Armut Liebe Ehre Studien Zur Historischen Kulturforschung:

Queenship and Sanctity Sean Gilsdorf, 2004-07 *Queenship and Sanctity* brings together for the first time in English the anonymous *Lives of Mathilda and Odilo of Cluny's Epitaph of Adelheid* Richly annotated with an extensive introduction placing the texts and their subjects in historical and hagiographical context it provides teachers and students with a crucial set of sources for the history of Europe particularly Germany in the tenth and eleventh centuries for the development of sacred biography and medieval notions of sanctity and for the life of aristocratic and royal women in the early Middle Ages

Believe Not Every Spirit Moshe Sluhovsky, 2008-11-15 From 1400 through 1700 the number of reports of demonic possessions among European women was extraordinarily high During the same period a new type of mysticism popular with women emerged that greatly affected the risk of possession and as a result the practice of exorcism Many feared that in moments of rapture women who had surrendered their souls to divine love were not experiencing the work of angels but rather the ravages of demons in disguise So how then asks Moshe Sluhovsky were practitioners of exorcism to distinguish demonic from divine possessions Drawing on unexplored accounts of mystical schools and spiritual techniques testimonies of the possessed and exorcism manuals *Believe Not Every Spirit* examines how early modern Europeans dealt with this dilemma The personal experiences of practitioners Sluhovsky shows trumped theological knowledge Worried that this could lead to a rejection of Catholic rituals the church reshaped the meaning and practices of exorcism transforming this healing rite into a means of spiritual interrogation In its efforts to distinguish between good and evil the church developed important new explanatory frameworks for the relations between body and soul interiority and exteriority and the natural and supernatural

Western Perspectives on the Mediterranean Andreas Fischer, Ian Wood, 2014-06-19 Based on close analyses of contemporary texts and backed by an examination of the origins of the elements transferred and of the process of transmission the contributors to this volume focus on the perception and adaptation of knowledge and cultural elements in the West Taking a variety of approaches they shed light on the changing lines of communication between the Byzantine empire and other parts of the Mediterranean on the one hand and the Burgundian Frankish and Anglo Saxon realms and the Papacy on the other

Perceiving War and the Military in Early Christian Gaul (ca. 400-700 A.D.) Laury Sarti, 2013-09-12 The passage from Antiquity to the Middle Ages has been largely studied in the light of the thesis of a gradual transformation which is in contradiction of the previous assumption of an abrupt break due to war and general calamity *Perceiving War and the Military* reassesses this historical period of transition by an investigation of the contemporary world of thought that examines the impact and significance of a permanently increasing contact with warfare and armed violence Her studies confirm the assumption of a gradual shift but they most of all show that the irrevocable end of the Roman Peace was a crucial factor in the late Roman world becoming gradually medieval

In the Shadow of "Savage Wolves" Sigrun Haude, 2022-01-10 This book examines the multifaceted reactions of political and religious leaders to the

Anabaptist reign in Münster 1534-1535. It takes as its point of departure Protestant Strasbourg, Catholic Cologne as well as the Rhineland and then broadens the perspective to imperial estates and the empire. The author analyzes the representations of the Münsterites and juxtaposes the fierce language with the actions that were taken to eliminate the Anabaptist menace at home and in Münster. The book is particularly important for scholars of Catholic Reform of the empire and of confessionalization of Cologne and Strasbourg and of Anabaptism. Spiritual Kinship as Social Practice Bernhard Jussen, 2000. This book deals with kinship in the early Middle Ages. Most scholars agree in theory that kinship is not a biological fact but a universally deployable system for structuring social relations. In empirical practice, however, research on kinship has focused almost exclusively on descent and alliance. This book addresses kinship beyond these concepts. It is a study of godparenthood and adoption in Frankish society at the time when Roman adoption was disappearing and godparenthood was being invented as a social tool. BOOK JACKET Title Summary field provided by Blackwell North America Inc. All Rights Reserved. Creating Community with Food and Drink in Merovingian Gaul B. Effros, 2019-07-24. Creating Community with Food and Drink in Merovingian Gaul exposes the manner in which feasting and fasting in other words ritualized actions not performed solely for the purpose of nourishment were central to social interaction in Gaul both prior and subsequent to Christianization of the mixed population of Franks and Gallo-Romans. In exploring these issues using a multidisciplinary methodology, Effros suggests that scholars may assess historical manifestations of the use of food and drink to create and reinforce the social hierarchy. Effros addresses the tensions between monastic and lay communities and focuses on patronage through food and drink as a source of informal power, a subject too often overlooked in favour of institutional structures more familiar to twentieth-century historians. Marriage Rituals Italian Style Roni Weinstein, 2004. The book describes the three major phases of the marriage ritual: matchmaking, betrothal, the wedding, and presents thematic issues such as the youth subculture, gift exchanges, the honor ethos. It is based on a wealth of primary documents, mainly manuscripts in various literary genres. Regna and Gentes Hans-Werner Goetz, Jörg Jarnut, Walter Pohl, 2003. This book is the first comprehensive and comparative study of the difficult relationship between ethnic identities and political organisation in the post-Roman and early medieval kingdoms. 16 authors, historians, archaeologists, and linguists deal with ten important kingdoms of this period and with its political and legal context. Medieval Transformations: Texts, Power, and Gifts in Context Esther Cohen, Mayke de Jong, 2022-02-28. This volume deals with shifts and changes that took place during the Middle Ages when things or ideas or writings were transferred from time to time, place to place, or one ideological realm to another. The same objects, ideas, or texts changed their meaning, impact, or symbolic value according to different contexts. The twelve papers written by leading experts investigate the authority attributed to texts and their canonization in different contexts, the shifting uses and meanings of gifts from honorable instruments in the settlement of disputes to corruption and bribery, and the transition of violence and power from relationships between equals to a tool for the maintenance of

