Carberry, 2024-03-06 Since the early days of motion picture production film scores have helped define our emotional and aesthetic perception of stories on screen particularly with space movies and television The music from The Day the Earth Stood Still 2001 A Space Odyssey Star Wars Star Trek Battlestar Galactica and others has helped define the public s awareness of space almost as much as the films themselves In some cases they have redefined the norms of film music Star Wars not only revived the popularity of orchestral film scores but also helped stimulate an increased public interest in classical orchestral music around the world This work explores the music and the composers who have helped define the sound of space for over a century transforming how we perceive space and even inspiring greater interest in space exploration This book also details how music has been performed and played in space since the early days of the space race

**Deleuze and Film Music** Gregg Redner, 2010-12-15 The analysis of film music is emerging as one of the fastest growing areas of interest in film studies Yet scholarship in this up and coming field has been beset by the lack of a common language and methodology between film and music theory Drawing on the philosophy of Gilles Deleuze film studies scholar Gregg Redner provides a much needed analysis of the problem which then forms the basis of his exploration of the function of the film score and its relation to film s other elements Not just a groundbreaking examination of persistent difficulties in this new area of study Deleuze and Film Music also offers a solution a methodological bridge that will take film music analysis to a new level *Two Centuries of British Symphonism* Jürgen Schaarwächter, 2015-02-27 Die britische Sinfonik ist erst in j ngster Zeit ins allgemeine Interesse ger ckt Ein berblick ber die sinfonische Entwicklung im Vereinigten K nigreich seit den Anf ngen im 18 Jahrhundert bis ins 20 Jahrhundert blieb aber bis heute ein Desideratum Der hier vorgelegte berblick zeigt

wie sich die Identität einer britischen Sinfonik über mehr als hundert Jahre entwickelte geprägt durch Einflüsse vom europäischen Kontinent und von dem Bedürfnis eigene Wege zu finden Gegen Ende des 19. Jahrhunderts nahm das sinfonische Schaffen in Großbritannien stark zu brachte jedoch erst mit Edward Elgar einen prominenten Vertreter von internationalem Rang hervor Ein besonderer Schwerpunkt dieser Publikation liegt auf jenen Werken die zu einem gewissen Grade von anderen überschattet wurden unveröffentlicht oder unaufgeführt blieben Das Ergebnis ist das Bild einer vielgestaltigen sinfonischen Landschaft Großbritanniens das die ästhetischen Perspektiven der einzelnen Komponisten wie auch ihre soziokulturellen Kontexte erhellt Ein umfangreiches Verzeichnis aller bekannten Werke und eine ausführliche Bibliographie laden zu weiterer Erkundung des Sujets ein Only in relatively recent times has any real attention been given to British symphonies So a comprehensive survey showing what exists and how the situation in the United Kingdom developed from the beginnings in the 18th century until well into the 20th century is long overdue The preliminary survey presented here shows how a British symphonic identity gradually took shape over more than a century through influences from abroad and at home enterprising attempts to find new ways of expression By the end of the 19th century British symphonists had produced an impressive body of work yet only with the appearance of Elgar's two symphonies in the following decade did this flourishing school find a champion of international renown In this publication light is shone on those works that have to some extent been overshadowed as well as on those that have remained unpublished or unperformed The result is a multi-faceted panorama of British symphonism offering many insights into the composers' thinking and their socio-cultural contexts A comprehensive catalogue of all known works and an extensive bibliography invite readers to delve further into the subject

Twentieth-Century Music and Politics Pauline Fairclough, 2016-02-17 When considering the role music played in the major totalitarian regimes of the century it is music's usefulness as propaganda that leaps first to mind But as a number of the chapters in this volume demonstrate there is a complex relationship both between art music and politicised mass culture and between entertainment and propaganda Nationality self other power and ideology are the dominant themes of this book whilst key topics include music in totalitarian regimes music as propaganda music and national identity migr communities and composers music's role in shaping identities of self and other and music as both resistance to and instrument of oppression Taking the contributions together it becomes clear that shared experiences such as war dictatorship colonialism exile and emigration produced different yet clearly inter-related musical consequences Music and Theology in Nineteenth-Century Britain Martin Clarke, 2016-04-22 The interrelationship of music and theology is a burgeoning area of scholarship in which conceptual issues have been explored by musicologists and theologians including Jeremy Begbie Quentin Faulkner and Jon Michael Spencer Their important work has opened up opportunities for focussed critical studies of the ways in which music and theology can be seen to interact in specific repertoires genres and institutions as well as the work of particular composers religious leaders and scholars This collection of essays explores such areas in relation to the

McNeil,2005 First Published in 2005 Routledge is an imprint of Taylor Francis an informa company The Concert Song Companion Charles Osborne,2012-12-06 WHAT I HAVE attempted in this book is a survey of song the kind of song which one finds variously described as concert art or sometimes even classical song Concert song seems the most useful certainly the least inexact or misleading of some descriptions especially since art song sounds primly off putting and classical song really ought to be used only to refer to songs written during the classical period i e the 18th century Concert song clearly means the kind of songs one hears sung at concerts or recitals Addressing myself to the general music lover who though he possesses no special knowledge of the song literature is never theless interested enough in songs and their singers to attend recitals of Lieder or of songs in various languages I have naturally confined myself to that period of time in which the vast majority of these songs was composed though not necessarily only to those composers whose songs have survived to be remembered in recital programmes today I suppose this to be roughly the three centuries covered by the years 1650 1950 though most of the songs we as audiences know and love were composed in the middle of this period in other words in the 19th century **A Concordance to the Poems of Robert Browning** , **The Music Makers** Michael Trend,1985
