## **Basic Income Grant For South Africa:**

**A Basic Income Grant for South Africa** Guy Standing, Michael Samson, 2003 This book provides a critical analysis of the feasibility and impact of a universal basic income grant for South Africans which has been discussed extensively in parliament and the media for the past two years The authors assess how comprehensive social security reform including a universal grant will impact on the severe inequality in the country and promote economic growth and employment Their research reveals that it is affordable and they argue that it would reduce the criminality that is associated with poverty and inequality The implications for women and children and for the black majority would be considerable At the Presidential Jobs Summit in 1998 COSATU negotiated an agreement with the government to investigate a universal social grant for all South Africans the Basic Income Grant Government policy makers civil society stakeholders and South African and international thinkers recognised the merit of addressing the problem of poverty directly and efficiently In March 2002 the South African government's Committee of Inquiry into Comprehensive Social Security completed its evaluation of policy options for addressing the severe levels of poverty afflicting the country Accepting the findings of research commissioned from the Economic Policy Research Institute the Committee's report stated that the Basic Income Grant has the potential more than any other possible social protection intervention to reduce poverty and promote human development and sustainable livelihoods This book provides an accessible collection of the current research on the issue with chapters by both proponents and critics of the Basic Income Grant Some of the issues discussed include How can the grant be financed In what ways will the grant promote job creation economic growth and social development And will the government demonstrate the political will to implement what is likely to be the single most effective policy for reducing poverty and eradicating destitution

*Basic Income* Philippe Van Parijs, Yannick Vanderborght, 2017-03-20 Powerful as well as highly engaging a brilliant book Amartya Sen A Times Higher Education Book of the Week It may sound crazy to pay people whether or not they're working or even looking for work But the idea of providing an unconditional basic income to everyone rich or poor active or inactive has long been advocated by such major thinkers as Thomas Paine John Stuart Mill and John Kenneth Galbraith Now with the traditional welfare state creaking under pressure it has become one of the most widely debated social policy proposals in the world Basic Income presents the most acute and fullest defense of this radical idea and makes the case that it is our most realistic hope for addressing economic insecurity and social exclusion They have set forth clearly and comprehensively what is probably the best case to be made today for this form of economic and social policy Benjamin M Friedman New York Review of Books A rigorous analysis of the many arguments for and against a universal basic income offering a road map for future researchers Wall Street Journal What Van Parijs and Vanderborght bring to this topic is a deep understanding an enduring passion and a disarming optimism Steven Pearlstein Washington Post **Handbook on Social Protection Systems** Schüring, Esther, Loewe, Markus, 2021-08-27 This exciting and innovative Handbook provides readers with a

comprehensive and globally relevant overview of the instruments actors and design features of social protection systems as well as their application and impacts in practice It is the first book that centres around system building globally a theme that has gained political importance yet has received relatively little attention in academia Universal Basic Income in Historical Perspective Peter Sloman, Daniel Zamora Vargas, Pedro Ramos Pinto, 2021-11-19 This new edited collection brings together historians and social scientists to engage with the global history of Universal Basic Income UBI and offer historically rich perspectives on contemporary debates about the future of work In particular the book goes beyond a genealogy of a seemingly utopian idea to explore how the meaning and reception of basic income proposals has changed over time The study of UBI provides a prism through which we can understand how different intellectual traditions political agents and policy problems have opened up space for new thinking about work and welfare at critical moments Contributions range broadly across time and space from Milton Friedman and the debate over guaranteed income in the post war United States to the emergence of the European basic income movement in the 1980s and the politics of cash transfers in contemporary South Africa Taken together these chapters address comparative questions why do proposals for a guaranteed minimum income emerge at some times and recede into the background in others What kinds of problems is basic income designed to solve and how have policy proposals been shaped by changing attitudes to gender roles and the boundaries of social citizenship What role have transnational networks played in carrying UBI proposals between the global north and the global south and how does the politics of basic income vary between these contexts In short the book builds on a growing body of scholarship on UBI and lays the groundwork for a much richer understanding of the history of this radical proposal Chapter 3 is available open access under a Creative Commons Attribution 4.0 International License via [link.springer.com](https://link.springer.com) *Political Activism and Basic Income Guarantee* Richard K. Caputo, Larry Liu, 2020-05-26 This edited volume brings together international and national scholars and major activists leading or spearheading basic income guarantee political initiatives in their respective countries Contributing authors address specific issues about major efforts to influence public policy regarding basic income guarantee such as who were the main advocates and thought leaders involved in support of such legislative initiatives what were the main organizational and framing strategies and tactics used to influence public opinion and elected officials to support the idea of and policies related to basic income guarantee what were the major obstacles they faced and what practical and theoretical lessons might be learned from past and contemporary actions to affect social policy change regarding basic income guarantee and related measures to guide the efforts of activists and public intellectuals in the 2020 and 2024 election cycles **The Palgrave International Handbook of Basic Income** Malcolm Torry, 2023-10-20 This handbook brings together scholars from various disciplines and from around the world to examine the history characteristics effects viability and implementation of basic income The first edition of this book contributed a comprehensive treatment of multiple aspects of the basic income debate This updated expanded edition tackles new topics

