## **Armageddon U S A:**

The Destiny of the British Empire and the U.S.A William Gordon Mackendrick, 2022-08-01 In *The Destiny of the British Empire and the U S A* William Gordon Mackendrick presents an insightful exploration of historical trajectories and the political symbiosis between Great Britain and the United States focusing on their evolving roles on the international stage. This work reproduced by DigiCat Publishing is an endeavor to preserve the analytical narratives encompassing the fellowship and occasional rivalry between these two powers. Its literary style melds historical analysis with prophetic musings setting it firmly within the broader context of early twentieth century political thought and its concomitant literary expressions. Mackendrick's prose examines the implications of decisions made within these two nations highlighting their impact on the balance of global power and their shared destiny. William Gordon Mackendrick whose background and experiences have informed his interpretations of Anglo American relations imbues his writing with a sense of urgency and historical significance. The author's intellectual voyage into the heart of sweeping geopolitical landscapes provides a theoretical blueprint that may have emerged from his contemplation on the implications of imperialism nationalism and cultural identity. Although specific motives for his focus on this particular topic remain speculative it's clear that Mackendrick's work is shaped by a profound engagement with the world's shifting geopolitical terrain. Given its meticulous reproduction by DigiCat Publishing *The Destiny of the British Empire and the U S A* invites discerning readers to engage with historical political scholarship through a retrospective lens. Scholars of international relations history enthusiasts and readers intrigued by the past and future intersections of British and American hegemonies will find this book to be an indispensable addition to their collection. It's a call to consider the forces of destiny and power that have shaped and will continue to shape the course of two of the world's most influential nations.

*The Untold History of the United States* Oliver Stone, Peter Kuznick, 2012-10-30 Indispensable There is much here to reflect upon President Mikhail Gorbachev As riveting eye opening and thought provoking as any history book you will ever read Can't recommend it highly enough Glenn Greenwald The Guardian Finally a book with the guts to challenge the accepted narrative of recent American history Bill Maher The New York Times bestselling companion to the Showtime documentary series now streaming on Netflix updated to cover the past five years A PEOPLE'S HISTORY OF THE AMERICAN EMPIRE In this riveting companion to their astonishing documentary series including a new chapter and new photos covering Obama's second term Trump's first year and a half climate change nuclear winter Korea Russia Iran China Lybia ISIS Syria and more Academy Award winning director Oliver Stone and renowned historian Peter Kuznick challenge prevailing orthodoxies to reveal the dark truth about the rise and fall of American imperialism **US**

**Environmental History** John Wills, 2012-11-28 Environmental issues in the USA are more important now than ever before The devastation inflicted by Hurricane Katrina growing evidence of global warming and a struggling national energy supply highlight the unfolding crisis Environmental fears translate into US automobile giants plying consumers with fuel efficient

cars in the MPG Lounge of sales Politicians talk of energy independence and getting tough on polluters Fears gravitate around a fast approaching doomsday scenario an environmental endgame of wholesale collapse unless something is done Yet fears of doomsday are nothing new John Wills shows how the current environmental crisis is firmly rooted in the past As well as explaining how today s problems are manifestations of older systems of economics culture and politics he also argues that America has already witnessed a range of doomsday scenarios both real and imagined He identifies and explores a cast of doomsday landscapes that includes the Battle of the Wilderness in Virginia the Santa Barbara Oil Spill the Fable for Tomorrow town featured in Rachel Carson s Silent Spring 1962 and Nevada s Doom Towns 1 and 2 blown apart by atomic testing in the 1950s He reflects on contemporary ruminations over whether nature as a category endures given both the rising contamination of the US landscape and consumer proclivity for celebrating fake mementos of the outdoors such as plastic lawn flamingos and artificial plants And most significantly he poses the question of whether Americans have been inviting doomsday through their long term environmental actions

