and Twenty Three Sections Descriptive of Art Magic Spiritism the Different Orders of Spirits in the Universe Known to Be
Related to or in Communication With Man Vol 1 of 3 In sending out Art Magic to the readers of The Progressive Thinker we
do so with the firm conviction that we are presenting them with a most remarkable book one that will not only prove very
interesting but highly instructive While many will not endorse by any means all that it contains yet they will find therein a
vast fund of historical spiritual philosophical and occult information which will prove of priceless value Readers of Art Magic
will find in its pages much quaint queer and curious lore relating to occult subjects and occult formulas and practices during
all past history and among the various esoteric cults that have flourished in the ages gone Some of these cults are being
revived in some degree at the present day The student who wishes to delve into the ancient mysteries as traced in occult lore
will find this volume invaluable for here is condensed a vast fund of information that could not otherwise be obtained without
many years of patient research and with access to rare and scarce sources of knowledge There has been for several years a
great demand for this work by thinking minds as high as 25 being paid for a single copy and even at that price the supply fell
far short of the demand The copyright having nearly expired Mrs Emma Hardinge Britten gave us the privilege to republish
the work thus giving to the many what was only possessed by a select few We are profoundly thankful to this estimable lady
for the privilege the great good that will be accomplished thereby will redound to her credit Just think of it about 12 000

The Spiritist Fallacy René Guénon, 2003 The Spiritual Fallacy though packed with arcane facts is unique in revealing how one the greatest metaphysicians of our age interprets the phenomena real or alleged of spiritualism The doctrinal expositions that accompany his astonishing account offer extraordinarily prescient insight into many deviations and psychological afflictions of the modern mind and will be a valuable to psychological practitioners and spiritual counselors as to historians of esoteric history It also offers a profound corrective to the many brands of New Age therapy that all too unwittingly invoke many of the same elements whose nefarious origins Guenon so clearly described many years ago

Out of the Shadows Emily Midorikawa, 2022-09-20 Queen Victoria's reign was an era of breathtaking social change but it did little to create a platform for women to express themselves But not so within the social sphere of the s a mysterious lamp lit world on both sides of the Atlantic in which women who craved a public voice could hold their own Out of the Shadows tells the stories of the enterprising women whose supposedly clairvoyant gifts granted them fame fortune and most important influence as they crossed rigid boundaries of gender and class as easily as they passed between the realms of the living and the dead The Fox sisters inspired some of the era's best known political activists and set off a transatlantic s a craze While in the throes of a trance Emma Hardinge Britten delivered powerful speeches to crowds of thousands Victoria Woodhull claimed guidance from the spirit world as she took on the millionaires of Wall Street before becoming America's first female presidential candidate And Georgina Weldon narrowly escaped the asylum before becoming a celebrity campaigner against archaic lunacy laws Drawing on diaries letters and rarely seen memoirs and texts Emily Midorikawa illuminates a radical history of female influence that has been confined to the dark until now
