**idea journal: interior technicity: unplugged and/or switched on** Julieanna Preston, 2020-10-07 Interior Technicity Unplugged and or Switched On invites reflection on how interiors have always been augmenting entities and how they continue to be so in other words extending facilitating and consolidating bodies within socio cultural environments Rather than seeing an interior as an inside in opposition to a world beyond it asks what modes of folding inward have equipped and enabled the spatial environment Technicity the world of tools and technical objects that extend and mediate memory as Bernard Steigler 1998 describes it has never been what inside ness in its sheltering of life keeps at bay mediation is from the start technical indexed to inscribing practices rich in temporal and embodied implications By this reading interiors have always been augmented and augmenting in the sense of the Latinaugmentare to increase enlarge or enrich This IDEA Journal issue considers this mode of folding inward as a condition of an interior specificity Whether it be a small structure such as a tramping hut or a tiny house a large complex interior environment such as an airport or shopping mall handmade with local materials such as Samoan fale or the result of manufacturing processes assembling artificial and prefabricated elements as in the case of a spacecraft boat or train interiors are augmented mediated generated or embellished by technologies The effect of these technologies is not neutral one's experience of an interior is significantly influenced by the affective resonance of its technologies      Collaborations Archie Hearne III, Garbo Watson Hearne, 2008-01-01 Collaborations Two Decades of Excellence in African American Art complete with color reproductions of the artwork of 57 artists who have exhibited in either solo or group exhibitions at Hearne Fine Art is a vibrant testimonial to the longevity and commitment to excellence that has come to be the hallmark of this gallery Accompanying the images are brief profiles of the artists as well as their respective statements Also included are incisive textual contributions from noted appraiser and historian Halima Taha PhD and artist Dianne Smith      *Past Bodies* Dusan Boric, John Robb, 2014-01-31 Archaeology often struggles in envisioning real people behind the world of material objects it studies Even when dealing with skeletal remains archaeologists routinely reduce them to long lists of figures and attributes Such a fragmentation of past subjects and their bodies if analytically necessary is hardly satisfactory While material culture is the main archaeological proxy to real people in the past the absence of past bodies has been chronic in archaeological writings At the same time these past bodies in archaeology are omnipresent

Bodily matters are tangible in the archaeological record in a way most other theoretical centralities never appear to be. Ancient bodies surround us in representations in burials in the remains of food preparation cooking and consumption in hands holding tools in joint efforts of many individual bodies who built architecture and monuments. This collection of papers is a reaction to decades of the body's invisibility. It raises the body as the central topic in the study of past societies researching its appearance in a wide variety of regional contexts and across vast spans of archaeological time. Contributions in this volume range from the deep Epi Palaeolithic past of the Near East through the European Neolithic and Bronze Age Classical Greece and Late Medieval England to pre-Columbian Central America post-contact North America and the most recent conflicts in the Balkans. In all these case studies the materiality of the body is centre stage. Possibilities are highlighted for future study by putting the body at the forefront of these archaeological studies; an attempt is made to provoke the imagination and map out new territories.
