Thomas, Catherine Barr, 2004 Because of their popularity books in series are great vehicles for fostering literacy among all types of readers who are almost always adamant about reading every title in the series in series order. Yet traditional information sources on children's and YA literature include very little about series fiction so librarians often have difficulty managing this literature. This guide will be a rich resource and time saver for librarians who work with children. It introduces users to the best and most popular fiction series of today covering more than 1 000 series with over 10 000 titles appropriate for elementary readers. Annotations also indicate series and titles accepted by some of the popular electronic reading programs e.g. Accelerated Reading, Reading First. A numbered list of titles in the series follows. flag For the proud truth is that this volume represents a great national achievement From its formal inception in 1979 this encyclopedia has always represented a vote of faith in Canada in Canada as a separate place whose natural worlds and whose peoples and their achievements deserve to be recorded and celebrated At the start of a new century and a new millennium in an increasingly borderless corporate world that seems ever more hostile to national distinctions and aspirations this Canadian Encyclopedia is offered in a spirit of defiance and of faith in our future The statistics behind this volume are staggering The opening sixty pages list the 250 Consultants the roughly 4 000 Contributors all experts in the field they describe and the scores of researchers editors typesetters proofreaders and others who contributed their skills to this massive project The 2 640 pages incorporate over 10 000 articles and over 4 000 000 words making it the largest some might say the greatest Canadian book ever published There are of course many special features These include a map of Canada a special page comparing the key statistics of the 23 major Canadian cities maps of our cities a variety of tables and photographs and finely detailed illustrations of our wildlife not to mention the colourful informative endpapers But above all the book is encyclopedic which the Canadian Oxford Dictionary describes as embracing all branches of learning This means that with rare exceptions there is satisfaction for the reader who seeks information on any Canadian subject From the first entry A mari usque ad mare from sea to sea which is Canada s motto and a good description of this volume s range to the Zouaves who mustered in Quebec to fight for the beleaguered Papacy there is the required summary of information clearly and accurately presented For the browser the constant variety of entries and the lure of regular cross references will provide hours of fascination The word encyclopedia derives from Greek expressions alluding to a grand circle of knowledge Our knowledge has expanded immeasurably since the time that one mind could encompass all that was known Yet now Canada s finest scientists academics and specialists have distilled their knowledge of our country between the covers of one volume The result is a book for every Canadian who values learning and values Canada **Cue** ,1973 *Arthur's Pen Pal* Lillian Hoban,2000 Arthur views his little sister in a different light after receiving a revealing letter from his pen pal