hierarchies Contributors include Gadi Algazi Monique Bernards Arnoud Jan Bijsterveld Esther Cohen Valentin Groebner Yitzhak Hen Mayke de Jong Rob Meens Marco Mostert Thomas F X Noble Timothy Reuter Hendrik Teunis and Stephen D White

The Medieval Gift and the Classical Tradition Lars Kjaer, Lars Kjær, 2019-08-29 Explores how classical ideals of generosity influenced the writing and practice of gift giving in medieval Europe

Sexuality, State, and Civil Society in Germany, 1700-1815 Isabel V. Hull, 2018-09-05 This long awaited work reconstructs the ways in which the meanings and uses of sex changed during that important moment of political and social configuration viewed as the birth of modernity Isabel V Hull analyzes the shift in the sexual system which occurred in German speaking Central Europe when the absolutist state relinquished its monopoly on public life and presided over the formation of an independent civil society Hull defines a society s sexual system as the patterned way in which sexual

behavior is shaped and given meaning through institutions She shows that as the absolutist state encouraged an independent sphere of public activity it gave up its theoretically unlimited right to regulate sexual behavior and invested this right in the active citizens of the new civil society Among the questions posed by this political and social transformation are When does sexual behavior merit society's regulation What kinds of behaviors and groups prompt intervention What interpretive framework does the public apply to sexual behavior Hull persuades us that a culture's sexual system can be understood only in relation to the particularities of state law and society and that when state and society are examined through the sexual lens much conventional wisdom is cast in doubt

A History of Madness in Sixteenth-Century Germany H. C. Erik Midelfort, 1999 This magisterial work explores how Renaissance Germans understood and experienced madness It focuses on the insanity of the world in general but also on specific disorders examines the thinking on madness of theologians jurists and physicians and analyzes the vernacular ideas that propelled sufferers to seek help in pilgrimage or newly founded hospitals for the helplessly disordered In the process the author uses the history of madness as a lens to illuminate the history of the Renaissance the Reformation and Counter Reformation the history of poverty and social welfare and the history of princely courts state building and the civilizing process Rather than try to fit historical experience into modern psychiatric categories this book reconstructs the images and metaphors through which Renaissance Germans themselves understood and experienced mental illness and deviance ranging from such bizarre conditions as St Vitus's dance and demonic possession to such medical crises as melancholy and mania By examining the records of shrines and hospitals where the mad went for relief we hear the voices of the mad themselves For many religious Germans sin was a form of madness and the sinful world was thoroughly insane This book compares the thought of Martin Luther and the medical religious reformer Paracelsus who both believed that madness was a basic category of human experience For them and others the sixteenth century was an age of increasing demonic presence the demon possessed seemed to be everywhere For Renaissance physicians however the problem was finding the correct ancient Greek concepts to describe mental illness In medical terms the late sixteenth century was the age of melancholy For jurists the customary insanity defense did not clarify whether melancholy persons were responsible for their actions and they frequently solicited the advice of physicians Sixteenth century Germany was also an age of folly with fools filling a major role in German art and literature and present at every prince and princeling's court The author analyzes what Renaissance Germans meant by folly and examines the lives and social contexts of several court fools

Reordering Marriage and Society in Reformation Germany Joel F. Harrington, 1995-01-27 This book examines the impact of the Protestant Reformation on both the ideal and practice of marriage in sixteenth century Germany Combining extensive archival work with a broad synthesis of scholarly research in legal theological and social history it provides the most comprehensive evaluation to date of the Reformation's impact on marriage The author compares Protestant reforming goals and achievements to those of contemporary Catholics All sixteenth

century campaigns to restore traditional family values he argues must be viewed in the context of more gradual social transformations in private morality public authority and familial relations The apparent innovations of the reformers including the abolition of clerical celibacy and introduction of divorce fade in comparison to their much greater adherence to the theological legal and social traditions shared with their Catholic ancestors and contemporaries **Rebellion, Community and Custom in Early Modern Germany** Norbert Schindler, 2002-10-17 When this volume first appeared in German it inspired a whole generation of young scholars Schindler recreates the lives of both the poor and excluded the milieu of the burghers and the rumbustuous lifestyles of the Counts von Zimmern A true archivist he evokes the lost worlds of sixteenth and seventeenth century people He investigates popular nicknames snowball fights carnival rituals even what people did at night time before the advent of lighting A final essay deals with an extraordinary late set of trials for witchcraft in which over 200 people died Translated into English for the first time the volume contains a new Foreword by Natalie Zemon Davis and a new introductory essay setting out the key influences of Schindler's work Norbert Schindler is the leading exponent of historical anthropology in the German speaking world A founding member of the German journal *Historische Anthropologie* Schindler teaches at the University of Salzburg
