Birdscapes ,2003 **State of the World 2003** Worldwatch Institute,2003 First Published in 2003 Routledge is an imprint of Taylor Francis an informa company **How Poets See the World** Willard Spiegelman,2005-06-23 Although readers of prose fiction sometimes find descriptive passages superfluous or boring description itself is often the most important aspect of a poem This book examines how a variety of contemporary poets use description in their work Description has been the great burden of poetry How do poets see the world How do they look at it What do they look for Is description an end in itself or a means of expressing desire Ezra Pound demanded that a poem should represent the external world as objectively and directly as possible and William Butler Yeats in his introduction to *The Oxford Book of Modern Verse* 1936 said that he and his generation were rebelling against inter alia irrelevant descriptions of nature in the work of their predecessors The poets in this book however who are distinct in many ways from one another all observe the external world of nature or the reflected world of art and make relevant poems out of their observations This study deals with the crisp elegant work of Charles Tomlinson the swirling baroque poetry of Amy Clampitt the metaphysical meditations of Charles Wright from a position in his backyard the weather reports and landscapes of John Ashbery and the new way of looking that Jorie Graham proposes to explore in her increasingly fragmented poems All of these poets plus others Gary Snyder Theodore Weiss Irving Feldman Richard Howard who are dealt with more briefly attend to what Wallace Stevens in a memorable phrase calls the way things look each day The ordinariness of daily reality is the beginning of the poets own idiosyncratic indeed unique visions and styles The Pet-stock, Pigeon, and Poultry Bulletin ,1880 Ornithologies of Desire Travis V. Mason,2013-09-03 *Ornithologies of Desire* develops ecocritical reading strategies that engage scientific texts field guides and observation Focusing on poetry about birds and birdwatching this book argues that attending to specific details about the physical world when reading environmentally conscious poetry invites a critical humility in the face of environmental crises and evolutionary history The poetry and poetics of Don McKay provide *Ornithologies of Desire* with its primary subject matter which is predicated on attention to ornithological knowledge and avian metaphors This focus on birds enables a consideration of more broadly ecological relations and concerns since an awareness of birds in their habitats insists on awareness of plants insects mammals rocks and all else that constitutes place The book s chapters are organized according to apparatus that is science as ecocritical tool flight and song Reading McKay s work alongside ecology and ornithology through flight and birdsong both challenges assumptions regarding humans place in the earth system and celebrates the sheer virtuosity of lyric poetry rich with associative as well as scientific details The resulting chapters interchapter and concordance of birds that appear in McKay s poetry encourage amateurs and specialists birdwatchers and poetry readers to reconsider birds in English literature on the page and in the field The Poultry Monthly ,1890 **Ecotravel** Philip Harrison,2004 Come venture into the fascinating world of South Africae tm s natural heritage e national parks and game
