Balzac, Grandville, and the Rise of Book Illustration Keri Yousif, 2016-04-15 Examining how the rise of book illustration affected the historic hegemony of the word Keri Yousif explores the complex literary and artistic relationship between the novelist Honor de Balzac and the illustrator J J Grandville during the French July Monarchy 1830 1848 Both collaborators and rivals these towering figures struggled for dominance in the Parisian book trade at the height of the Romantic revolution and its immediate aftermath Both men were social portraitists who collaborated on the influential encyclopedic portrayal of nineteenth century society *Les Français peints par eux-mêmes* However their collaboration soon turned competitive with Grandville's publication of *Scènes de la vie privée et publique des animaux* a visual parody of Balzac's *Scènes de la vie privée* Yousif investigates Balzac's and Grandville's individual and joint artistic productions in terms of the larger economic and aesthetic struggles within the nineteenth century arena of cultural production showing how writers were forced to position themselves both in terms of the established literary hierarchy and in relation to the rapidly advancing image As Yousif shows the industrialization of the illustrated book spawned a triadic relationship between publisher writer and illustrator that transformed the book from a product of individual genius to a cooperative and commercial affair Her study represents a significant contribution to our understanding of literature art and their interactions in a new marketplace for publication during the fraught transition from Romanticism to Realism [The New Bibliopolis](#) Willa Z.

Silverman, 2008-08-15 The late nineteenth century in Europe was a period of profound political social and technological change One result of these changes was the rise in France of an upper bourgeois bohemian class Many of its members stimulated interest in unique forms of artistic expression such as illustrated books On account of their influence an atmosphere of intense bibliophilic activity came to define French culture at the turn of the century *The New Bibliopolis* explores the role of amateurs in promoting the book arts in France during this period Drawing on extensive original research Willa Z Silverman looks at the ways in which book collectors supported print culture She shows how through the admiration demonstrated by collectors for this medium print came to be a crucial part of popular conceptions of aesthetics As collectors publishers authors designers and directors of bibliophile societies reviews and small presses these book lovers became passionate and prolific interlocutors of the printed word in a uniquely artistic epoch Silverman analyzes subjects as diverse as the relationship between book collecting and aesthetic and cultural currents such as Symbolism the gendered nature of book collecting the increased collaboration between authors and illustrators and the marketing of fine books at international exhibits *The New Bibliopolis* is an important contribution to the study of book history French sociocultural history and fine and decorative arts [Pierre Bonnard, the Graphic Art](#) Pierre Bonnard, Colta Feller Ives, Helen Emery Giambruni, Sasha M.
