Art Of The Novel:

The Art of the Novel Milan Kundera, 2020-12-23 A classic of literary criticism from one of the world's greatest novelists and author of *The Unbearable Lightness of Being* A great novelist who is also a great critic Guardian Cervantes Joyce Flaubert Broch Tolstoy Kafka What distinguishes the world and work of a truly great novelist In these stunning philosophical reflections on the history practice and morality of the novel Kundera mines his personal experience as an author to argue that the European novel is an art born of the laughter of God Encompassing the role of historical events the creation of character and the meaning of action in fiction the result is a modern classic of literary criticism from one of the world's finest novelists philosophical playful and profound *The Novel Art* Mark McGurl, 2001-11-04 Once upon a time there were good American novels and bad ones but none was thought of as a work of art *The Novel Art* tells the story of how beginning with Henry James this began to change Examining the late nineteenth century movement to elevate the status of the novel its sources paradoxes and reverberations into the twentieth century Mark McGurl presents a more coherent and wide ranging account of the development of American modernist fiction than ever before Moving deftly from James to Stephen Crane Edith Wharton Gertrude Stein William Faulkner Dashiell Hammett and Djuna Barnes among others McGurl argues that what unifies this diverse group of ambitious writers is their agonized relation to a middling genre rarely included in discussions of the fine arts He concludes that the new product despite its authors desire to distinguish it from popular forms never quite forsook the intimacy the genre had long cultivated with the common reader Indeed the art novel sought status within the mass market and among its prime strategies was a promotion of the mind as a source of value in an economy increasingly dependent on mental labor McGurl also shows how modernism's obsessive interest in simple mindedness revealed a continued concern with the masses even as it attempted to use this simplicity to produce a heightened sophistication of form Masterfully argued and set in elegant prose *The Novel Art* provides a rich new understanding of the fascinating road the American novel has taken from being an artless enterprise to an aesthetic one **The Art of the Novel from 1700 to the Present Time** Pelham Edgar, 1933 *The Dual Artist Novel* Orla Siobhán Flock, 2023-03-31 The artist novel occupies a prominent place in literary history Although research into this genre which is usually perceived as especially rigid may seem to be exhausted at a first glance a closer look at the development of the artist novel reveals its sheer incomparable malleability and resilience In this book Orla Flock turns her attention to those types of artist novels which she calls dual artist novels which depict the artistic and personal development of both a male and a female artist The juxtaposition of the male and the female artist narratives reveals both the rootedness of the genre in literary tradition and subverts established but outdated notions of genre and gender On both a structural and a narrative level the dual artist novel challenges established but confining views and demonstrates that even incremental nuanced development over time can ultimately lead to vast transformation By reshaping the formerly rigid genre of the artist novel to include numerous and diverse voices while

staying true to the thematic tradition the dual artist novel subverts both the notion of static genre definitions as well as limiting conceptions of gender **Joseph Conrad** Edward Crankshaw,1976 *The Art of Fiction* David Lodge,2011-05-02

In this entertaining and enlightening collection David Lodge considers the art of fiction under a wide range of headings drawing on writers as diverse as Henry James Martin Amis Jane Austen and James Joyce Looking at ideas such as the Intrusive Author Suspense the Epistolary Novel Magic Realism and Symbolism and illustrating each topic with a passage taken from a classic or modern novel David Lodge makes the richness and variety of British and American fiction accessible to the general reader He provides essential reading for students aspiring writers and anyone who wants to understand how fiction works **Handbook of the American Novel of the Twentieth and Twenty-First Centuries** Timo

Müller,2017-01-11 Increasing specialization within the discipline of English and American Studies has shifted the focus of scholarly discussion toward theoretical reflection and cultural contexts These developments have benefitted the discipline in more ways than one but they have also resulted in a certain neglect of close reading As a result students and researchers interested in such material are forced to turn to scholarship from the 1960s and 1970s much of which relies on dated methodological and ideological presuppositions The handbook aims to fill this gap by providing new readings of texts that figure prominently in the literature classroom and in scholarly debate from James s *The Ambassadors* to McCarthy s *The Road* These readings do not revert naively to a time before theory Instead they distil the insights of literary and cultural theory into concise introductions to the historical background the themes the formal strategies and the reception of influential literary texts and they do so in a jargon free language accessible to readers on all levels of qualification *The Cambridge Introduction to the Novel* Marina MacKay,2010-11-25 Beginning its life as the sensational entertainment of the eighteenth century the novel has become the major literary genre of modern times Drawing on hundreds of examples of famous novels from all over the world Marina MacKay explores the essential aspects of the novel and its history where novels came from and why we read them how we think about their styles and techniques their people plots places and politics Between the main chapters are longer readings of individual works from Don Quixote to *Midnight s Children* A glossary of key terms and a guide to further reading are included making this an ideal accompaniment to introductory courses on the novel **A Novel Marketplace** Evan Brier,2012-02-25 As television transformed American culture in the 1950s critics

feared the influence of this newly pervasive mass medium on the nation s literature While many studies have addressed the rhetorical response of artists and intellectuals to mid twentieth century mass culture the relationship between the emergence of this culture and the production of novels has gone largely unexamined In *A Novel Marketplace* Evan Brier illuminates the complex ties between postwar mass culture and the making marketing and reception of American fiction Between 1948 when television began its ascendancy and 1959 when Random House became a publicly owned corporation the way American novels were produced and distributed changed considerably Analyzing a range of mid century novels including Paul Bowles s

