Art Therapy Judith Aron Rubin, 1999 What is art therapy? How do art therapists use art to understand and to help people? What does the future of art therapy look like? This book provides a map of the territory of this rapidly growing discipline. Surveying the field from both a historical and a current perspective, the book covers a wide variety of practitioners and approaches. The reader will learn how art therapy is used to assess and to treat people of all ages and conditions in many kinds of settings including clinics, hospitals, schools, prisons, community centers, and nursing homes.

Art Therapy: An Introduction brings art therapy to life with over 40 clinical vignettes and almost 200 illustrations of artwork and of art therapy in action. Offering a rich array of sources and resources, the book will be of interest to clinicians and teachers in many fields such as psychiatry, psychology, social work, counseling, art, and education.

The Art of Solution Focused Therapy Elliott Connie, Linda Metcalf, 2009-06-15 What is Solution Focused Therapy? Solution Focused Therapy (SFT) is a unique goal-directed therapy aimed at helping clients regain autonomy by determining and achieving their own goals. Solution-focused therapists encourage clients to focus on solutions, not problems, and help clients effectively plan how to reach their goals. Unlike other therapies, SFT holds an abiding belief in clients' abilities to know what is best for them rather than have a therapist tell them. Why this book? This book not only provides an overview of the Solution Focused therapy model, its basic tenets, and theories, it also presents intimate interviews with expert practitioners, all of whom use SFT in their own practice. To this end, the book offers a wealth of insight into the theory and practice of SFT to help practitioners decide whether SFT is right for them and their clients. These experts offer details of their apprehensions, goals, breakthroughs, and overall experiences with the therapy. The team of expert contributors includes Eve Lipchik, Yvonne Dolan, Alasdair Macdonald, Thorana Nelson, and many more. Questions the experts address include: How did you discover that SFT was the model that fit your clients' needs? What characteristics of this model drew you towards it? How has SFT impacted your personal life? What is it about SFT that makes it so effective? What are your favorite cases, and how did they affect your work as a therapist?
