*Latter-Day Saint Art* Amanda K. Beardsley,Cayleff and Sakai Faculty Scholar Amanda Beardsley,Mason Kamana Allred,Assistant Professor of Communication Media and Culture Mason Allred,2024 *Latter day Saint Art A Critical Reader* seeks to fill a substantial gap by providing a comprehensive examination of the visual art of the Latter day Saints from the nineteenth century to the present The volume includes twenty two essays examining art by for or about Mormons as well as over 200 high quality color illustrations *Deaccessioning and Its Discontents* Martin Gammon,2018-07-24 The first history

of the deaccession of objects from museum collections that defends deaccession as an essential component of museum practice. Museums often stir controversy when they deaccession works formally remove objects from permanent collections with some critics accusing them of betraying civic virtue and the public trust. In fact, Martin Gammon argues in *Deaccessioning and Its Discontents*, deaccession has been an essential component of the museum experiment for centuries. Gammon offers the first critical history of deaccessioning by museums from the seventeenth to the twenty-first century and exposes the hyperbolic extremes of deaccession denial, the assumption that deaccession is always wrong, and deaccession apology when museums justify deaccession by finding some fault in the object as symptoms of the same misunderstanding of the role of deaccessions in proper museum practice. He chronicles a series of deaccession events in Britain and the United States that range from the disastrous to the beneficial and proposes a typology of principles to guide future deaccessions. Gammon describes the liquidation of the British Royal Collections after Charles I's execution when masterworks were used as barter to pay the king's unpaid bills as establishing a precedent for future deaccessions. He recounts among other episodes, U.S. Civil War veterans who tried to reclaim their severed limbs from museum displays, the 1972 Hoving affair when the Metropolitan Museum of Art sold a number of works to pay for a Velázquez portrait, and Brandeis University's decision later reversed to close its Rose Art Museum and sell its entire collection of contemporary art. An appendix provides the first extensive listing of notable deaccessions since the seventeenth century. Gammon ultimately argues that vibrant museums must evolve embracing change, loss, and reinvention.
