Basic Pumping Iron:

Basic Pumping Iron Grant Breese, 2004 *Basic Pumping Iron* Grant Breese, 2004 *Impossible Bodies* Christine Holmlund, 2013-11-05 *Impossible Bodies* investigates issues of ethnicity gender and sexuality in contemporary Hollywood Examining stars from Arnold Schwarzenegger and Clint Eastwood to Whoopi Goldberg and Jennifer Lopez Holmlund focuses on actors whose physique or appearance marks them as unusual or exceptional and yet who occupy key and revealing positions in today's mainstream cinema Exploring a range of genres and considering both stars and their sidekicks Holmlund examines ways in which Hollywood accommodates or doesn't a variety of impossible bodies from the outrageous physiques of Dolph Lundgren and Dolly Parton to the almost invisible bodies of Asian Americans Latinas and older actors **Out of Bounds** Aaron Baker, Todd Boyd, 1997 Examines racial and gender identities created by media representation of sports and sports figures The essays in this collection challenge media wisdom about the apolitical nature of sports by examining how they contribute to the contested process of defining social identities **Building Bodies** Pamela L. Moore, 1997 *Building Bodies* is an exciting collection of articles that strive toward constructing theoretical models in which power bodies discourse and subjectivity interact in a space we can call the built body a dynamic politicized and biological site Contributors discuss the complex relationship between body building and masculinity between the built body and the racialized body representations of women body builders in print and in film and homoeroticism in body building Linked by their focus on the sport and practice of body building the authors in this volume challenge both the way their various disciplines media studies literary criticism gender studies film and sociology have gone about studying bodies and existing assumptions about the complex relationship between power subjectivity society and flesh Body building in practice in representation and in the cultural imagination serves as a launching point because the sport and practice provide ready challenges to existing assumptions about the built body *BASIC ARREST AND PRISONER CONTROL TACTICS* Andries C. Cane, 1989-01-01 Prior to the availability of this new and fundamental text there have only been in use methods of apprehension and control which would make necessary a black belt for the officer recruit to understand and use the many techniques involved Before now for any type of attack there have been numerous ways suggested for officers to protect themselves making it extremely difficult to learn and remember This highly experienced author provides four basic techniques to cover all attacks which makes it possible for new recruits to attain a very high skill level in a very short time The book is well and thoroughly illustrated

Encyclopedia of Chemical Processing and Design John J. McKetta Jr, 1995-03-13 *Slurry Systems Instrumentation to Solid Liquid Separation* *Dissolution* Charles S. Maier, 1999-03-01 Against the backdrop of one of the great transformations of our century the sudden and unexpected fall of communism as a ruling system Charles Maier recounts the history and demise of East Germany *Dissolution* is his poignant analytically provocative account of the decline and fall of the late German Democratic Republic This book explains the powerful causes for the disintegration of German communism as it

constructs the complex history of the GDR Maier looks at the turning points in East Germany's forty year history and at the mix of coercion and consent by which the regime functioned He analyzes the GDR as it evolved from the purges of the 1950s to the peace movements and emerging youth culture of the 1980s and then turns his attention to charges of Stasi collaboration that surfaced after 1989 In the context of describing the larger collapse of communism Maier analyzes German elements that had counterparts throughout the Soviet bloc including its systemic and eventually terminal economic crisis corruption and privilege in the SED the influence of the Stasi and the plight of intellectuals and writers and the slow loss of confidence on the part of the ruling elite He then discusses the mass protests and proliferation of dissident groups in 1989 the collapse of the ruling party and the troubled aftermath of unification *Dissolution* is the first book that spans the communist collapse and the ensuing process of unification and that draws on newly available archival documents from the last phases of the GDR including Stasi reports transcripts of Politburo and Central Committee debates and papers from the Economic Planning Commission the Council of Ministers and the office files of key party officials This book is further bolstered by Maier's extensive knowledge of European history and the Cold War his personal observations and conversations with East Germans during the country's dramatic transition and memoirs and other eyewitness accounts published during the four decade history of the GDR
