Women and the Material Culture of Death Beth Fowkes Tobin, 2017-07-05

Examining the compelling and often poignant connection between women and the material culture of death this collection focuses on the objects women make the images they keep the practices they use or are responsible for and the places they inhabit and construct through ritual and custom Women's material practices ranging from wearing mourning jewelry to dressing the dead stitching memorial samplers to constructing skull boxes collecting funeral programs to collecting and studying diseased hearts making and collecting taxidermies and making sculptures honoring the dead are explored in this collection as well as women's affective responses and sentimental labor that mark their expected and unexpected participation in the social practices surrounding death and the dead The largely invisible work involved in commemorating and constructing narratives and memorials about the dead from family members and friends to national figures calls attention to the role women as memory keepers for families local communities and the nation Women have tended to work collaboratively making collecting and sharing objects that conveyed sentiments about the deceased whether human or animal as well as the identity of mourners Death is about loss and many of the mourning practices that women have traditionally and are currently engaged in are about dealing with private grief and public loss as well as working to mitigate the more general anxiety that death engenders about the impermanence of life

American Blood Holly Jackson, 2014 The conventional view of the family in the nineteenth century novel holds that it venerated the traditional domestic unit as a model of national belonging Contesting this interpretation *American Blood* argues that many authors of the period challenged preconceptions of the family and portrayed it as a detriment to true democracy and by extension the political enterprise of the United States Relying on works by Harriet Beecher Stowe Nathaniel Hawthorne William Wells Brown Pauline Hopkins and others Holly Jackson reveals family portraits that are claustrophobic antidemocratic and even unnatural The novels examined here welcome in Jackson's reading the decline of the family and the exclusionary white privileging American social order that it supported Embracing and imagining this decline the novels examined here incorporate and celebrate the very practices that mainstream Americans felt were the most dangerous to the family as an institution interracial sex doomed marriages homosexuality and the willful rejection of reproduction In addition to historicized readings the monograph also highlights how formal narrative characteristics served to heighten their anti-familial message according to Jackson the false starts interpolated plots and narrative dead ends prominent in novels like *The House of the Seven Gables* and *Dred* are formal iterations of the book's interest in disrupting the family as a privileged ideological site In sum *American Blood* offers a much needed corrective that will generate fresh insights into nineteenth century literature and culture

Women's Agency in Early Modern Britain and the American Colonies Rosemary O'Day,2014-06-11 Women in early modern Britain and colonial America were not the weak husband and father dominated characters of popular myth Quite the reverse strong women were the norm They exercised considerable influence as important agents in the social economic religious and cultural life of their societies This book shows how women on both sides of the Atlantic while accepting a patriarchal system with all its advantages and disadvantages contrived to carve out for themselves meaningful lives Unusually it concentrates not only on the making and meaning of marriage but also upon the partnership between men and women It also looks at the varied roles cultural religious and educational that women played both inside and outside marriage during the key period 1500 1760 Women emerge as partners patrons matchmakers investors and network builders

A Stitch in Time Aimee E. Newell,2014-03-15 Drawing from 167 examples of decorative needlework primarily samplers and quilts from 114 collections across the United States made by individual women aged forty years and over between 1820 and 1860 this exquisitely illustrated book explores how women experienced social and cultural change in antebellum America The book is filled with individual examples stories and over eighty fine color photographs that illuminate the role that samplers and needlework played in the culture of the time For example in October 1852 Amy Fiske 1785 1859 of Sturbridge Massachusetts stitched a sampler But she was not a schoolgirl making a sampler to learn her letters Instead as she explained The above is what I have taken from my sampler that I wrought when I was nine years old It was w rough t on fine cloth and it tattered to pieces My age at this time is 66 years Situated at the intersection of women s history material culture study and the history of aging this book brings together objects diaries letters portraits and prescriptive literature to consider how middle class American women experienced the aging process Chapters explore the physical and mental effects of old age on antebellum women and their needlework technological developments related to needlework during the antebellum period and the tensions that arose from the increased mechanization of textile production and how gift needlework functioned among friends and family members Far from being solely decorative ornaments or functional household textiles these samplers and quilts served their own ends They offered aging women a means of coping of sharing and of expressing themselves These threads of time provide a valuable and revealing source for the lives of mature
