Colonial Armies in Southeast Asia Tobias Rettig, Karl Hack, 2005-12-21 Colonial armies were the focal points for some of the most dramatic tensions inherent in Chinese Japanese and Western clashes with Southeast Asia The international team of scholars take the reader on a compelling exploration from Ming China to the present day examining their conquests management and decolonization The journey covers perennial themes such as the recruitment loyalty and varied impact of foreign dominated forces But it also ventures into uncharted waters by highlighting Asian use of colonial forces to dominate other Asians This sends the reader back in time to the fifteenth century Chinese expansion into Yunnan and Vietnam and forwards to regional tensions in present day Indonesia and post colonial issues in Malaysia and Singapore Drawing these strands together the book shows how colonial armies must be located within wider patterns of demography and within bigger systems of imperial security and power American British Chinese Dutch French Indonesian and Japanese which in turn helped to shape modern Southeast Asia Colonial Armies in Southeast Asia will interest scholars working on low intensity conflict on the interaction between armed forces and society on comparative imperialism and on Southeast Asia

Japanese-trained Armies in Southeast Asia Joyce Lebra, 2010 This is the first study by a Western scholar of a significant facet of the history of the Second World War Japanese trained independence and volunteer armies as agents of revolution and modernization At the time the Japanese did not see that their military imprinting would affect a whole generation of political military leadership of nations of post Second World War Southeast Asia Leaders like Suharto Ne Win and Park are all products of Japanese military training

The U.S. Army in Southeast Asia Peter Chalk, 2014-01-06 This RAND report examines the U S Army role in Southeast Asia Under current benign conditions efforts should focus on supporting defense reform addressing transnational threats and balancing China If the outlook deteriorates the United States should increase security cooperation conclude new regional basing agreements expand disaster assistance and create policies to encourage risk averse Chinese behavior

Mendl,2001 **Soldiers and Politics in Southeast Asia** J. Stephen Hoadley, The Cold War brought about increasing interest from scholars in the politics of national development and in the case of civilian led underdeveloped countries the effects of military insurgency Two ideologically opposed positions evolved around the phenomenon of military insurgency The position of technological conservatism favors military insurgency in previously civilian led governments on the presumption that it encourages stability efficiency and importantly anti communism The revisionist position on the other hand is highly critical of technological conservatism especially with regard to its political fervor J Stephen Hoadley asserts that the relevant question is not one of ideological choices rather it is whether a military or civilian led government is better suited for the political and economic development of a particular underdeveloped nation *Soldiers and Politics in Southeast Asia* introduces the reader to the sequences of events that led to military predominance in Thailand Burma South Vietnam Indonesia and Cambodia Hoadley uses the data of five case studies to test and quantify his hypotheses The author characterizes governments controlled by the military as performing slightly less well than civilian led governments in Southeast Asia Hoadley argues that while they are demonstrably less capable in responding to outside and domestic challenges there is little difference between military and civilian led governments in the areas of establishing stability and maintaining law The book concludes that neither the conservative nor radical views are fully correct as to the effects of military led governments on development Publisher's description *World Military Expenditures and Arms Transfers* ,1997 **World Military Expenditures and Arms Transfers, 1996** U.S. Arms Control and Disarmament Agency,1997-09-16 25th edition Provides statistical information on military expenditures arms transfers armed forces and related economic data for 172 countries 1985 1995 Contains tables ranking countries by each variable in 1995 **The Economics of World War II in Southeast Asia** Gregg Huff,2020-10-22 The first comprehensive account of the impact of Japanese occupation on Southeast Asian economies and societies during World War II **Comparative Politics of Southeast Asia** Aurel Croissant,2022-09-01 This textbook provides a comprehensive introduction to the political systems of all ASEAN countries and Timor Leste from a comparative perspective It investigates the political institutions actors and processes in eleven states covering democracies as well as autocratic regimes Each country study includes an analysis of the current system of governance the party and electoral system and an assessment of the state its legal system and administrative bodies Students of political science and area studies also learn about processes of democratic transition and autocratic resilience as well as how civil society and the media influence the political culture in each country This second edition features revised and updated versions of all country studies and a new chapter that discusses the trends of democratization and autocratization in Southeast Asia in the late 20th and early 21st centuries **Bulletin of the Atomic Scientists** ,1997-01 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world *Nations and States in Southeast Asia* Nicholas

