of American Art, 1940s-1980s Catherine Dossin, 2016-03-03 In The Rise and Fall of American Art 1940s 1980s Catherine Dossin challenges the now mythic perception of New York as the undisputed center of the art world between the end of World War II and the fall of the Berlin Wall a position of power that brought the city prestige money and historical recognition Dossin reconstructs the concrete factors that led to the shift of international attention from Paris to New York in the 1950s and documents how peripheries such as Italy Belgium and West Germany exerted a decisive influence on this displacement of power As the US economy sank into recession in the 1970s however American artists and dealers became increasingly dependent on the support of Western Europeans and cities like Cologne and Turin emerged as major commercial and artistic hubs a development that enabled European artists to return to the forefront of the international art scene in the 1980s Dossin analyses in detail these changing distributions of geopolitical and symbolic power in the Western art worlds a story that spans two continents forty years and hundreds of actors Her transnational and interdisciplinary study provides an original and welcome supplement to more traditional formal and national readings of the period **Creator Spirit** Steven R. Guthrie, 2011-05-01 Art is often viewed as being inherently spiritual But what does it mean to describe an experience of art or beauty as spiritual Is there a relationship between the spiritual experience a person has in the presence of a work of art and the Holy Spirit of Christian faith Skilled theologian musician and educator Steven Guthrie examines areas of overlap

between spirituality human creativity and the arts with the goal of sharpening and refining how we speak and think about the Holy Spirit By exploring various connections between art and spirituality he helps Christians better understand the doctrine of the Holy Spirit and offers a clear engaging theology of the arts The book includes a foreword by renowned theologian and musician Jeremy Begbie *Language in the Visual Arts* Leslie Ross,2014-05-23 This book discusses text and image relationships in the history of art from ancient times to the contemporary period across a diversity of cultures and geographic areas Focusing on the use of words in art and words as art forms thematic chapters include Pictures in Words Words in Pictures Word Picture Puzzles Picture Word Puzzles Words as Images The Power of the Word and Monumental and Moving Words Chapter subsections further explore cross cultural themes Examining text and image relationships from the obvious to the elusive the puzzling to the profound the minor to the major the book demonstrates the diverse ways in which images and writing have been combined through the ages and explores the interplay between visual and written communication in a wide range of thought provoking examples A color insert is included Instructors considering this book for use in a course may request an examination copy here *The Cambridge Companion to Postmodernism* Steven Connor,2004-07-15 The Cambridge Companion to Postmodernism offers a comprehensive introduction to postmodernism The Companion examines the different aspects of postmodernist thought and culture that have had a significant impact on contemporary cultural production and thinking Topics discussed by experts in the field include postmodernism s relation to modernity and its significance and relevance to literature film law philosophy architecture religion and modern cultural studies The volume also includes a useful guide to further reading and a chronology This is an essential aid for students and teachers from a range of disciplines interested in postmodernism in all its incarnations Accessible and comprehensive this Companion addresses the many issues surrounding this elusive enigmatic and often controversial topic **I Like Hong Kong** Frank Vigneron,2010-06-15 Contemporary Chinese art is nowadays a subject area widely taught and researched in academic and nonacademic publications but it has not yet been studied by localizing the research in specific cultural areas within the Chinese world Selecting Hong Kong for a first such study was an obvious choice since Hong Kong culture has had for already quite a long time very specific features which have put it apart from the generally accepted definition of Chinese national culture Although it is not a survey of Hong Kong art as such a study would demand many more books the works of about eighty artists working in Hong Kong and sometimes outside have been analyzed and contextualized in these pages

Postmodern Artists Amanda Vink,2018-12-15 Postmodern art emerged in the late 1960s following a time period when art had been defined by superstars like Pablo Picasso and Salvador Dal Rejection of the idea of art being exclusive to professionals artists who emerged during the postmodern era believed anyone could be an artist and anything could be art Through exciting main text featuring annotated quotes from experts detailed sidebars and examples of postmodern art readers explore how the foundations of art were challenged by postmodern artists such as Andy Warhol and Barbara Kruger and also

