Basic Documents Supplement to International Law Louis Henkin, Richard Crawford Pugh, Oscar Schachter, Hans Smit, 1987 Basic Documents Supplement to International Law, Cases and Materials, Third Edition Louis Henkin, 1993 International Law Louis Henkin, 1987 **International law :**

cases and materials. Basic documents supplement Louis Henkin, 1982 International law, 1980 Basic Documents Supplement to International Law Louis Henkin, 1993 *Teaching International Law* Paul F. Diehl, Charlotte Ku, 2024-05-02

Outlining a wide range of instructional strategies for different student audiences Teaching International Law presents guidelines and recommendations on best practices for teaching public international law at undergraduate and postgraduate levels as well as part of law schools and legal training programs **Traditions of International Ethics** Terry Nardin, David R. Mapel, 1992 This is the first comprehensive study of how different ethical traditions deal with the central moral problems of international affairs Using the organizing concept of a tradition it shows that ethics offers many different languages for moral debate rather than a set of unified doctrines Each chapter describes the central concepts premises vocabulary and history of a particular tradition and explains how that tradition has dealt with a set of recurring ethical issues in international relations Such issues include national self determination the use of force in armed intervention or nuclear deterrence and global distributive justice

Transboundary Damage in International Law Hanqin Xue, 2003-03-13 The Chernobyl disaster the Amoco Cadiz oil spill and the Colorado River dispute are examples of an activity conducted by one state which has serious adverse effects in the territory of another or in global common areas This book details the international rules and compensation procedures and is intended for use by governmental officials international lawyers and jurists It discusses existing laws on international liability and considers the underlying legal issues that require further development It is one of the few books on the subject written from the perspective of a developing country with rapid economic and social development

The United Nations Charter as the Constitution of the International Community Bardo Fassbender, 2009 The reconstitutionalization of international law is one of the most intensely debated issues in contemporary international legal doctrine The term is used to describe a number of features which distinguish the present international legal order from a neo-classical international law in particular its shift from bilateralism to community interest and from an inter state system to a global legal order committed to the well being of the individual person The author of this book belongs to the leading participants of the constitutionalization debate He argues that there indeed exists a constitutional law of the international community that is built on and around the Charter of the United Nations In this book he explains why the Charter has a

constitutional quality and what legal consequences arise from that characterization **Between Peril and Promise** J. Martin Rochester, 2011-11-08 In this concise introduction to international law students gain a clear appreciation for how politics shapes the development of international law and how international law shapes political relations between states Throughout the book Rochester takes this complex subject and makes it accessible with his vibrant easy to read prose *Is a U. N. International Criminal Court in the U. S. National Interest?* Dan Morrissey, 2001 Witnesses John Bolton Former Assist Sec of State for Int'l Org Affairs Lee Casey Attorney Hunton Michael Scharf Prof of Law State of the U S Del to the Preparatory Comm on the Estab of an International Criminal Court Proposal Submitted on Elements of Offenses for the International Criminal Court **Cases and Materials on Criminal Procedure** Phillip E. Johnson, 1988 **Toward an Islamic Reformation** Abdullahi Ahmed An Na'im, 2019-01-31 Toward an Islamic Reformation is an ambitious attempt to modernize Islamic law calling for reform of the historical formulations of Islamic law commonly known as Shari'a that is perceived by many Muslims to be part of the Islamic faith As a Muslim Abdullahi Ahmed An Na'im is sensitive to and appreciative of the delicate relationship between Islam as a religion and Islamic law Nevertheless he considers that the questions raised here must be resolved if the public law of Islam is to be implemented today An Na'im draws upon the teachings and writings of Sudanese reformer Mahmoud Mohamed Taha to provide what some have called the intellectual foundations for a total reinterpretation of the nature and meaning of Islamic public law **International Responsibility Today** Maurizio Ragazzi, 2005-05-01 The law of international responsibility a classic area of investigation in international law has been attracting an ever increasing interest in recent times as reflected also in the work of the International Law Commission on State responsibility and on responsibility of international organizations The exploration of current trends in this important area is therefore an appropriate and timely subject for a book in memory of Oscar Schachter a former United Nations official Columbia Law School professor ASIL President and international lawyer of world wide reputation who died in December 2003 The editor of the book has assembled a team of thirty six prominent international lawyers belonging to twenty different nationalities to write about different aspects of the law of international responsibility from general issues to specific areas of the law including responsibility before international courts and tribunals with respect to both the law of State responsibility and responsibility of international organizations and other non State actors The result of this effort is a monographic volume enriched by a biography and a list of publications of Oscar Schachter and accompanied by a bibliography of all the works cited in the various contributions and an index for easier consultation which will be of interest not only to the many admirers and friends of Oscar Schachter around the world but also more broadly to international law academics and practitioners *UN Security Council Reform and the Right of Veto* Bardo Fassbender, 2023-12-21 This book is a timely contribution to the present discussion of a constitutional reform of the United Nations a discussion rekindled by the end of the cold War and the significant involvement of the UN in international peacemaking and peacekeeping since the

Kuwait crisis Like the new debate the work focuses on the Security Council its composition and possible enlargement its decision making process and competences and its relationship with the General Assembly and the International Court of Justice Particular regard is given to the right of veto of the permanent members of the Security Council which is seen as the central and most problematic feature of the present constitution of the UN The work describes and analyzes the reform discussion as it has taken place at the UN since 1991 The different proposals made by governments NGOs and individual scholars are evaluated by applying a number of standards and concepts ensuing from a perception of the UN Charter as constitution of the international community Thus the study advances a comprehensive constitutional theory of the UN and redefines the place of the Charter in contemporary international law

Cases and Materials on the Income Taxation of Trusts, Estates, Grantors, and Beneficiaries Jeffrey N. Pennell, 1987 **Basic Documents Supplement to International Law** Lori Damrosch, Sean Murphy, Julian Arato, 2025-01-23 This up to date collection of documents is designed primarily for use in conjunction with Damrosch Murphy and Arato s International Law Cases and Materials Eighth Edition 2025 This Documents Supplement also provides a handy general reference for anyone working in the field of international law The Documents Supplement reprints about 30 central documents likely used by anyone teaching the course with updated lists of parties along with internet citations to a fuller set of other documents included in prior editions *Code of Peace* Dorothy V. Jones, 1991-11-15 Is it possible in our world of differing beliefs and diverse cultures to find an ethical framework that can guide actual international relations In Code of Peace Dorothy V Jones sets forth her surprising answer to this perplexing question Not only is a consensus on ethical principles possible but it has already been achieved Jones focuses on the progressive development of international law to disclose an underlying code of ethics that enjoys broad support in the world community Unlike studies that concentrate on what others think that states ought to do Code of Peace analyzes what states themselves consider proper behavior Using history as both narrative and argument Jones shows how the existing ethical code has evolved cumulatively since World War I from a complex interplay between theory and practice More than an abstract treatise or a merely technical analysis Jones s study is grounded in the circumstances of war and peace in this century Treaties and agreements she argues are forging a consensus on such principles as human rights self determination and cooperation between states Jones shows how leaders and representatives of nations drawing on a rich heritage of philosophical thoughts as well as on their own experiences in a violent world of self interested conflict have shaped their thought to the taming of that world in the cause of peace That is the striking thing about this code states whose relations are marked by so frequent a recourse to war that they can fairly be called warlords have created and pledged themselves to a code of peace The implications of Code of Peace for establishing a normative foundation for peace are profound Historically sound and timely impeccably researched and elegantly written the book will be of immediate and lasting value to anyone concerned with the stability of the modern world
