*Making Harvard Modern* Morton Keller, Phyllis Keller, 2001-11-15 *Making Harvard Modern* is a candid richly detailed portrait of America's most prominent university from 1933 to the present seven decades of dramatic change Early twentieth century Harvard was the country's oldest and richest university but not necessarily its outstanding one By the century's end it was widely regarded as the nation's and the world's leading institution of higher education With verve humor and insight Morton and Phyllis Keller tell the story of that rise a tale of compelling personalities notable achievement and no less notable academic pratfalls Their book is based on rich and revealing archival materials interviews and personal experience Young humbly born James Bryant Conant succeeded Boston Brahmin A Lawrence Lowell as Harvard's president in 1933 and set out to change a Brahmin dominated university into a meritocratic one He hoped to recruit the nation's finest scholars and an outstanding national student body But the lack of new money during the Depression and the distractions of World War Two kept Conant and Harvard from achieving this goal In the 1950s and 1960s during the presidency of Conant's successor Nathan Marsh Pusey Harvard raised the money recruited the faculty and attracted the students that made it a great meritocratic institution America's university The authors provide the fullest account yet of this transformation and of the wrenching campus crisis of the late sixties During the last thirty years of the twentieth century a new academic culture arose meritocratic Harvard morphed into worldly Harvard During the presidencies of Derek Bok and Neil Rudenstine the university opened its doors to growing numbers of foreign students women African and Asian Americans and Hispanics Its administration faculty and students became more deeply engaged in social issues its scientists and professional schools were more ready to enter into shared commercial ventures But worldliness brought its own conflicts over affirmative action and political correctness over commercialization over the ever higher costs of higher education This fascinating account the first comprehensive history of a modern American university is essential reading for anyone with an interest in the present state and future course of higher education

Clearinghouse on Vocational and Technical Education, the Center for Vocational and Technical Education, the Ohio State University Ohio State University. Center for Vocational and Technical Education,1971 *The Commercialisation of English Society, 1000-1500* R. H. Britnell,1996 The commercialisation of English society offers a major new interpretation of social and economic change in England over five centuries By 1500 English livelihoods depended more upon money and commercial transactions than ever before the institutional framework of markets had been transformed and urban development was more pronounced These changes were not however caused by any unilinear development of population output or money supply This pioneering study examines both institutional and economic transformation and the social changes that resulted and stresses the limited importance of formal trading institutions for the development of local trade Commercial transition is throughout analysed from a broader perspective that looks at the changing power relations within medieval society which might loosely be described as feudal and considers how these relations were affected by such commercial development

The Architects of America Russell Blackwell,2012 The Freemasons were in on the ground floor during the construction of the American Republic This book is a study of the role played by Freemasons in designing the United States and an analysis of possible symbolic meanings they may have built into the very shape of the nation It is certainly well known that a theoretical basis for what was to become America existed from the time of Richard Hakluyt and Sir Francis Bacon whilst the potential symbolism of Washington DC s street plan has become the stuff of popular legend The author s thesis falls somewhere in between that from 1733 onwards right up to the statehood of Hawaii in 1959 the alignment size shape and even elevation of the 50 states has been carefully constructed to a plan a design that identifies America as an architectural phenomenon as well as a political and social unit The narrative concentrates on the development of Masonic ritual during the eighteenth and 19th centuries especially their description of the ideal building or Temple and the emergence of a simple but highly symbolic mathematical formula that recurs regularly throughout the history of the Republic
