**Art of Biedermeier**, 1990 **Biedermeier** Radim Vondráček, 2008 **The Power of Art** Caroline Campbell, 2024-01-02 An epic work of art history that will transform our understanding of the world by unlocking the human stories behind millennia of art Taking readers from ancient Babylon to contemporary Pyongyang the eminent curator Caroline Campbell explains art s power to illuminate our lives and inspires us to benefit from its transformative and regenerative power Unlike the majority of contemporary art history this book is about much more than the cult of artists personalities Instead each chapter is structured around a city at a particularly vibrant moment in its history describing what propelled its creativity and innovation The emotions and societies she evokes are highly recognizable revealing how great art resonates powerfully by transcending the boundaries of time **Бидермейер**, 2009 **Is that Biedermeier?** Agnes Husslein-Arco, Sabine Grabner, 2016 This volume illustrates the development of art in Central Europe from 1830 1860 a period which begins in the age of Biedermeier but extends well beyond it It shows by means of a selection of representative works how art at this time developed independently and was not restricted to the historical Biedermeier era Is that Biedermeier we often ask of pictures which date from the same period but do not look typically Biedermeier The publication concentrates on these works in particular by showing the wide range of painting in the years between 1830 1860 through portraits landscapes and genre pictures The main focus lies on Austrian painters like Ferdinand Georg Waldm ller Rudolf von Alt and Friedrich von Amerling together with artists from Northern Italy Hungary Bohemia and Slovenia including Giuseppe