how their work still impacts today's art world The Story of Art Without Men Katy Hessel, 2023-05-02 Instant New York Times bestseller One of Vanity Fair's Favorite Books to Gift One of PureWow's 42 Books to Gift This Year One of Kirkus's Best Books of 2023 The story of art as it's never been told before from the Renaissance to the present day with more than 300 works of art How many women artists do you know Who makes art history Did women even work as artists before the twentieth century And what is the Baroque anyway Guided by Katy Hessel art historian and founder of thegreatwomenartists discover the glittering paintings by Sofonisba Anguissola of the Renaissance the radical work of Harriet Powers in the nineteenth century United States and the artist who really invented the readymade Explore the Dutch Golden Age the astonishing work of postwar artists in Latin America and the women defining art in the 2020s Have your sense of art history overturned and your eyes opened to many artforms often ignored or dismissed From the Cornish coast to Manhattan Nigeria to Japan this is the history of art as it's never been told before **Mutual Reflections** Milly Heyd, 1999 This text examines the mutual relationship between Jews and African Americans through visual art It investigates how artists of both backgrounds have viewed each other in the past how visual languages and thematic concerns have changed to reflect different issues of concern to each group **Relativism and Beyond** Yoav Ariel, Shlomo Biderman, Ornan Rotem, 2023-03-20 A collection of essays in which philosophers of widely different interests grapple with the problem of the relative and the absolute in philosophy and religion A concluding article tries to advance beyond the simple antithesis to a more sophisticated and adequate conception *Postmodern Moments in Modern Economics* David F. Ruccio, Jack Amariglio, 2016-06-28 Of all the areas of contemporary thought economics seems the most resistant to the destabilizing effects of postmodernism Yet David Ruccio and Jack Amariglio argue that one can detect within the diverse schools of thought that comprise the discipline of economics moments that defy the modernist ideas to which many economists and methodologists remain wedded This is the first book to document the existence and to explore the implications of the postmodern moments in modern economics Ruccio and Amariglio begin with a powerful argument for the general relevance of postmodernism to contemporary economic thought They then conduct a series of case studies in six key areas of economics From the idea of the multiple self and notions of uncertainty and information through market anomalies and competing concepts of value to analytical distinctions based on gender and academic standing economics is revealed as defying the modernist frame of a singular science The authors conclude by showing how economic theory would change if the postmodern elements were allowed to flourish A work of daring analysis sure to be vigorously debated *Postmodern Moments in Modern Economics* is both accessible and relevant to all readers concerned about the modernist straightjacket that has been imposed on the way economics is thought about and practiced in the world today **New York and Los Angeles** David Halle, 2003-08-15 Capturing much of what is new and vibrant in urban studies today New York and Los Angeles should prove to be valuable reading for scholars in that field as well as in sociology political science and government A Companion to Contemporary Art Since 1945 Amelia

Children of Marx and Coca-Cola Xiaoping Lin, 2009-11-02 *Children of Marx and Coca Cola* affords a deep study of Chinese avant garde art and independent cinema from the mid 1990s to the beginning of the twenty first century Informed by the author's experience in Beijing and New York global cities with extensive access to an emergent transnational Chinese visual culture this work situates selected artworks and films in the context of Chinese nationalism and post socialism and against

the background of the capitalist globalization that has so radically affected contemporary China It juxtaposes and compares artists and independent filmmakers from a number of intertwined perspectives particularly in their shared avant garde postures and perceptions Xiaoping Lin provides illuminating close readings of a variety of visual texts and artistic practices including installation performance painting photography video and film Throughout he sustains a theoretical discussion of representative artworks and films and succeeds in delineating a variegated postsocialist cultural landscape saturated by market forces confused values and lost faith This refreshing approach is due to Lin s ability to tackle both Chinese art and cinema rigorously within a shared discursive space He for example aptly conceptualizes a central thematic concern in both genres as postsocialist trauma aggravated by capitalist globalization By thus focusing exclusively on the two parallel and often intersecting movements or phenomena in the visual arts his work brings about a fruitful dialogue between the narrow field of traditional art history and visual studies more generally Children of Marx and Coca Cola will be a major contribution to China studies art history film studies and cultural studies Multiple audiences specialists teachers and students in these disciplines as well as general readers with an interest in contemporary Chinese society and culture will find that this work fulfills an urgent need for sophisticated analysis of China s cultural production as it assumes a key role in capitalist globalization
