Photography from Surrealism to Contemporary Art Julia Kelly, 2017-07-05 Taking its departure point from the 1933 surrealist  
photographs of involuntary sculptures by Brassa nd Dal Found Sculpture and Photography from Surrealism to Contemporary  
Art offers fresh perspectives on the sculptural object by relating it to both surrealist concerns with chance and the crucial  
role of photography in framing the everyday This collection of essays questions the nature of sculptural practice looking to  
forms of production and reproduction that blur the boundaries between things that are made and things that are found One  
of the book s central themes is the interplay of presence and absence in sculpture as it is highlighted disrupted or multiplied  
through photography s indexical nature The essays examine the surrealist three dimensional object its relation to and  
transformation through photographs as well as the enduring legacies of such concerns for the artwork s materiality and  
temporality in performance and conceptual practices from the 1960s through the present Found Sculpture and Photography  
sheds new light on the shifts in status of the art object challenging the specificity of visual practices pursuing a radical  
interrogation of agency in modern and contemporary practices and exploring the boundaries between art and everyday life
