**The City Lament** Tamar M. Boyadjian, 2018-12-15 Poetic elegies for lost or fallen cities are seemingly as old as cities themselves In the Judeo Christian tradition this genre finds its purest expression in the book of Lamentations which

mourns the destruction of Jerusalem in Arabic this genre is known as the ritha al mudun In The City Lament Tamar M Boyadjian traces the trajectory of the genre across the Mediterranean world during the period commonly referred to as the early Crusades 1095 1191 focusing on elegies and other expressions of loss that address the spiritual and strategic objective of those wars Jerusalem Through readings of city laments in English French Latin Arabic and Armenian literary traditions Boyadjian challenges hegemonic and entrenched approaches to the study of medieval literature and the Crusades The City Lament exposes significant literary intersections between Latin Christendom the Islamic caliphates of the Middle East and the Armenian kingdom of Cilicia arguing for shared poetic and rhetorical modes Reframing our understanding of literary sources produced across the medieval Mediterranean from an antagonistic orientalist model to an analogous one Boyadjian demonstrates how lamentations about the loss of Jerusalem whether to Muslim or Christian forces reveal fascinating parallels and rich cross cultural exchanges     *The Eclectic review. vol. 1-New [8th] ,1833 Armenia and Byzantium without Borders* ,2023-08-14 Byzantium is more and more recognized as a vibrant culture in dialogue with neighbouring regions political entities and peoples Where better to look for this kind of dynamism than in the interactions between the Byzantines and the Armenians Warfare and diplomacy are only one part of that story The more enduring part consists of contact and mutual influence brokered by individuals who were conversant in both cultures and languages The articles in this volume feature fresh work by younger and established scholars that illustrate the varieties of interaction in the fields of literature material culture and religion Contributors are Gert Boersema Emilio Bonfiglio Bernard Coulie Karen Hamada Robin Meyer Johannes Preiser Kapeller Claudia Rapp Mark Roosien Werner Seibt Emmanuel Van Elverdinghe Theo Maarten van Lint Alexandra Kyriaki Wassiliou Seibt and David Zakarian     *The Heritage of Armenian Literature* Agop Jack Hacikyan,Gabriel Basmajian,Edward S. Franchuk,Nourhan Ouzounian,2000 Preserving Armenia's rich literary tradition from a multitude of viewpoints has been the aim of this three volume work This third volume joins the previous two in making excerpts of Armenian masterpieces accessible in beautifully rendered English translations while enabling readers to enjoy the immediacy of these works through lively discussions of the authors and their times Here the focus is on the eighteenth through twentieth centuries The volume begins with a comprehensive overview of the entire historical social and literary panorama of the periods covered the Armenian Renaissance the development of modern Armenian with its Western and Eastern versions the emergence of a national identity and democratic thinking with their impact on literature and theater and such literary schools as Romanticism Realism and Aestheticism Biographies of more than 130 prominent authors appear in these pages together with critical comments concerning their works and extensive excerpts from the works themselves The texts are edited annotated with footnotes and presented in a format that permits easy comprehension Literature unveils a rich pageant of works in historical perspective The varied experiences from the Armenian past come alive allowing for new understandings and comparisons to literatures of other nations     *Newsletter ,1995 The Evolution of Taste in*

**American Collecting** René Brimo, 2016-12-13 The Evolution of Taste in American Collecting is a new critical translation of Ren Brimo's classic study of eighteenth and nineteenth century patronage and art collecting in the United States. Originally published in French in 1938 Brimo's foundational text is a detailed examination of collecting in America from colonial times to the end of World War I when American collectors came to dominate the European art market. This work helped shape the then fledgling field of American art history by explaining larger cultural transformations as manifested in the collecting habits of American elites. It remains the most substantive account of the history of collecting in the United States. In his introduction Kenneth Haltman provides a biographical study of the author and his social and intellectual milieu in France and the United States. He also explores how Brimo's work formed a turning point and initiated a new area of academic study the history of art collecting. Making accessible a text that has until now only been available in French Haltman's elegant translation of *The Evolution of Taste in American Collecting* sheds new critical light on the essential work of this extraordinary but overlooked scholar.
