Learning About Art Kerry Walsh, 2013-10-12 Kerry Walsh is married with three children She has an art studio in Minto NSW and exhibits her art regularly throughout the Sydney region She completed a Visual Arts degree with honours before going on to study for a Master of Creative Arts honours degree with the University of Western Sydney Originally she had been offering art lessons to children and adults from her studio in Minto as well as after school classes for children at Minto Primary School before deciding to go back to University and study for a Bachelor of Teaching Degree at the University of Western Sydney She retired from teaching two years ago to write her book and continue with her art practice However she could not let teaching go and still holds private art classes After teaching in both Primary and Secondary schools she realized how important an informed art lesson is in obtaining the desired academic outcomes from her students Too little research by a student resulted in a superficial art work that had very little depth and offered a discouraging result Students were elated with their art only when they understood in what context it should be made When students researched other artists and realized how different the artists world was compared to the students own it became clear why these artists painted the way they did With this new understanding and through class discussions students were encouraged to look at their own world and to attempt their own art in a more enlightened way Younger students were excited to see how artists thirty fifty or a hundred years ago lived what they liked to paint and how they expressed what was happening around them Second class students were surprised to be confronted by Warhols Soup Cans and wanted to have a go at painting something themselves Students held a class discussion to decide what to paint if they were painting pop art today They discussed what image they would like to paint in a repeated pattern and why The result elephants and they should be coloured elephants like bright colourful neon lights telling everyone to visit the zoo The result of this more inclusive way of presenting art to younger primary school students which included learning basic information about art movements artists and art works and did not simply look at a picture in terms of is it easy to copy or is it colourful and easy to paint implanted an understanding about what art is resulting in a deeper appreciation about art for each student Encouraging a positive reaction about art even at a basic level for younger classes helps students to understand that their own individuality is an essential part of art making No longer should students compare their art to those around them and decide if it is good or bad or they are good at art or bad at art students learn that everyone is an individual and that their art is not only interesting but also creative This discovery raises students self esteem which in turn increases confidence in their own ability to work through ideas unaided creating an art work that is pleasing and imaginative Upper Primary students years 3 6 are enabled by their computer research to better understand the complexities of life in a former time When their teacher links the art they are working on to the historical time the class is looking at themes such as the Australian Gold fields or settling Outback Australia becomes alive when viewed through the art of the times By immersing themselves in the

Understanding Children's Art for Better Teaching Betty Lark-Horovitz,Hilda Lewis,Mark Luca,1973 *Play and Creativity in Art Teaching* George Szekely,2015-03-02 In *Play and Creativity in Art Teaching* esteemed art educator George Szekely draws on his two classic volumes *Encouraging Creativity in Art Lessons* and *From Play to Art* to create a new book for new times The central premise is that art teachers are not only a source of knowledge about art but also a catalyst for creating conditions that encourage students to use their own ideas for making art By observing children at play and using props and situations familiar to them teachers can build on children s energy and self initiated discoveries to inspire school art that comes from the child s imagination The foundation of this teaching approach is the belief that the essential goal of art teaching is to inspire children to behave like artists that art comes from within themselves and not from the art teacher *Play and Creativity in Art Teaching* offers plans for the study of children s play and for discovering creative art teaching as a way to bring play into the art room While it does not offer a teaching formula or a single set of techniques to be followed it demystifies art and shows how teachers can help children find art in familiar and ordinary places accessible to everyone This book also speaks to parents and the important roles they can play in supporting school art programs and nourishing the creativity of their children *Understanding Art* Martin Wenham,2003-03-19 In any area of the curriculum children need to learn concepts facts and skills through first hand experience In art such learning depends on exploring and experimenting with the visual language through which artists communicate and the visual elements such as line colour and shape The

National Curriculum places strong emphasis on experimenting with and applying the visual elements This book systematically explores the basic knowledge needed to do this effectively The author deals with the visual elements of art their properties how they are related and especially with the ways in which children s knowledge of each can be developed through simple but creative activities Each element is placed in context with extensive cross referencing The author shows how these elements can be observed in the children s environment and provides examples of how they have been used in works of art and craft This accessible book does not assume any specialist knowledge or experience It is essential for teachers at primary and secondary levels art co ordinators and for undergraduate and postgraduate level students of art education Martin Wenham is an artist calligrapher and stone carver who has exhibited at the Craft s Council He has taught at the University of Leicester and has over twenty years experience of teaching in primary and secondary schools
