Bastard Moons:

The Architecture of America's Stonehenge Mary E. Gage, 2021-06-01 The main complex of the America's Stonehenge site in New Hampshire is a collection of stone chambers enclosures niches standing stones carved drains basins and astronomical alignments The archaeological community has largely dismissed this seemly eclectic collection of structures as the work of an eccentric farmer named Jonathan Pattee who built his house on top of the ruins in the 19th century Other researchers have sought to compare the chambers and astronomical alignments to stone structures from around the world built by other ancient peoples No one has thought to evaluate the site on its own merits specifically evaluating its architecture Architecture can tell you a lot about a culture Using this approach the author unravels the mystery surrounding the site This architectural study revealed the site was built in a series of distinct phases each with its own unique style while at the same time incorporating key concepts and ideas from previous phases There is a clear evolution of building skills and cultural ideas that can be followed through the architectural build out of the site Because key features and ideas were carried forward from one phase to the next we now know that the site was the work of a single culture over a several thousand year period Stone tools and pottery recovered from archaeological excavations at the site confirm that the builders were Native Americans The idea of Native Americans building stone structures for ceremonial and spiritual purposes has gained a lot of credibility over the past twenty five years There is mounting evidence that hundreds of ceremonial stone landscapes CSL with stone cairns niches enclosures standings stones chambers and astronomical alignments found throughout northeastern United States are part of a broad based Native American cultural tradition The America's Stonehenge site is one of the most sophisticated and culturally complex of these sacred ceremonial places The second part of this book uses primary source materials like deeds town records court cases and genealogy to reconstruct the history of the Pattee family who owned the hill where the site is found from 1739 through 1863 The Pattees started out in the 1700s as a prosperous family with a house in North Salem village and a 248 acre farm By the 1820s the third generation was reduced to owning 15 acres of the original farm and living in a small house built on top of the ruins of the site Despite his many financial misfortunes Jonathan Pattee third generation managed to hold on to and protect the site

Moon Alley David Appleby, 2006-02-28 A fathers decision to undertake a do it yourself project for his daughter is made not with love but spite a daughter returns to the home of her childhood not so much to attend her fathers funeral as to carry out a long planned revenge once a month a professor leaves campus to look in on her senile mother only to find herself caught in a test of will and wit and unaware that it is a contest in which the winners always lose a waitress who nightly pines for the one she had allowed to slip away uncharacteristically reaches out for one intense moment of intimacy with a mysterious stranger Those are the stories of just a few of the people whose lives are played out in *Moon Alley* David Applebys carefully crafted stories are written in what the *New England Review* has termed an easy fluid style and that entwined with compassion and an acute awareness of language provides the reader of *Moon Alley* with a

compelling look into the lives of those who live there WHAT PEOPLE ARE SAYING Grady Harp Los Angeles CA United States David Appleby is no newcomer to the field of writing having composed two monographs stimulated by his experience as a grant recipient in creative writing history and literature But none of this incidental information prepares the reader for the solidly unique voice contained in the pages of MOON ALLEY his first novel Appleby writes with lucidity yet at the same time requires of the reader full attention to the microweavings of his narrative a fine almost Joycean rambling of apparent stories that on first appearance seem to be a collection of short stories only to capture us in his ever expanding web of time and place and atmosphere and recognition into a true novel MOON ALLEY is a dark book a journey into the Irish American neighborhood of Philadelphia complete with all the detritus that the passage of time and industrial changes in America wreck on once tender ethnic havens of new immigrants Moon Alley is a dead end dirty place where sundry characters live drink face failure struggle for escape from the destiny that has befallen the neighborhood The gathering places in Applebys gifted hands become visual complete with the stench of old beer dank rooms the neighborhood bar McFaddens Saloon containing The Ladies Room approached through the back entrance where the women gather to drink away their lives and gossip like a feminine mirror of the sots in the front bar Charlies Diner St Apollonias parish and highschool the elevated train which carries the noisy trains along The Avenue which dims the squalor and arguments to a muffled frustration and the apartments and homes that house the down and out folks who live here The characters while similar in environmental shadows are as varied as any fine novel Irish Tom drinks his life away Fiona tends the customers Megan is a waitress in the Diner and confronts her lonely solitude in strange ways including attempting to befriend a flasher Johnny One Ball and his thwarted dreams of having a son Old Lady Ryan and Soapbox Cathy Malloy and Kathleen OConnor who managed to advance to higher education only to be pulled back into the home they escaped due to a parent with senility or a father who died a strange death preburied in cement Each character moves from a minor set decoration in one story to the focal figure in another and another so that by the end of the novel we know all sides of these degraded people As one character phrases the conditions of Moon Alley and The Avenue Kathleen had likened the emotionally impoverished lives lived on The Avenue to a disease something like polio or tuberculosis something so severe that if she didnt escape its gray and gloomy view of life with its mute acceptance of poverty and its blind obedience to St Apollonias that if she followed her mothers lead and contented herself wi

has changed the notion of men itself to include business management skills and monetary power. The book also considers the implications of Chinese soft power outside China for the reconfigurations in masculinity ideals in the global setting. The rising significance of Chinese culture enables Chinese cultural norms including ideals of manhood to be increasingly integrated in the international sphere and to become hybridised. The book also examines the impact of the Japanese and Korean waves on popular conceptions of desirable manhood in China. Overall, it demonstrates that social constructions of Chinese masculinity have changed more fundamentally and become more global in the last three decades than any other time in the last three thousand years.

When he finally meets the woman he has been looking for all his life, he finds not just love and passion but a dark and violent family history that spans generations into humanity's deepest past. Eve is the woman of his dreams, but dream is just another word for nightmare, and Abe knows all about those. Amidst a confused web of lies and secrets, Abe is trying to discover who he is and make sense of what he may become. More than just his future and his new found love is at stake. When he discovers that he has a brother, a man bound by divine destiny to kill him, Abe is going to have to make a difficult choice. A choice that might redeem the world. A choice that just might destroy it. *A Darker Moon* is a dark psychological fantasy and biblical thriller.
