocatively as expressionist yet the notion of an expressionist art history has yet to be fully explored in historiographic studies of the discipline This anthology offers a cross section of noteworthy art history texts that have been described as expressionist along with critical commentaries by an international group of scholars Written between 1912 and 1933 the primary sources have been selected from the published scholarship of both recognized and less familiar figures in the field's Germanic tradition Wilhelm Worringer Fritz Burger Ernst Heidrich Max Dvor Heinrich W. Ifflin and Carl Einstein Translated here for the first time these examples of an expressionist turn in art history along with their secondary analyses and the book's introduction offer a productive lens through which to re-examine the practice and theory of art history in the early twentieth century Provided by publisher *Modern Art And Modernism* Francis Francina, 2018-05-04 Modern Art and Modernism offers firsthand material for the study of issues central to the development of modern art its theory and criticism The history of modern art is not simply a history of works of art it is also a history of ideas interpretations The works of critics and theorists have not merely been influential in deciding how modern art is to be seen and understood they have also influenced the course it has taken The nature of modern art cannot be understood without some analysis of the concept of Modernism itself Modern Art and Modernism presents a selection of texts by the major contributors to debate on this subject from Baudelaire and Zola in the nineteenth century to Greenberg and T. J. Clark in our own times It offers a balanced section of essays by contributors to the mainstream of Modernist criticism representative examples of writing on the themes of abstraction and expression in modern art and a number of important contributions to the discussion of aesthetics and the social role of the artist Several of these are made available in English translation for the first time and others are brought together from a wide range of periodicals and specialized collections This book will provide an invaluable resource for teachers and students of modern art art history and aesthetics as well as for general readers interested in the place of modern art in culture and history **Theory for Art History** Jae Emerling, 2013-09-13 Theory for

[A New History of Western Art](#) Koenraad Jonckheere,2022-10-15 A radical re examination of 2 500 years of European art deconstructing and demystifying its long history from ancient to present How has art evolved from the pursuit of the ideal human form to a black square on a white canvas Why is a banana duct taped to a wall worth more on the art market than a beautiful seventeenth century landscape By taking art for what it actually is a piece of stone or wood a sheet of paper with some lines drawn on it a painted canvas this lively and accessible account shows how seemingly meaningless objects can be transformed into celebrated works of art Breaking with conventional notions of artistic genius Koenraad Jonckheere explores how stories and emotions give meaning to objects and why changing historical circumstances result in such shifting opinions over time Tracing its story from ancient times to present A New History of Western Art reframes the evolution of European art and radically reshapes our understanding of art history Published in association with Hannibal Books