that are becoming increasingly prominent in the global debate New chapters are devoted to recent research on the history of basic income the development and peacemaking potential of basic income in conflict zones municipal experiments in the United States requirements for pilot projects and experiments and the public health implications of basic income Existing chapters on the implementation of basic income have also been substantially updated to take account of new research on microsimulation land value tax local currencies and blockchain technology and cryptocurrency along with new material on the increasing use of opinion polls and the difficulties related to that New political and ethical perspectives on the role of trade unions and their increasing engagement with the basic income debate are also introduced while the section on pilot projects and experiments has been updated to cover recent political developments Fully updated to reflect new global developments in the basic income debate this handbook will be of interest to researchers teachers and research oriented policymakers in a range of fields

Basic Income Worldwide Matthew Murray, Carole Pateman, 2012-07-25 In the midst of growing criticism of current economic orthodoxies and welfare systems basic income is growing in popularity This is the first book to discuss existing examples of basic income in both rich and poor countries and to consider its prospects in other places around the world

Socio-economic Rights in South Africa Danie Brand, Christof H. Heyns, 2005 *Basic Income in the World* Marek Hrubec, Martin Brabec, Markéta Minářová, 2022-01-01 This book offers an introduction to the important idea and practice of unconditional basic income which is becoming a topic increasingly discussed not only among researchers but also among citizens and the politicians who represent them The topic is also increasingly making its way into the mass media Unconditional basic income is a financial sum that is provided to all citizens or otherwise legally defined residents by the state or a city a county etc at regular intervals usually monthly without any conditions being attached i.e. regardless of whether the citizen has other income from wages or other sources regardless of age sex and gender marital status or other characteristics The provision of a basic income enables citizens' basic needs to be met and their creative potential to be unlocked for their other activities which could then significantly raise their standard of living This book discusses basic income by presenting the main arguments and experiments with basic income in Europe the Americas Africa and Asia Basic income offers the possibility of a major social and civilizational change for all

**Social Welfare and Social Work in Southern Africa** Ndangwa Noyoo, 2021-06-11 This book is written by Southern African social welfare social work social development social security and social policy academics practitioners and advocates who have varying degrees of experience The authors who contributed chapters to this book added their perspectives to ongoing debates about academic areas in the region Thus the book's primary objective is to discuss the development of social welfare and social work in Southern Africa In doing so it endeavours to contribute to the existing body of knowledge on social welfare and social work in the region The chapters are examined through different theoretical lenses and historical perspectives In this book African scholars academics and practitioners provide a deep and critical reflection of social welfare social work and related disciplines during

the colonial and post colonial era a period characterised by a deliberate move by Africa's political administrations to focus on nation building and to attempt to make Africa a global player Despite being endowed with rich natural resources like minerals agriculture and solid family and extended family life the continent is weak globally Furthermore the book focuses on the pre colonial period a golden thread running through the chapters The book discusses the colonial era when Western countries capture and oppression of Africa characterised the continent's history This book is an appropriate publication at this point in our history a resource that can be used to generate appropriate narratives and questions within the social welfare and social development sector particularly on delivery education and training

South Africa's 1940s Saul Dubow, Alan Jeeves, 2005 The 1940s was a turbulent period in the history of South Africa It opened with parliament's bitterly contested decision to enter the war was rocked by political turmoil and ended with a bang as well as a whimper as the National party captured political power in 1948

