Sports and the Racial Divide Michael E. Lomax, 2011-03-11 With essays by Ron Briley Michael Ezra Sarah K Fields Billy Hawkins Jorge Iber Kurt Kemper Michael E Lomax Samuel O Regalado Richard Santillan and Maureen Smith This anthology explores the intersection of race ethnicity and sports and analyzes the forces that shaped the African American and Latino sports experience in post World War II America Contributors reveal that sports often reinforced dominant ideas about race and racial supremacy but that at other times sports became a platform for addressing racial and social injustices The African American sports experience represented the continuation of the ideas of Black Nationalism racial solidarity black empowerment and a determination to fight against white racism Three of the essayists discuss the protest at the 1968 Olympic Games in Mexico City In football baseball basketball boxing and track and field African American athletes moved toward a position of group strength establishing their own values and simultaneously rejecting the cultural norms of whites Among Latinos athletic achievement inspired community celebrations and became a way to express pride in ethnic and religious heritages as well as a diversion from the work week Sports was a means by which leadership and survival tactics were developed and used in the political arena and in the fight for justice

Team Sports Training Javier Mallo, 2020-03-10 Team Sports Training The Complexity Model presents a novel approach to team sports training examining football soccer rugby field hockey basketball handball and futsal through the paradigm of complexity Under a traditional prism these sports have been analyzed using a deterministic perspective where the constituent dimensions of the sportsmen were independently examined and treated in isolation It was expected that the body worked as a perfect machine and once all the components were maximized the sportsmen improved their performance If the same closed recipe was applied to all the players that formed part of the squad the global team

performance was expected to be enhanced. As much as these reductionistic models seem coherent when contrasted in practice, we see that the reality of team sports is far more different from the closed conditions in which they were idealized. Team sports contain variable heterogeneous and non-linear constraints which require the development of a different logic to organize their training. During the last years, ecological psychology, the dynamical systems theory, or the constraints-led approach have opened interesting fields of research from which many conceptual foundations can be applied to team sports. Based in this contemporary framework, the current book presents the study of the players and the teams as complex systems using coordination dynamics to explain the emergence of the self-organization episodes that characterize them. In addition, this thinking line provides the reader with the ability to apply all these innovative concepts to their practical training scenarios. Altogether, it is intended to challenge the reader to re-think their training strategy and to develop an original theory and practice of training specific to team sports.

How to Build a Sport or Life Dynasty Norbert A. Baschnagel, 2021-09-20

How to Build a Sport or Life Dynasty By Norbert A. Baschnagel

How to Build a Sport or Life Dynasty is a must-read book not only for those who are currently coaching and those who aspire to coach but also for people who are seeking to live meaningful and productive lives. Coach Baschnagel gives a very detailed and successful plan on how to excel as a coach and how to create a sports dynasty. This plan is based on his expertise, knowledge, and life experience. In his last four years of coaching the team, a record of 57 wins and only 1 loss was compiled. This book can help any coach achieve greater success. In this book, Coach Baschnagel is sharing the tricks of the trade with his readers. He also shares the qualities that are needed for a person not only to be successful in life but also to be significant. If a person wants to have a higher and more satisfying life, this book is a must. As the author has excelled in his personal life coaching and in the community, he has brought that same excellence in this book.

Fr. Sam Bungo, St. Charles Church, New Bethlehem, PA

The book exemplifies how to develop and build a sports or life dynasty and is truly how you live your life. Your persistence, determination, when others said it could not be done, commitment, dedication to others, and your amazing leadership skills are fundamental in shifting from success to significance. Being a part of your Tennis Dynasty for four years and playing under your leadership was both an honor and privilege. At the same time, I didn't realize how valuable the life's lessons were that I was acquiring. You don't always see the magnitude of something while in the middle of it. What you write about is exactly what your expectations were of each player. Good sportsmanship, hard work, discipline, teamwork, training preparation, compassion, self-control, enthusiasm, and friendship are all attributes that you valued and instilled in us as our leader. These qualities have carried over into adulthood and are great strengths to have throughout life. Whether you are a coach wanting to build a team dynasty or an athlete wanting to master his or her skill, this book is a roadmap to do just that.
