Blood Ivory Andrew McCoy,1985-01-01 **Blood and Ivory** P. C. Hodgell,2007-04-01 Who was Kindrie s father What triggered the massacre of the Knorth women What happened the night Jame got driven out by Ganth Jamethiel Priest s Bane first entered our lives when she walked out of the Haunted Lands on the opening page of God Stalk in 1982 with the haunts on her trail searching for her ten year older twin brother Tori to give him their father s sword and ring But what was she doing in the Haunted Lands in the first place What happened that caused her to leave her home For the past 20 years this has been one of the biggest mysteries of Jame s background The answers to those questions and others are found in the pages of this collection *Blood Ivory* A Tapestry presents eight original stories by P C Hodgell three of them written especially for this collection These stories explore different facets of Jame s life and background and weave a lush and complex picture of this enigmatic figure Also included are new introductions to the stories as well as maps and drawings by P C Hodgell At the publisher s request this title is sold without DRM Digital Rights Management *Blood Ivory* Robin Brown,2011-11-08 masterly account of the massacre of the African elephant *The Spectator* It is more than a thousand years since the exploitation of the elephant began when they were most commonly used as war elephants However it is only in the last hundred years with the coming of the great white hunters and their special elephant guns that the very existence of the African elephant has been threatened With an update by John Hanks WWF s former leading elephant scientist this new edition of *Blood Ivory* tells the story of how the professional hunting fraternity was the first to realise the threat to the elephant and how it kick started the whole conservation movement It is not a story with a happy ending however It is a tale of war colonialists against traditional practices and customs newly independent African countries against each other poachers and smugglers against any kind of constraint Robin Brown draws on his depth of knowledge and understanding of Africa and his career as a leading wildlife film maker to paint a vivid picture of hunting s impact on Africa s elephant population vividly portraying the powerful personalities of those involved on both sides of the massacre **Blood of the Tiger** J. A. Mills,2015-11-24 *Blood of the Tiger* takes readers on a wild ride to save one of the world s rarest animals from a band of Chinese billionaires Many people think wild tigers are on the road to recovery but they are in greater danger than ever from a menace few experts saw coming There may be only three thousand wild tigers left in the entire world More shocking is the fact that twice that many some six thousand have been bred on farms not for traditional medicine but to supply a luxury goods industry that secretly sells tiger bone wine tiger skin d cor and exotic cuisine enjoyed by China s elite Two decades ago international wildlife investigator J A Mills went undercover to expose bear farming in China and discovered the plot to turn tigers into nothing more than livestock Thus begins the story of a personal crusade in which Mills mobilizes international forces to awaken the world to a conspiracy so pervasive that it threatens every last tiger in the wild In this memoir of triumph heartbreak and geopolitical intrigue Mills and a host of heroic comrades try to thwart a Chinese

cadre s plan to launch billion dollar industries banking on the extinction of not just wild tigers but also elephants and rhinos Her journey takes her across Asia into the jungles of India and Nepal to Russia and Africa traveling by means from elephant back to presidential motorcade in the company of man eaters movie stars and world leaders She also journeys to the US where we meet people like Carole Baskin of Big Cat Rescue who work tirelessly to end cub petting and ban private ownership and breeding of tigers and other big cats She finds reason for hope in the increasing number of Chinese who do not want the blood of the last wild tigers to stain their beloved culture and motherland Set against the backdrop of China s ascendance to world dominance *Blood of the Tiger* tells of a global fight to rein in the forces of greed on behalf of one of the world s most treasured and endangered animals

Duffy, 2022-01-01 An exploration of the scale practical reality and future implications of the growing integration of biodiversity conservation with global security concerns There are few keener observers of international biodiversity conservation than Rosaleen Duffy With a ferocity of purpose she investigates the tenuous connection and nuances among illegal wildlife trade terrorism threats and national security Steven R Brechin Rutgers University New Brunswick Debates

regarding environmental security risks have generally focused on climate change and geopolitical water conflicts Biodiversity conservation however is increasingly identified as a critical contributor to national and global security The illegal wildlife trade is often articulated as a driver of biodiversity losses and as a source of finance for organized crime networks armed groups and even terrorist networks Conservationists international organizations and national governments have raised concerns about convergence of wildlife trafficking with other serious offenses including theft fraud corruption drugs and human trafficking counterfeiting firearms smuggling and money laundering In *Security and Conservation* Rosaleen Duffy examines the scale practical reality and future implications of the growing integration of biodiversity conservation with global security concerns Duffy takes a political ecology approach to develop a deeper understanding of how and why wildlife conservation turned toward security oriented approaches to tackle the illegal wildlife trade

Dark Blood Christine Feehan, 2014-09-02 At long last you are truly back with us Zev Hunter was an elite warrior a dark blood dealer of death to rogue Lycans who preyed on mankind He was a loner never given to personal attachments and damned fierce at his job But Zev begins to question his past and his purpose when he awakens in the darkness of the sacred cave of warriors and is soothed back to consciousness by the sensuously familiar voice of one woman the woman who has haunted his fantasies for centuries Branislava member of the Dragonseeker clan Mother Earth called the ancients to witness your rebirth For this half mage half Carpathian temptress the ritual of awakening Zev to the council of warriors was the only way to save him Locked away for his own protection the time has now come for his rebirth for his blood to stir with that of the ancient warriors before him He has been assured by Branislava that their fates are entwined that their spirits are woven together for eternity and that his new purpose in life is beyond imagining Now with a blood sworn vow of honor mercy and endurance and under the influence of a siren as bewitching as Branislava Zev begins to wonder what his purpose is what it means for the future of the Carpathians and what it is about his rebirth that he has to fear After Bram Stoker Anne Rice and Joss Whedon Christine Feehan is the person most credited with popularizing the neck gripper Time Feehan has a knack for bringing vampiric Carpathians to vivid virile life in her Dark Carpathian novels Publishers Weekly *National Institutes of Health Bulletin*, 1927