Tarling,1998-05-13 This reflective and provocative 1998 book outlines the emergence of the nation states of modern Southeast Asia It considers various ways of looking at Southeast Asian history combining narrative analysis and discussion The book focuses mainly on the period from the eighteenth century to the present It is divided into three sections the first gives a broad historical overview of Indonesia Malaysia Singapore Brunei the Philippines Burma Myanmar Vietnam and Siam Thailand the second reflects in a comparative context on significant problems in understanding Southeast Asia s past and present the third explores the current state of writing Southeast Asian history Underlying the discussion is an awareness of how ongoing tensions between East and West shape history and frame the present This book reflects a lifetime s scholarship and will become a major interpretive synthesis of modern Southeast Asia *Forgotten Armies* Christopher Alan Bayly,Timothy Norman Harper,2005 In the early stages of the Second World War the vast crescent of British ruled territories stretching from India to Singapore appeared as a massive Allied asset It provided scores of soldiers and great quantities of raw materials and helped present a seemingly impregnable global defense against the Axis Yet within a few weeks in 1941-42 a Japanese invasion had destroyed all this sweeping suddenly and decisively through south and southeast Asia to the Indian frontier and provoking the extraordinary revolutionary struggles which would mark the beginning of the end of British dominion in the East and the rise of today s Asian world More than a military history this gripping account of groundbreaking battles and guerrilla campaigns creates a panoramic view of British Asia as it was ravaged by warfare nationalist insurgency disease and famine It breathes life into the armies of soldiers civilians laborers businessmen comfort women doctors and nurses who confronted the daily brutalities of a combat zone which extended from metropolitan cities to remote jungles from tropical plantations to the Himalayas Drawing upon a vast range of Indian Burmese Chinese and Malay as well as British American and Japanese voices the authors make vivid one of the central dramas of the twentieth century the birth of modern south and southeast Asia and the death of British rule *An Unpatriotic History of the Second World War* James Heartfield,2012-09-28 The Second World War was not the Good War of legend James Heartfield explains that both Allies and Axis powers fought for the same goals territory markets and natural resources *The Greater East Asia Co-Prosperity Sphere* Jeremy A. Yellen,2019-04-15 The Greater East Asia Co Prosperity Sphere offers a lucid dynamic and highly readable history of Japan s attempt to usher in a new order in Asia during World War II Cross Currents East Asian History and Culture Review In The Greater East Asia Co Prosperity Sphere Jeremy A Yellen exposes the history politics and intrigue that characterized the era when Japan s total empire met the total war of World War II He illuminates the ways in which the imperial center and its individual colonies understood the concept of the Sphere offering two sometimes competing sometimes complementary and always intertwined visions one from Japan the other from Burma and the Philippines Yellen argues that from 1940 to 1945 the Greater East Asia Co Prosperity Sphere epitomized two concurrent wars for Asia s future the first was for a new type of empire in Asia and the second was a political war waged by nationalist elites in the colonial

capitals of Rangoon and Manila Exploring Japanese visions for international order in the face of an ever changing geopolitical situation The Greater East Asia Co Prosperity Sphere explores wartime Japan s desire to shape and control its imperial future while its colonies attempted to do the same At Japan s zenith as an imperial power the Sphere represented a plan for regional domination by the end of the war it had been recast as the epitome of cooperative internationalism In the end the Sphere could not survive wartime defeat and Yellen s lucidly written account reveals much about the desires of Japan as an imperial and colonial power as well as the ways in which the subdued colonies in Burma and the Philippines jockeyed for agency and a say in the future of the region Army Information Digest ,1961 *Professional Journal of the United States Army* ,1985
