Bound by Creativity Hannah Wohl, 2021-06-23 In *Creative Visions* sociologist Hannah Wohl draws on more than one hundred interviews and two years of ethnographic research in the New York contemporary art market developing a sociological perspective on creativity through the analytic lens of judgment The artists she encountered range from those trying to land their first solo exhibition to those with several dozens of museum exhibitions She visited their studios and saw firsthand how they decided which works to leave unfinished or to destroy put into storage or exhibit She observed the installation of exhibitions in galleries assisted in selling artwork for a gallery and followed private collectors around art fairs and VIP collector events Moments of judgment whether by artists curators dealers or buyers led her to uncover that artistic practices are deeply sociological both because artists' decisions are informed by their interactions with others and because artists' decisions about their work affect the objects which circulate through the social world Artists recognize that exhibitors and collectors prefer artists whom they deem to display a clear signature style Wohl also explores judgment in art as part of the creative process Evaluation she says is both a way that one judges how good a work is and how one makes decisions about producing work Our understanding of creative work rests on these highly social dynamics Wohl shows shedding new light on the production of cultural objects and prestige

The Road to Parnassus: Artist Strategies

in Contemporary Art Diego Mantoan,2020-10-06 How can one become a successful artist Where should one start a career in the art world What are useful strategies to achieve recognition in the art system Such questions hoard in students minds ever since entering art school and they probably chase every kind of art professional who is at an early career stage The Road to Parnassus tries to understand what makes a good start in today s art world who are influential players in the field and which strategies might apply The swift career ascension of Glasgow artist Douglas Gordon one of today s leading visual artists and of the broader YBA generation that rose into worldwide prominence in the 1990s Damien Hirst and Sarah Lucas among the best known serves as a convenient case to analyse contemporary artist strategies This book takes a multidisciplinary approach spanning from traditional art history to sociology and economics pursuing the reconstruction of the field of forces in art as intended by French sociologist Pierre Bourdieu Compared to previous publications on art system dynamics such as Thompson s The 12 Million Stuffed Shark this book offers an enhanced understanding of the factors that allow a young artist to enter the arena of contemporary art The present research should help uncover the art system logic which appears enigmatic to non experts revealing that artists are aware they need to consider global trends beat competitors and meet the demands of dealers collectors curators and museums This book furthers existing contributions on the YBAs for example Stallabrass High Art Lite offering innovative conclusions on recent British art such as on the duality between London and Glasgow the gender opposition among emerging artists and the predominance of resourceful authors Official Catalogue of the Fine Art Department ,1862 The A-Z of Art Nicola Hodge,2004 The Art and Artists of the Fifth Zionist Congress, 1901 Gilya Gerda Schmidt,2003-10-01 Martin Buber and friends successfully lobbied the congress for inclusion of cultural Zionism into the official agenda of the Zionist organization resulting in the establishment of the Bezalel Art Institute in Jerusalem in 1905 In the first book of its kind Gilya Gerda Schmidt places this art exhibition in the context of political Zionism as well as anti Semitism Jews had been denied the opportunity to be creative and religious Zionists feared that Jewish culture would usurp religion within the Zionist movement Hermann Struck an artist and Orthodox Jew became a founding member of the religious Zionist Party further supporting Buber s assertion that culture and religion were not at odds The forty eight works of art in the exhibition were created by eleven artists all but two of whom were famous in their lifetime Until now their works had been largely forgotten In the last decade contributing artists Ephraim Lilien Lesser Ury Jozef Israels Struck and Maurycy Gottlieb have enjoyed a revival of their work *Facts & Feelings* Hannelore Magnus,Katlijne van der Stighelen,2015 The history of emotions has gained more and more scholarly attention evidenced by an affective turn or emotional turn in historical research Many publications have appeared and internationally oriented research centres and conferences have been set up and organized This volume brings the importance of a clear understanding of historical feelings into the research area of art historians Even though the depiction of emotions is an important discipline in its own right in this volume the concept of the artist and his or her own personal feelings often in

connection with the creation of a work of art is prioritised Although it is argued that a painter had to be able to feel emotions in order to depict them correctly the articles brought together in this volume focus primarily on the traces of artist s emotions feelings that can be derived from archival documents secondary sources and paintings facts Each author has tried in his or her own way to elucidate both the written and visual expressions of an artist s personal emotions **Art** Susie Hodge,2014-02-06 Art introduces readers to 100 of the world s most important artists and their paintings from the 13th century to the modern era Works by artists including Caravaggio Vermeer van Gogh and Warhol are reproduced in superb high quality arranged chronologically and set in their historical context by Susie Hodge s concise and readable narrative Including explanations of key periods in art history from the Early Renaissance to Dutch Realism and from Rococo to Pop Art a guide to the world s best art galleries and a helpful glossary of key terms this is the perfect book for any art lover
