Art Of Cookery In The Middle Ages:

The Art of Cookery in the Middle Ages Terence Scully,1995 In this fascinating study the author examines both the theory and practice of medieval cooking The recipes which survived indicate how rich and varied a choice of dishes the wealthy could enjoy *The Art of Cookery in the Middle Ages* Terence Scully,1995 **America's Founding Food** Keith Staveland, Kathleen Fitzgerald,2006-03-08 From baked beans to apple cider from clam chowder to pumpkin pie Keith Staveland and Kathleen Fitzgerald's culinary history reveals the complex and colorful origins of New England foods and cookery Featuring hosts of stories and recipes derived from generations of New Englanders of diverse backgrounds America's Founding Food chronicles the region's cuisine from the English settlers' first encounter with Indian corn in the early seventeenth century to the nostalgic marketing of New England dishes in the first half of the twentieth century Focusing on the traditional foods of the region including beans pumpkins seafood meats baked goods and beverages such as cider and rum the authors show how New Englanders procured preserved and prepared their sustaining dishes Placing the New England culinary experience in the broader context of British and American history and culture Staveland and Fitzgerald demonstrate the importance of New England's foods to the formation of American identity while dispelling some of the myths arising from patriotic sentiment At once a sharp assessment and a savory recollection America's Founding Food sets out the rich story of the American dinner table and provides a new way to appreciate American history Misconceptions About the Middle Ages Stephen Harris, Bryon L. Grigsby,2010-05-26 Interest in the middle ages is at an all time high at the moment thanks in part to The Da Vinci Code Never has there been a moment more propitious for a study of our misconceptions of the Middle Ages than now Ranging across religion art and science Misconceptions about the Middle Ages unravels some of the many misinterpretations that have evolved concerning the medieval period including the church war science art society With an impressive international array of contributions the book will be essential reading for students and scholars involved with medieval religion history and culture *Kitchens, Cooking, and Eating in Medieval Italy* Katherine A. McIver,2017-10-16 The modern twenty first century kitchen has an array of time saving equipment for preparing a meal a state of the art stove and refrigerator a microwave oven a food processor a blender and a variety of topnotch pots pans and utensils We take so much for granted as we prepare the modern meal not just in terms of equipment but also the ingredients without needing to worry about availability or seasonality We cook with gas or electricity at the turn of the switch we have instant heat But it wasn't always so Just step back a few centuries to say the 1300s and we'd find quite a different kitchen if there was one at all We might only have a fireplace in the main living space of a small cottage If we were lucky enough to have a kitchen the majority of the cooking would be done over an open hearth we'd build a fire of wood or coal and move a cauldron over the fire to prepare a stew or soup A drink might be heated or kept warm in a long handled saucepan set on its own trivet beside the fire Food could be fried in a pan grilled on a gridiron or turned on a spit We might put together a small improvised oven

for baking Regulating the heat of the open flame was a demanding task Cooking on an open hearth was an all embracing way of life and most upscale kitchens had more than one fireplace with chimneys for ventilation One fireplace was kept burning at a low steady heat at all times for simmering or boiling water and the others used for grilling on a spit over glowing radiant embers This is quite a different situation than in our modern era unless we were out camping and cooking over an open fire In this book Katherine McIver explores the medieval kitchen from its location and layout like Francesco Datini of Prato two kitchens to its equipment the hearth the fuels vessels and implements and how they were used to who did the cooking man or woman and who helped We ll look at the variety of ingredients spices herbs meats fruits vegetables food preservation and production salted fish cured meats cheese making and look through recipes cookbooks and gastronomic texts to complete the picture of cooking in the medieval kitchen Along the way she looks at illustrations like the miniatures from the Tacuinum Sanitatis a medieval health handbook as well as paintings and engravings to give us an idea of the workings of a medieval kitchen including hearth cooking the equipment used how cheese was made harvesting ingredients among other things She explores medieval cookbooks such works as Anonimo Veneziano Libro per cuoco fourteenth century Anonimo Toscano Libro della cucina fourteenth century Anonimo Napoletano end of thirteenth early fourteenth century Liber de coquina Anonimo Medidonale Due libri di cucina fourteenth century Magnusus Mediolanensis Maino de Maineri Opusculum de saporibus fourteenth century Johannes Bockenheim Il registro di cucina fifteenth century Maestro Martino s Il Libro de arte coquinaria fifteenth century and Bartolomeo Sacchi called Platina s On Right Pleasure and Good Health 1470 This is the story of the medieval kitchen and its operation from the thirteenth century until the late fifteenth century Food in Time and Place Paul Freedman, Joyce E. Chaplin, Ken Albala, 2014-10-31 Food and cuisine are important subjects for historians across many areas of study Food after all is one of the most basic human needs and a foundational part of social and cultural histories Such topics as famines food supply nutrition and public health are addressed by historians specializing in every era and every nation Food in Time and Place delivers an unprecedented review of the state of historical research on food endorsed by the American Historical Association providing readers with a geographically chronologically and topically broad understanding of food cultures from ancient Mediterranean and medieval societies to France and its domination of haute cuisine Teachers students and scholars in food history will appreciate coverage of different thematic concerns such as transfers of crops conquest colonization immigration and modern forms of globalization Eating Right in the Renaissance Ken Albala, 2002-02 Albala s engaging tour through the host of Renaissance dietary theories reminds us that our preoccupations with food and susceptibility to cranky advice about nutrition are nothing new This is superior scholarship delivered with a light touch Rachel Laudan author of The Food of Paradise Exploring Hawaii s Culinary Heritage This stimulating work is an important contribution to social and especially medical dietetic history Albala is the first to explore in detail the role of dietetic literature in the development of the European nation state His book is a pleasure to read Melitta Weiss Adamson
