Blue Curry:

The Pineapple from Domestication to Commodification Victoria Avery, Melissa Calaresu, 2025-10-15 The pineapple's discovery by European colonisers in the late fifteenth century and its remarkable global trajectory from an early modern object of rarity, desire and horticultural innovation to a cheap canned consumable and fair trade logo today is a story of modern globalisation. *The Pineapple from Domestication to Commodification* is a wide-ranging interdisciplinary volume intended to provoke timely debate and generate radical rethinking of an overly familiar fruit with associations from luxury to kitsch. It deliberately problematizes the pineapple by investigating understudied tensions between its representational power and the historical and political contexts of its worldwide production and consumption. This connects the global and local at the heart of contemporary debates about the nature and origins of our food. It will have cross-disciplinary appeal for scholars of politics, economics, history, plant sciences, food and material culture as well as for broader audiences interested in food, gardening, the environment and visual arts.

Beyond Representation in Contemporary Caribbean Art Carlos Garrido Castellano, 2019-05-03 The Caribbean has been traditionally associated with externally devised mappings and categories, thus appearing as a passive entity to be consumed and categorized. Challenging these forces and representations, Carlos Garrido Castellano argues that something more must be added to the discussion in order to address contemporary Caribbean visual creativity. *Beyond Representation in Contemporary Caribbean Art* arises from several years of field research and curatorial activity in museums, universities and cultural institutions of Jamaica, Trinidad, Martinique, Guadeloupe, Cuba, Dominican Republic, Puerto Rico and the United States. This book explores the ways in which Caribbean individuals and communities have resorted to art and visual creativity to create and sustain public spaces of discussion and social interaction. The book analyzes contemporary Caribbean art in relation to broader discussions of citizenship, cultural agency, critical geography, migration and social justice. Covering a broad range of artistic projects, including curatorial practice, socially engaged art, institutional politics, public art and performance, this book is about the imaginative ways in which Caribbean subjects and communities rearrange the sociocultural frameworks they inhabit and share.