The Sheltering Sky Ray Bradbury's Fahrenheit 451 Sloan Wilson's The Man in the Gray Flannel Suit and Grace Metalious's Peyton Place Brier reveals the specific strategies used to carve out cultural and economic space for the American novel just as it seemed most under threat During this anxious historical moment the book business underwent an improbable expansion by capitalizing on an economic boom and a rising population of educated consumers and by forming institutional alliances with educators and cold warriors to promote reading as both a cultural and political good A Novel Marketplace tells how the book trade and the novelists themselves successfully positioned their works as embattled holdouts against an oppressive mass culture even as publishers formed partnerships with mass culture institutions that foreshadowed the multimedia mergers to come in the 1960s As a foil for and a partner to literary institutions mass media corporations assisted in fostering the novel's development as both culture and commodity

The Book Lover's Publication David Maroto, Joanna Zielińska, Roland Barthes, 2015-05-01 This publication is devoted to the phenomenon of the artist novel and whether it can be considered to be a medium in its own right within the visual arts Visual artists create different strategies to integrate their novels into their practice Introducing traits that are particular to narrative literature into the visual arts implies the accentuation of some features over others such as narration fiction identification and the act of reading and its protracted engagement as well as distribution in public space An artist's approach comes fundamentally from the visual arts The creation of an artist novel doesn't differ from any other artwork Both processes feed into each other as they evolve within the same body of works Thanks to the contributions of a selected group of artists writers curators and scholars this publication strives to demonstrate that literature when treated by visual artists can take place well beyond the space of the book

The Art of Fiction William Somerset Maugham, 1977

Art in Literature, Literature in Art in 19th Century France Emilie Sitzia, 2011-12-08 The traditional relationship between painting and literature underwent a profound change in nineteenth century France Painting

progressively asserted its independence from literature as it liberated itself from narrative obligations whilst interrogating the concept of subject matter itself. Simultaneously the influence of art on the writing styles of authors increased and the character of the artist established itself as a recurring motif in French literature. This book offers a panoramic review of the relationship between art and literature in nineteenth century France. By means of a series of case studies chosen from key moments throughout the nineteenth century the aim of this study is to provide a focused analysis of specific examples of this relationship revealing both its multifaceted nature as well as offering a panorama of the development of this on going and increasingly complex cultural relationship. From Jacques Louis David's irreverence for classical texts to Victor Hugo's graphic works from Edouard Manet's illustrations to Vincent Van Gogh's paintings of books from Honor de Balzac's Unknown Masterpiece to Joris Karl Huysmans's *A Rebours* this interdisciplinary investigation of the links between literature and art in France throws new light on both fields of creative endeavour during a critical phase of France's cultural history.

On Theory-Fiction and Other Genres Simon O'Sullivan, 2024-11-27 This book looks at three different kinds of writing practice theory fiction autofiction autotheory

and art writing that are increasingly prevalent as genres or hybrid genres in the arts and critical humanities The chapters in the book operate as a critical survey of these new forms of writing many examples are listed whilst at the same time they each work towards some provisional definitions Some key precursors to these new genres are also identified The book explores what these new kinds of writing do What is particular to them or what do they add to those already existing styles and genres and especially the academic essay and article Key here is that each form of writing works in a performative manner or as a device that enables a shift in perspective A case is made for their urgency in relation to contemporary issues and concerns and for their importance in terms of being both from and for more marginalised communities The book concludes with a discussion of machine writing and especially our collaboration with artificial intelligence language models

Hyperobject Reading, Scale Variance, and American Fiction in the Anthropocene Chingshun J. Sheu, 2023-03-25

This book proposes a model of reading called hyperobject reading that bridges the Anthropocene scale variance between humans and humanity by focusing on the large scale problems and phenomena themselves Hyperobject reading draws on narratology and reader response theory as well as newer developments such as the postcritical turn and object oriented ontology The theoretical introduction sets out the building blocks of hyperobject reading Chapter 2 intervenes in critical disability studies and debates about the ecosomatic paradigm Chapter 3 intervenes in debates about technological evolution analogue vs digital subjectivity and affect theory and Chapter 4 intervenes in debates about autofiction contemporary metafiction and the position and role of the narrator in first person narratives where the narrator and protagonist can be distinguished The analytical conclusion sketches the conceptual anatomy of the hyperobject and three possible responses No part of the Earth today is free from human influence but literary success suggests effective real world strategies
