Adamec, 2016-12-14 Muslims believe that the Koran is God s message in Arabic revealed through the medium of the Prophet Muhammad for the guidance of the Arabs and subsequently for all humanity There is both unity and variety in the Islamic world Muslims are not a homogeneous people who can be explained solely by their normative texts the Koran and the Sunnah Muslims differ vastly in their interpretation of Islam modernists want to reinterpret Islam to adapt to the requirements of modern times while traditionalists tend to look to the classical and medieval periods of Islam as their model of the Islamic state This third edition of Historical Dictionary of Islam contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 700 cross referenced entries on major sects schools of theology and jurisprudence as well as aspects of Islamic culture This book is an excellent resource for students researchers and anyone wanting to know more about Islam *A Dictionary of Islam* Thomas Patrick Hughes, 1885 **Historical Dictionary of Islam** Ludwig W. activists during the period from 1923 1957 Their efforts involved them in the great disputes of the time namely the shape of the emerging Indonesian state as the region broke loose from colonial control and the direction of Islamic discourse in that new nation Deeply ideological these activists called themselves radical revolutionaries Their outlook starting as a manifestation of Islamic Modernism later became a form of Islamic Neo Fundamentalism The views raised by the group were not generally accepted as elites with other outlooks gained control of the nationalist agenda and the direction of the Indonesian Muslim community The story of these activists however tells us much about the context of both Indonesian nationalism and Indonesian Islam as both developed during the first half of the twentieth century

Islam in South Asia: Amit Dey, 2016 Scholarly insightful and at the same time written in an exceptionally lucid style this book challenges certain stereotypes relating to Islam Sufism folk songs and inter community relations in the South Asian context By consulting Persian Urdu Bengali and English sources this book suggests that Sufism is more heterogeneous and complex than what is commonly taken to be

Anderson, 2013-09-05 In 1958 William L Langer in a well known presidential address to the American Historical Association declared the informed use of psychoanalytic depth psychology as the next assignment for professional historians Psychoanalysis and History volume 31 of The Annual of Psychoanalysis examines the degree to which Langer's directive has been realized in the intervening 45 years Section I makes the case for psychobiography in the lives of historical figures and exemplifies this perspective with analytically informed studies of the art of Wassily Kandinsky the films of Stanley Kubrick and the anti-Semitism of Adolf Hitler Section II reviews Freud's own psychohistorical contributions and then considers the relevance to historical inquiry of the more recent perspectives of Winnicott Kernberg and Kohut Section III explores an intriguing tributary of psychobiographical inquiry the impact of the biographer's own subjectivity on his or her work Section IV turns to a topic of perennial interest the psychobiographical study of American presidents Section V turns to the special challenges of applying psychoanalysis to topics of religious history and includes topical studies of religious figures as disparate as the 15th century Asian Drukpa Kunley and Osama bin Laden Section VI focuses on the recent extension of psychohistorical inquiry to groups of people and to cultural phenomena more generally an investigation of the youth movement in pre-Nazi Germany consideration of how societies no less than individuals reenact and work through traumas over time and an outline of the role of analysis in constructing a depth psychological social psychology of use to historians These papers no less than those that precede them are compelling testimony to the claim with which editors James William Anderson and Jerome A Winer begin the volume to wit that Psychoanalysis would seem to be a resource indispensable to the study of history