**State of the Nation** John Daniel, Adam Habib, Roger Southall, 2003 This anthology provides insightful political analysis of post apartheid South Africa Written by leading South African intellectuals these analyses cover topics such as unemployment trade unionism race relations land reform education international relations and the South Africanisation of the African economy Within each work the inherited apartheid legacy the policies introduced to overcome those legacies and the effectiveness of those policies are addressed

Entrepreneurial Responses to Covid-19 in Africa Maud van Merriënboer, Neema Komba, Chanyoung Park, Lotte-Marie Brouwer, Magnus Godvik Ekland, Hanaâ Benchrif, Steven Kator Iorfa, 2022-12-15 Globally small and medium enterprises SME entrepreneurs were hit hard by the Covid 19 pandemic and subsequent measures such as lockdowns and market closures Africa was no exception Entrepreneurial intentions and activities were expected to have a broad downturn with established entrepreneurs being forced to downsize or quit their businesses while fewer novel entrepreneurs entered the market and started their own companies At the same time entrepreneurship is considered one of the few viable options to ensure an income during uncertain economic times Furthermore the Covid 19 crisis was said to drive innovation and technological advancements globally and perhaps even more so in Africa due to its young demographic This edited volume includes insights gathered during the 2021 NVAS Africa Day which had the theme entrepreneurial responses to Covid 19 in Africa This volume shines a light on two broader themes entrepreneurial intentions and entrepreneurial resilience in Africa in times of Covid 19 The conference was organized by NVAS Nederlandse Vereniging voor Afrikastudies and the African Studies Centre of Leiden University The first two chapters consider whether the pandemic and its broader consequences increase entrepreneurial intentions Is entrepreneurship a pathway out of the crisis for individuals providing an income and financial stability in a stressed labour market Or have individuals turned away from entrepreneurship due to the risk and a lack of start up funds and subsequent investments The final two chapters consider how the Covid 19 pandemic spurred entrepreneurial resilience and innovation in terms of new products markets and strategies Together these studies provide a cross sectional and cross

methodological anthology of entrepreneurial responses to Covid 19 in Africa With contributions from Neema Komba Chanyoung Park Lotte Marie Brouwer Magnus Godvik Ekeland Hana Benchrifia Steven Kator Iorfa and Maud van Merri nboer

*In the Balance* Hein Marais, 2022-07-01 Examines the need and prospects for a UBI As jobs disappear and wages flat line paid work is an increasingly fragile and unattainable basis for dignified life This predicament deepened by the COVID 19 pandemic is sparking urgent debates about alternatives such as a universal basic income UBI Highly topical and distinctive in its approach In the Balance The Case for a Universal Basic Income in South Africa and Beyond is the most rounded and up to date examination yet of the need and prospects for a UBI in a global South setting such as South Africa Hein Marais casts the debate about a UBI in the wider context of the dispossessing pressures of capitalism and the onrushing turmoil of global warming pandemics and social upheaval Marais surveys the meaning history and appeal of a UBI before even handedly weighing the case for and against such an intervention The book explores the vexing questions a UBI raises about the relationship of paid work to social rights about prevailing notions of entitlement and dependency and the role of the state in contemporary capitalism Along with cost estimates for different versions of a basic income in South Africa it discusses financing options and lays out the social economic and political implications This incisive new book advances both our theoretical and practical understanding of the prospects for a UBI Implementation of a Basic Income Grant in South Africa , 2015 **How to Fix (unf\*ck) a Country** Roy Havemann, 2024-04-02 After state capture South Africa is f cked not in

