Sherlock, Tom Sherlock, 2013 In the early days on the Colorado frontier women took care of family and neighbors because accepting that we're all in this together was the only realistic survival strategy on the high plains along the Front Range in the mountain towns and on the Western Slope As dangerous occupations became fundamental to Colorado's economy if they were injured or got sick there was no one to care for the young men who worked as miners steel workers cowboys and railroad construction workers in remote parts of Colorado So physicians surgeons nurses Catholic Sisters Reform and Orthodox Jews Protestants and other humanitarians established hospitals and when Colorado became a mecca for people with tuberculosis sanatoriums Those pioneers and the communities they served created our community based humanitarian healthcare tradition These stories about our Wild West heritage honor the legacy of our 19th century healthcare pioneers and will inspire and entertain 21st century readers Because we can be inspired only if we understand the facts and because facts are more likely to be understood when presented in context this chronology includes national and international developments that establish an indispensable frame of reference for understanding how our pioneers created the local community based healthcare system that we've inherited

The History of Medical Education in Britain, 2020-01-29 Professional education forms a key element in the transmission of medical learning and skills in occupational solidarity and in creating and recreating the very image of the practitioner Yet the history of British medical education has hitherto been surprisingly neglected Building upon papers contributed to two conferences on the history of medical education in the early 1990s this volume presents new research and original synthesis on key aspects of medical instruction theoretical and practical from early medieval times into the present century Academic and practical aspects are equally examined and balanced attention is given to different sites of instruction be it the university or the hospital The crucial role of education in medical qualifications and professional licensing is also examined as is the part it has played in the regulation of the entry of women to the profession Contributors are Juanita Burnby W F Bynum Laurence M Geary Faye Getz Johanna Geyer Kordes S W F Holloway Stephen Jacyna Peter Murray Jones Helen King Susan C Lawrence Irvine Loudon Margaret Pelling Godelieve Van Heteren and John Harley Warner

to establish the truth beyond doubt then it is not enough to trace one argument to its source and observe its strength and weakness but all the arguments after having been so examined on both sides must be laid in the balance one against another and upon the who let he under standing determines its as sent John Locke on the Conduct of the Understanding
