Teaching Art to Young Children 4-9 Rob Barnes,2002-11 This second edition of a classic and popular book includes new chapters figures and colour plates The book blends practical ideas with sound principles of art education For the teacher or trainee teacher looking for ideas there are plenty of tested classroom examples For those

looking for firm principles of art teaching and best practice this book presents many important issues in art education with clarity and insight Based on first hand experience of teaching children the book uses many examples from the school situation Essential topics such as developing skills through using media how children draw producing original artwork developing ideas and Art and the digital image are tackled with realism and imagination An important feature is that these subjects are not seen in isolation but are purposefully linked with other areas of the curriculum The author s approach should encourage teachers to develop and think about art in the National Curriculum His writing shows a deep sympathy with children and sensitivity to the real task of teaching art to the young *The Art of Children's Picture Books* Sylvia S. Marantz, Kenneth A. Marantz, 2014-04-23 First Published in 1995 Routledge is an imprint of Taylor Francis an informa company **Children's Art** Miriam Lindstrom, 1957-01-01 Purports to trace the normal development of visualization in children between the ages of two and fifteen *The Relaxation and Stress Reduction Workbook for Kids* Lawrence E. Shapiro, Robin K. Sprague, 2009 55 activities to help your family reduce stress fear worry become more confident relaxed resilient manage difficult emotions **Essential Play Therapy Techniques** Charles E. Schaefer, Donna Cangelosi, 2016-01-28 Highly practical and user friendly this book presents 58 play therapy techniques that belong in every child clinician s toolbox The expert authors draw from multiple theoretical orientations to showcase powerful well established approaches applicable to a broad range of childhood problems Activities needed materials and variations of each technique are succinctly described Of critical importance for today s evidence based practitioner each chapter also includes a historical perspective on the technique at hand a rationale explaining its therapeutic power and a review of relevant empirical findings The book enables readers to determine which strategies are appropriate for a particular child or group and rapidly incorporate them into practice **The Colors of Learning** Rosemary Althouse, Margaret H. Johnson, Sharon T. Mitchell, 2003 Unique in its creativity and depth of understanding *The Colors of Learning* will change the way that teachers think about and react to children s artwork Promoting the integration of visual art into all early childhood curriculum areas this volume will help early childhood professionals present in depth art experiences to children so that they become engrossed in expressing their ideas and newly learned concepts through art media This user friendly volume features actual classroom dialogue throughout the text and many illustrations of children s art including some in full color Based on standards endorsed by the National Association for the Education of Young Children NAEYC and the National Art Education Association NAEA this important book focuses on Lev Vygotsky s theory of social interactions in learning showing how teacher child and child child relations become an important part of the art experience Helping teachers to use more effective language to build children s conceptual knowledge and guide them in their art making The use of many kinds of art media providing examples of developmentally appropriate activities to improve children s thinking and learning Moving away from art that is solely created to be cute and pleasing to adults to art experiences that develop the child s individual expression

The authors have given the field of early education a valuable usable gift one that will have a great impact on young children's lives and those who teach them From the Foreword by Carol Seefeldt The Colors of Learning provides a new awareness of why and how to integrate art into all subject areas in early childhood curriculum should help all teachers of young children to enhance and enjoy their teaching and the children's learning Meg Barden Cline Lecturer retired University of Massachusetts at Amherst