a good place The system is down How do we reboot Our is not the first country to find itself in a difficult spot China India South Korea Vietnam and many others have gone from being economic basket cases to powerhouses lifting millions out of poverty So how can we pick ourselves up and fix things In this book Roy Havemann argues that right now we need to focus on six basic E s Eskom Education Environment Exports Equality and Ethics Havemann lays out how we can practically bring in lessons from other countries and learn from their achievements and mistakes for example how China Greece and Colombia solved load shedding how different South American countries are dealing with inequality and how Brazil and Kenya are upgrading their education systems He shows that we are slowly moving in the right direction Our own Operation Vulindlela delivery unit which is a joint initiative of the Presidency and the Treasury is implementing change where it s needed but more can be done to accelerate reforms to make South Africa a success Sometimes the solutions to our problems are right here in our very own country all that is needed is for us to recognise and harness them **Wrecking Ball** Stu Woolman, 2021-04-29 Wrecking Ball explores in an unprecedented manner a decalogue of wicked problems that confronts humanity Nuclear proliferation climate change pandemics permanent technological unemployment Orwellian public and private surveillance social media that distorts reality cyberwarfare the fragmentation of democracies the inability of nations to cabin private power the failure of multinational institutions to promote collaboration and the deepening of autocratic rule in countries that have never known anything but extractive institutions Collectively or even severally these wicked problems constitute crises

that could end civilisation Does this list frighten you or do you blithely assume that tomorrow will be just like yesterday Wrecking Ball shows that without an inclusive system of global governance the collective action required to solve those wicked problems falls beyond the remit of the world's 20 inclusive democracies 50 flawed democracies and 130 extractive elitist autocracies Flawed democracies and autocracies that already struggle to produce goods necessary for their own citizens to flourish are simply incapable of committing to international arrangements that address the existential threats posed by the decalogue of wicked problems This then is our children's inheritance Dystopias far far worse than the polities that we ourselves have known What if anything can mitigate the harms that are our legacy Wrecking Ball offers as an answer a ground breaking analysis of South Africa's political economy It demonstrates that this country's elitist and extractive political and economic institutions not only make resolution of ongoing domestic crises unattainable likewise they make meaningful responses to wicked problems impossible Smart people think they have all the answers Without laboring under any such illusions Martin Luther King Jr eloquently opined The arc of the moral universe is long but it bends towards justice But what will happen King would acidly ask if we continue to dawdle and simply run out of time Wrecking Ball similalry operates under no such smart pretenses and undeterred and unmatched ventures into terrains traversed by truly great political economists Smith Ricardo Marx and Keynes By knitting together what we all know to be the facts with cutting edge theory in economics sociology history and political science the book paints an unflinching portrait of where we are and where we are headed Are we ready to be honest with ourselves about the likely future of this overheated overpopulated planet

Corona and Work around the Globe Andreas Eckert, Felicitas Hentschke, 2020-12-16 This book provides a global perspective on the transformations in the world of work caused by the COVID 19 pandemic The collection of essays will break down the general statistics and trends into glimpses of concrete experiences of workers during pandemic of workplaces transformed or destroyed of workers protesting against political measures of professions particularly exposed to the coronavirus and also of the changing nature of some professions **The Elgar Companion to War, Conflict and Peacebuilding in Africa** Geoff Harris, 2024-02-12 This dynamic Companion brings together esteemed academics from across the globe to provide ten distinct approaches to peacebuilding in Africa With a timely and forward thinking approach to war and conflict the book focuses on the utilisation of traditional African dialogue in contemporary peacebuilding developing infrastructures and education for peace with a transformative agenda **The Routledge International Handbook to Welfare State Systems** Christian Aspalter, 2023-11-30 Developing countries may not have full fledged welfare states like those we find in Europe but certainly they have welfare state systems For comparative social policy research the term welfare state systems has many advantages as there are numerous different types models of welfare state systems around the world This revised and expanded second edition brings together leading experts to discuss social policy in 32 countries regions around the world from the most advanced welfare state systems in Scandinavia and Western Central Europe to the

developing powers of Brazil China India Indonesia Mexico and Russia Country specific chapters provide in general a historical overview discuss major characteristics of the welfare state system and analyze country specific problems as well as critical current and future trends for further discussions while also providing one additional major focal point issue for greater in depth analysis Including new country case studies on Mali South Africa Iceland Spain Italy Greece and Vietnam this book is reframed around urgent contemporary issues including migration and rising social inequalities LGBTQIA rights universal basic income and transboundary social policy It will be of great interest to all scholars and students of social policy social development development economists and health economists experts in public policy health policy including mental health policy housing policy education policy family policy cis and trans gender policy migration and population policy sociology social work anthropology as well as social policy and public policy makers and administrators
