The Art of Portrait Painting in Oil Colours Henry Murray,2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1851 edition Excerpt 20 PREPARATION FOR SECOND PAINTING THE PREPARATION OF THE WORK FOR THE SECOND PAINTING If the first painting have been executed with any degree of freedom and so left to dry without having been slightly touched here and there with a soft brush to remove any superficial inequalities which

might effect the second painting it will be necessary to examine the picture with a sharp knife or scraper but this operation cannot be performed until the work be perfectly dry This may be determined by breathing on the surface which if dry will immediately assume a dull and misty appearance but if still wet it will remain unsullied The surface having been reduced if necessary a wetted sponge should be lightly passed over it this will be dry in a few minutes when a small quantity of poppy oil should be lightly brushed over the work from which the superfluous moisture may be removed by the gentle application of an old silk handkerchief The object of thus moistening the surface with poppy oil is to make the subsequent painting unite with the first and so embody the first second and following paintings that no discordant difference of execution may appear in the picture Having passed the silk handkerchief over the surface it will be necessary to observe that no dust or any of the thin threads of the silk adhere to the work In finishing portraits experienced painters omit oiling for the sake of obtaining texture but the application of the sponge can never be omitted because without it the glazes will not lie All oil colours sink to a certain extent and in the progress of a picture sometimes so much so as to render oiling necessary in order to see the real strength and details of the work this is termed oiling out I The Art of Portrait Painting in Oil Colours, With Observations on Setting and Painting the Figure ,2020-04-16 *Painting Portraits in Oils* Rob Wareing,2021-02-09 An inspiring direct guide to painting beautiful portraits alla prima Rob Wareing has built a formidable international reputation as a portrait artist This is his first book and here he draws on over forty years experience to provide a complete guide to painting portraits in oils In Rob s view the most effective way to capture character is by working from life rather than photographs and to follow the alla prima method to create a painting in one sitting Starting with a fascinating overview of the subject Rob then guides you through the materials he uses how to pose and light the sitter and how to prepare your work area before you start painting This is followed by detailed coverage of design and composition the importance of proportions and the painting process itself from colour mixing through to finishing a painting without over working With clear step by step demonstrations and numerous examples of the author s work throughout this book provides both an expert guide to portrait painting and a unique insight into the working methods of one of the world s leading portrait painters **FACES: Photography and the Art of Portraiture** Paul Fuqua,Steven Biver,2013-05-02 There is so much detail to be captured in a face Cicero 106 43 BC said The face is a picture of the mind as the eyes are its interpreter To capture a person s personality there are many things to keep in mind and the authors of FACES show us how to match up a personality with lighting posing and composition Portraiture is truly an art and this book dives deep into the details so that you end up with a gorgeous portrait that both you and your subject love Not only is this book the most comprehensive title available on portraiture but it contains stunning images Each image is paired with a lighting diagram a description of why the type of image was chosen and then takes you through postproduction to put the finishing touches on The authors also showcase a gallery of portraits by renowned photographers **500 Portraits** Sandy Nairne,2015 This revised and updated edition brings together a selection of more
