How to Draw and Paint - A Beginner's Guide: Book One Bella Wilson, John Davidson, 2017-06-27 Table of Contents Introduction Chapter 1 Materials Sketchbooks and Paper Pencils Erasers Rubber Erasers Art Gum Erasers Kneadable Erasers Vinyl Erasers Drawing Board Bulldog Clips Sharpener or Knife Fixative Chapter 2 Drawing Lines Doodling Blind Contour Drawing Jug and Cylindrical Tin Straight Line Chapter 3 Shading Composition Chapter 4 Perspective and Foreshortening Chapter 5 Circles in Perspective How to Draw Ellipse Putting It All Together Vintage Radio Still Life Wine Bottle Still Life Kitchen Utensil Still Life Kitchen Item Still Life Flower Vase and Picture Still Life Conclusion Author Bio Publisher Introduction If you've ever had the urge to draw you may have been put off by the thought of all that expensive equipment and all those costly supplies What if I told you that the only things you needed to get started were a pencil paper and an eraser You can find pencils and erasers anywhere You've probably been using them since kindergarten and have a few round the house Are you daunted by the fact that you've often heard that this is a talent possessed by the few who are born with it The fact is that learning art is just like learning any other subject and even if you never learn to be a Leonardo or a Van Gogh you will always get better with practice And by the way you'll have a lot of fun As I said you really do not need a lot of expensive material to start off with but it's best to collect what you will need a long time before so that you are ready to hit the ground running Do some research or ask someone more experienced to help you with your shopping list This way you'll avoid wasting time and money I recommend drawing at home or in a studio at first because you have control over everything you're doing you're in a familiar setting and the objects around you are well known As well as this your light source will not change so dramatically as if you were outdoors you will not run the risk of thundershowers and high winds blowing your paper away and you can get to the toilet if you need to Outdoor work can wait till later on when you're more confident and more experienced Another idea is to join a club where you can work in a studio with a teacher and a group of other students so you can all learn from each other This is a powerful tool There is also a social aspect in the gathering of people with a like minded interest
