**Wesleyan Missionary to the Spaniards at Gibraltar** William Barber,1830      A Year Inland Barbara Belyea,2001-02-14  
Anthony Henday a young Hudson s Bay Company employee set out from York Factory in June 1754 to winter with trading  
Indians along the Saskatchewan River He adapted willingly and easily to their way of life he also kept a journal in which he  
described the plains region and took note of rival French traders success at their inland posts A copy of Henday s journal was  
immediately sent to the company directors in London They rewarded Henday handsomely although they were uncertain  
where he had travelled what groups he had met on the plains and what success he had in opposing rival French traders Since  
then uncertainty about Henday s year inland has increased The original journal disappeared only four copies dating from  
1755 to about 1782 are extant Each text differs from the other three the differences range from variant spellings to word  
choice to contradictory statements on vital questions All four copies are the work of a company clerk later factor named  
Andrew Graham who used them to support his own views on HBC trading policies Twentieth century scholars have based  
their claims for Henday s importance as an explorer trader and observer of Native cultures on a poorly edited transcript of  
the 1782 text They have been unaware or careless of the journal s textual ambiguity A Year Inland presents all four copies for  
the first time together with contextual notes and a commentary that reassesses the journal s information on plains geography  
people and trade      **The Arctic** William Scoresby,1820 Nineteenth century classic on whaling geography and natural