The Man Who Saved the United States Robert Lee Scarborough, 2008-03 Dr Michael Jeremiah and his family are professing Christians fulfilling their life dreams As good Bible students they know that Some 2000 years ago Jesus Christ was crucified buried and on the third day rose from the dead He died with a mortal body and was resurrected with an immortal body Over 500 persons witnessed Him in His resurrected form After 40 days He gathered His Apostles and gave orders for their mission on the earth After He had spoken He was lifted up as the Apostles watched a cloud received Him out of their sight as he ascended into Heaven Two angels standing beside the Apostles said This Jesus who has been taken up from you into Heaven will come in just the same way as you have watched Him go into Heaven Other scriptures tell us that some day He will return to the earth But sometime prior to this Christ will descend from Heaven with a shout and the trumpet of God to call all true Christians to be caught up in the clouds to meet Him in the air and be taken to Heaven At the moment of this event often called the Rapture Michael and his family look forward to being changed from mortal to immortal bodies and to dwell with God in Heaven forever THEIR LIVES ARE DISRUPTED by 9 11 and the War on Terror Michael Jeremiah the Supreme Council and his family are thrust into positions of power in order to save the teetering United States from economic social and moral collapse Michael relies on his family ties placing many of them in key leadership positions Dr Tandatina Allio Michael s wife a world renown brain surgeon is his second in command His father Vice Admiral John is Director of NSA his grandfather Admiral Peter is Director of Intelligence his brother Thomas is Secretary General of the UN and his sister Rebecca is Director of the Red Cross All the while Michael Jeremiah and his family move through life with the understanding that the Rapture is near But we are getting ahead of ourselves Let s go back to the beginning of this story AMERICA IS IN CRISIS This was the newspaper headline America in Crisis Polls show Americans are fearful of both the present and the future There seems to be no hope Americans want demand that they be rescued that our nation s many problems be solved Rescued from what Solve what problems A

respected panel published a white paper on the subject They reported It is near the end of the George W Bush administration The country is being torn apart over the wars in Iraq and Afghanistan At least at times it appears to be President Bush s private war He never asked Congress for a Declaration of War nor asked the Nation to be directly involved as it was during World War II Our military s hands tied by politics The Nation is in chaos with almost everyone demanding their rights their freedom to do whatever they wish Terrorists have attacked again in four cities more than 30 000 killed Vicious gangs and drug pushers demand their rights our police are handcuffed Purveyors of filth shout freedom of speech pornography is called art Christians and Jews are muzzled Our founding fathers knew that everything has limits and boundaries The Judeo Christian ethic provided the moral foundation to go with our rights and freedoms and moral boundaries were set But now these moral boundaries are absent and freedoms are turning to license edging closer and closer to anarchy Our people do not feel safe sending their children to school leaving their homes Fear is everywhere faith in government is near zero The People pray for a man a superman a bold knight to rescue them and the nation MICHAEL JEREMIAH and the Supreme Council OFFER HOPE During times of crisis 1 *Here's Looking at You* Ernest D. Giglio,2010 Now in its third edition Here s Looking at You Hollywood Film and Politics examines the tangled relationship between politics and Hollywood which manifests itself in celebrity involvement in political campaigns and elections and in the overt and covert political messages conveyed by Hollywood films The book s findings contradict the film industry s assertion that it is simply in the entertainment business and examines how while the majority of Hollywood films are strictly commercial ventures hundreds of movies ranging from Birth of a Nation to Capitalism do indeed contain political messages This new edition has been updated with new photos and cartoons and includes two new chapters one on Afghan Iraqi war films and the other on the treatment of race and gender in Hollywood films that are sure to stimulate discussion Here s Looking at You serves as a basic text for political film courses and as a supplement in American government and film studies courses and will also appeal to film buffs and people in the film industry

**Humans in Outer Space - Interdisciplinary Odysseys** Luca Codignola-Bo,Kai-Uwe Schrogl,2009-06-18 Humans and space When faced with the issue of space exploration one generally has an idea of the elds of study and disciplines that are involved technology physics and chemistry robotics astronomy and planetary science space biology and medicine disciplines which are usually referred to as the sciences In recent discussions the human element of space exploration has attracted more and more the interest of the space sciences As a consequence adjacent disciplines have gained in relevance in space exploration and space research in times when human space ights are almost part of everyday life These disciplines include psychology and sociology but also history philosophy anthropology cultural studies political sciences and law The cont bution of knowledge in these elds plays an important role in achieving the next generation of space exploration where humans will resume exploring the Moon and eventually Mars and wherespacetourism isbeginningtobedeveloped With regard to technology one might soon be prepared for this Much less is this the case with

space exploration by humans rather than by robots Robotic explorations to other planets across the solar system have developed in the past 50 years since the beginning of the space age with the presence of humans in nearby space and the landing on the Moon Space exploration is now not only focused on technological achievements as its developmental social cultural and economic impacts This makes human space exploration a topic to address in a cross disciplinary manner
