Olsen,Antonina Harbus,Tette Hofstra,2001 Medieval writers who translated Latin texts into Germanic vernaculars not only transmitted their originals but driven by individualistic impulses and cultural conventions also transformed them This process of domesticating texts was fundamentally creative and might more accurately be described as reconstruction The essays in *Germanic Texts and Latin Models* Medieval Reconstructions explore the ways in which Latin texts and traditions were reconstructed in Old English Old Icelandic and Old High German and cover a range of genres legal texts genealogies histories and poetry They examine how medieval Germanic authors negotiated the need to transmit their models while at the same time fulfilling their own political artistic and didactic objectives in the creation of vernacular texts These new studies demonstrate the variety of ways in which medieval Germanic texts were indebted to their Latin exemplars while reflecting their new culturally specific circumstances in the complex nexus of Latin learning and Germanic lore **A Critical Companion to Old Norse Literary Genre** Massimiliano Bampi,Carolynne Larrington,Sif Rikhardsdottir,2020 A comprehensive guide to a crucial aspect of Old Norse literature *Poetry in Sagas of Icelanders* Margaret Clunies Ross,2022 First full analysis of the skaldic verse appearing in the family sagas of Icelanders considering why and how it is deployed Sagas of Icelanders also called family sagas are the best known of the many literary genres that flourished in medieval Iceland most of them achieving written form during the thirteenth and early fourteenth centuries Modern readers and critics often praise their apparently realistic descriptions of the lives loves and feuds of settler families of the first century and a half of Iceland s commonwealth period c AD 970 1030 but this ascription of realism fails to account for one of the most important components of these sagas the abundance of skaldic poetry mostly in dróttkvætt court metre which comes to saga heroes lips at moments of crisis These presumed voices from the past and their integration into the narrative present of the written sagas are the subject of this book It investigates what motivated Icelandic writers to develop this particular mode and what particular literary effects they achieved by it It also looks at the various paths saga writers took within the evolving prosimetrum a mixed verse and prose form and explores their likely reasons for using poetry in diverse ways Consideration is also given to the evolution of the genre in the context of the growing popularity in Iceland of romantic and legendary sagas A final chapter is devoted to understanding why a minority of sagas of Icelanders do not use poetry at all in their narratives what particular literary effects they achieved by it It also looks at the various paths saga writers took within the evolving prosimetrum a mixed verse and prose form and explores their likely reasons for using poetry in diverse ways

Emotional Alterity in the Medieval North Sea World Erin Sebo,Matthew Firth,Daniel Anlezark,2023-08-24 This book addresses a little considered aspect of the study of the history of emotions in medieval literature the depiction of perplexing emotional reactions Medieval literature often confronts audiences with displays of emotion that are improbable physiologically impossible or simply unfathomable in modern social contexts The intent of such episodes is not always clear medieval texts rarely explain emotional responses or their motivations The implication is that the meanings communicated by such emotional display were so obvious to their intended audience that no explanation was required This raises the question of whether such meanings can be recovered This is the task to which the contributors to this book have put themselves In approaching this question this book does not set out to be a collection of literary studies that treat portrayals of emotion as simple tropes or motifs isolated within their corpora Rather it seeks to uncover how such manifestations of feeling may reflect cultural and social dynamics underlying vernacular literatures from across the medieval North Sea world

The Antagonists and Troublemakers in Old Norse Literature are here explored in their diversity ranging from their literary psychology to their characteristics which often challenge gender norms.
